2.1. Процедура

Заглавие: Procurement of consultancy services for the execution of waste analyses.

Описание: PURPOSE AND SCOPE The contracting authority shall enter into a framework agreement with a tenderer for consultancy services for planning, implementing and preparing a report for waste analyses. In accordance with the Waste Regulation chapter 10a, REG is obligated to ensure the sorting and material recovery of several waste types. In order to document the sorting requirements, as well as quality requirements and the necessary costs for the collection and waste management in the manufacturer responsibility schemes, it is decisive to have an overview of the composition of the waste in REG's different waste streams. There can also be a need for waste analyses or other surveys in order to increase knowledge on the composition of bulky waste, household like business waste or to measure the effect of campaigns etc. The agreement has an annual expected consumption of NOK 1.5 million. The contracting authority draws attention to the fact that the estimate is based on previous consumption and the expected future need. The framework agreement has a maximum value of NOK 12 million. The estimates are only a guideline and are without obligation for the Contracting Authority.

Описание: Regarding miljø This procurement has a climate footprint and an environmental impact that is immaterial, i.e. it has a climate footprint and an environmental impact that is of marginal importance. The procurement itself is also part of an environmental commitment. By obtaining a better overview of the result of the source sorting in Oslo, REG can take measures that contribute to reducing the impact of the environment. There will be smaller amounts with the hire of tents for analyses, disposable suits and safety equipment. This makes up a small part of the procurement. There is little transport in the contract, but there will still be strict requirements regarding the tenderer's transport. The procurement has a marginal impact on the environment and in itself contributes to improving the environment. It is, therefore, not relevant to use the environment criterium (30%) as a part of the award.
