5.1.9. Критерии за подбор

Източници на критерии за избор: Уведомление

Критерий: Финансови коефициенти

Описание на критерия за подбор: Economic and financial standing The applicant must confirm the economic ability in the ESPD part IV.B with information from the latest annual

report regarding the following economic indicators: 1. Equity (total equity incl. share capital, reserves, revaluation, retained earning etc.) 2. Equity ratio (equity/total assets). This must be stated with two decimals. If the applicant relies on the capacities of other entities or the applicant is a group of economic operators the information for the ESPD part IV.B must also be given in a separate ESPD from each of these entities. It is the sole responsibility of the applicant to secure that the minimum requirements are reached based on consolidation when the applicant is relying on the capacity of other entities or when the applicant is a group of economic operators. Minimum requirement: Equity from the latest annual report must, at the time of prequalification, be at least EUR 380,000 Equity ratio from the latest annual report must, at the time of prequalification, be at least 20 pct. If the equity ratio is between 15 pct. and 20 pct. the applicant can qualify if Equity exceeds EUR 228,000

Критериите ще бъдат използвани за подбор на кандидатите, които да бъдат поканени за втория етап на процедурата

Критерий: Референции за определени доставки

Описание на критерия за подбор: Technical and professional ability The suitability of applicants fulfilling the minimum requirements to economic and financial standing will be assessed based on technical and professional ability. The ability will be assessed based on references which can be filled in ESPD part IV.C. The applicant is allowed to submit up to 3 most comparable and relevant references undertaken in the past 5 years as part of the application. By "undertaken in the past 5 years" implies that the reference must not have been completed prior to the date reached when counting 5 years backwards from the submission date for prequalification. References older than this will not be taken into consideration. References which have not yet been fully completed can be included as part of the application, however the applicant must describe the parts which have not yet been delivered, and this may affect the evaluation of the application, cf. section 2.3. The references should describe XLPE-insulated AC underground cables of 132 kV or higher, or cable systems at an equivalent voltage level, delivered and executed within Europe, and include: A specific description of deliveries, including: • Voltage level, cable type and tasks performed (e.g. design, fabrication, factory testing, supply, transport). • Length of the cable route and confirmation of delivery lengths, including the ability to deliver cables in lengths of 1,500 m on a single drum with a maximum drum diameter of 4.2 m. • Delivery of cable systems, including handling of cable drums • Description of type testing according to IEC 60840, covering a 132 kV cable system with 1200 mm² conductor size, including electrical stress level at semi-conducting layers during type testing. The description of type testing is relevant for tests performed within the last 5 years. • Production and test facilities for the power cables • Information on contact data (name, email, and phone number) for references • Date of initiation and final delivery (day, month, year) Any ambiguities and/or incomprehensibilities may have a negative effect on the selection of applicants. Please note the "description" box in ESPD part IV.C. can contain more text than is visible and it is possible to copy paste text into the box. If the applicant is relying on the capacity of other entities or the applicant is a group of economic operators the maximum number of references to be submitted must still be respected and cannot exceed 3 when combined. If more are submitted, the Contracting Authority will only consider the most recent references determined by date of final delivery, in this case not yet finished references will not be included. If the applicant relies on other entities capacity or is part of a group of economic operators the information concerning ESPD part IV.C must be submitted in separate ESPD's for each entity.

Критериите ще бъдат използвани за подбор на кандидатите, които да бъдат поканени за втория етап на процедурата

Информация за втория етап на двуетапна процедура:

Минимален брой кандидати, които да бъдат поканени за втория етап на процедурата: 1

5.1.10. Критерии за възлагане

Критерий:

Вид: Цена

Описание: Prices must be stated in Appendix 3A - Schedule of Prices (document no. 25 /16717-15). Tenderers must enter prices in the specified yellow columns in both the 'Contract – Total' and 'Price Regulation' sheets. Prices must be stated in EUR and exclusive of VAT but inclusive of all other expenses associated with the purchase. When evaluating 'Price', the Contracting Authority will evaluate the total cost for evaluation purposes, including all prices entered in the specified yellow columns in Appendix 3A - Schedule of Prices (document no. 25 /16717-15)

Описание: Technical Solution The evaluation will be based on a description of the Technical Solution offered. The description should demonstrate the technical level of the solution, and include these elements: Description of the complete cable design, including engineering, design, documentation, calculations, routine and sample testing setup, and the robustness of the mechanical design, in accordance with Appendix 2 (132 kV cable supply – customer's requirements, technical general requirements), Section 9.1.2 of document No. 25/16717-12 and the filled in document No. 25/16717-13 "Appendix 2A, Underground AC cable - handover specification - Cables" Any ambiguities, missing information or uncertainties relating to the performance or characteristics of the offered solution may have a negative effect on the tender evaluation. The Contracting Authority will focus on the documentation provided by the tenderer who are encouraged to submit detailed and thorough responses as the below-listed elements will be of particular importance in the evaluation: Cable design: The quality of the engineering documentation (based on design documentation, calculations, values, and statements), including the extent to which this provides evidence that the cable is fit for purpose according to the Technical Requirements. Further, the robustness of the solution including documentation and calculations supporting this will be favored. In this context it will be considered positive if the solution provides evidence of having very robust jackets, a high level of pulling force, and provides evidence of water-proof design.

Описание: Production and delivery Schedule As part of the tender, the tenderer must state the maximum guaranteed delivery time for the delivery of cables system, calculated from contract commencement date until final delivery. As part of the tender submission, the tenderer must include a production and delivery schedule plan that outlines a robust and realistic production and delivery plan, including: • A binding guaranteed delivery date • A production and delivery schedule demonstrating how production and delivery will be planned and executed Delivery and production must be completed no later than 22 June 2027. The submitted delivery time is considered guaranteed. The evaluation of the sub-criterion "production and delivery schedule" will be based on the guaranteed delivery time submitted by

the tenderer. If the tenderer submits a production and delivery schedule with a delivery date later than 22 June 2027, the tender will be considered non-compliant and will therefore be rejected. The tenderers may, at the earliest, deliver the manufactured cables two months prior to the final delivery date, set at 22 June 2027

Описание: Contract Terms For the evaluation of the sub-criteria the tenderer is allowed to propose deviations to the elements of the contract identified as competitive elements in the contract terms. The contract terms consist of: Contract Agreement, doc.no. 25/16717-4 Appendix 1 [General Terms and Conditions for Purchase], doc.no. 25/16717-6 Master Time Schedule, doc. no. 25/16717-16 The deviations should be enclosed in the clarification list c.f. doc.no. 25/16717-22 and be included in the spread-sheet marked "Legal clarification". The proposed deviations should be explicit and with explanation as to why they are made. Contract terms listed in section 3.7.1 are mandatory parts and deviations to these are not accepted. The tendered contract must be performed based on the contract terms. The tenderer is allowed to propose explicit and well-explained deviations to the following listed competitive elements: In the Contract Agreement for 132 kV Cables Route Re-structuring E20 Amager Motorway, doc. no. 25/16717-4: • Section 4.2 in terms of: Clauses and sub-clauses in section 4.2, which are part of the competitive elements for Appendix 1. • Section 5 [Contract data] in terms of: Section 5, sub-clause 12.1 (Liquidated damages) Section 5, sub-clause 12.1 (Maximum amount of liquidated damages) Section 5, sub-clause 13.1 (Defects Notification Period) Section 5, sub-clause 13.4 (Defects Notification Period for replaced and repaired parts) Section 5, sub-clause 13.4 (Maximum Defects Notification period) Section 5, sub-clause 14.2 (Limitation of liability) In Appendix 1 [General Terms and Conditions for Purchase], doc.no. 25/16717-6: • Clause 9 (Time of Delivery) • Clause 11 (Intellectual property rights) • Clause 12 (Late-delivery or non-delivery) • Clause 13 (Defects and remedies) • Clause 14 (Limitation of liability) • Clause 15 (Product liability towards Customer) • Clause 17 (Indemnification) • Sub-Clause 20.4 (only the daily penalty amount) • Clause 25 (Termination) • Clause 26 (Termination for convenience) Deviations to these elements will be included in the evaluation and it is noted that any deviations may lead to a reduction of the score depending on the content, clarity, and consequence of the deviation. In this regard it is explicitly noted that deviations which are intended to limit liability and shift the financial risk in favour of the tenderer will be of particular importance in the evaluation. If the tenderer has no deviations to the contract terms, the maximum score of 10 will be awarded. An overall evaluation for each lot will be made of this sub-criterion.
