Заглавие: Tender for a contract on the production of Danish banknotes, new series
Описание: Danmarks Nationalbank is the central bank of Denmark and is an independent, self-governing institution established by law. In a strategic move announced during a press conference on November 30. 2023, Danmarks Nationalbank revealed its initiatives to ensure that cash remains a safe and efficient means of payment in the future. Recognizing the enduring importance of cash transactions, efforts are being made to enhance the safety and efficiency of banknotes, aligning them with technological advancements. The contracting authority is set to issue a new banknote series, anticipated that the first two (2) denominations are delivered in 2028 and the two (2) remaining denominations are delivered i 2029. All banknote series, except the current 2009 and 2009A series featuring bridges and artifacts, have been rendered invalid after May 31. 2025. Notably, the upcoming series will exclude a 1000-kroner note, and the existing 1000-kroner note have ceased to be valid currency in Denmark after May 31. 2025. For the first time since the closing of the printworks, the contracting authority has collaborated with an external security printer to craft the new banknotes. The new banknote series will consist of 4 denominations (50-, 100-, 200- and 500-krone). Despite this external partnership, we have been deeply involved in the design process, guaranteeing the preservation of Danish design traditions and cultural nuances in the appearance of the new banknotes. With this procurement, the contracting authority anticipates entering into a contract with a security printer mid-2026. As stated in Appendix 1 (Specifications) the contracting authority will submit complete and approved design for all the four (4) denominations that will be subject for production during the contract. Minor adjustments to the design will be needed as further deccribed in Appendix 1 (Specifications). The material that the contracting authority will submit will consist of: • Completed banknote series design • Origination files • Proof prints • Design layout compendium with detailed specifications The contracting authority will invite all the prequalified Tenderers to a joined presentation and inspection of the new banknote series design. All prequalified Tenderer shall enter into a NDA before the meeting

Допълнителна информация: Participation in the tender procedure may only take place by electronic means via the electronic tendering system used by the contracting entity. For access to the procurement documents, the candidate must be registered or register as a user. If the application contains several versions of the same document, the latest uploaded version will apply. All communication in connection with the tender procedure, including questions and answers, must take place through the electronic tendering system. Reference is made to the tender specifications and appendix B for information concerning questions and answers. Interested operators are requested to keep updated via the electronic tendering system. If the candidate encounters problems with the system, please contact support by e-mail, dksupport@eu-supply.com, or telephone (+45) 70 20 80 14. As its application, the candidate must submit an ESPD as preliminary documentation of the circumstances set out in section 148(1), paras (1)-(3) of the Danish Public Procurement Act (udbudsløven). It is not necessary for the candidate to sign the ESPD document. For groups of operators (e.g. a consortium), a separate ESPD must be submitted for each participating operator. Where the candidate is a group of operators, the ESPD document of each participant in the group must be signed by the participant in question. The candidate heading the group and submitting the application is not required to sign its ESPD document. If the candidate relies on the capacities of other entities, an ESPD must be submitted for and signed by each of the entities on which it relies. Before the award decision is made, the tenderer to whom the contracting entity intends to award the contract must provide documentation of the information submitted in the ESPD pursuant to sections 151-152, cf. section 153 of the Danish Public Procurement Act. As an alternative to the documentation mentioned in sections 153-155, 157 and 158 of the Danish Public Procurement Act, the applicant and tenderer may submit to the contracting entity a certificate of registration in an official list of approved economic operators, see section 156 of the Danish Public Procurement Act, issued by the competent authority. The contracting entity only accepts certificates of registration in an official list from applicants and tenderers established in the country holding the official list. The candidate must also submit a letter of commitment in which the entity/entities on which the candidate relies has/have undertaken joint and several liability with the candidate if the candidate is awarded the contract. The form is enclosed as Appendix G to the tender specifications. The contracting entity will select the number of candidates by applying the selection criteria stated in this contract notice, unless the contracting entity receives no more than the stated number of compliant requests for participation. It should be noted that the amount is an estimate of the expected contract price for the entire term of the contract, including the price of all options. The estimate is based on expected future need for banknotes. It should be noted that each candidate may only submit one application for prequalification. The contracting entity may use the procedure of section 159(5) of the Danish Public Procurement Act in the event that applications or tenders do not

comply with the formal requirements of the tender documents. Attention is drawn to Article 5k in Regulation (EU) No 833/2014, as amended, which applies to the tender procedure. The provision contains a prohibition against award of contracts to Russian companies and Russian-controlled companies etc. (reference is made to Article 5k, section 1, for the precise definition of the operators that are subject to the prohibition). The contracting entity reserves the right to require at any time during the tender process that the economic operators prove that they are not subject to the prohibition, for example by requiring a declaration to this effect and/or documentation regarding the place of establishment and ownership of the economic operators and any subcontractors. It should be noted that the indicated term of the agreement will commence on signature of the contract. In addition to the indicated duration of contract, an expiry phase that is flexible in time will be required when the contract is at an end in order to ensure an undisturbed continuation of production of banknotes in connection with a possible re-tender. A site visit to carry out inspection of the prototype of the four denominations of banknotes included in the tender will be possible. The site visit will take place on Wednesday 8 April, 2026, between 9.00-12.00 CET at Langelinie Allé 47, 2100 Copenhagen Ø. The site visit will only be open to the five prequalified tenderers, and after signing an NDA (Appendix D).

Minimum requirement: As a minimum requirement, a total annual turnover of at least EUR 118 million is required in the latest annual report/financial statement available. If the candidate relies on the capacities of other entities, the turnover is to be calculated as the total turnover of the candidate and such other entities in the latest annual report/financial statement available. Критерий: Референции за определени доставки

Описание на критерия за подбор: The candidate must submit the ESPD with the following information: A list of the 5 most significant comparable supplies that the candidate has carried out in the latest 5 years before the expiry of the deadline for application. The description should ensure compliance with the minimum requirement for participation, as well as seek to describe relevant supplies in order for the contracting authority to select the five prequalified tenderers. Only references relating to supplies carried out at the time of the deadline for application will be given importance in the evaluation of whether the requirements regarding technical and professional capacity have been complied with, see below. Hence, in the case of an ongoing task, only the part of the supplies already performed at the time of the deadline for application will be included in the evaluation of the reference. Each reference is requested to include a brief description of the deliveries made. The description of the delivery should include a clear description of the supplies to which the delivery related and the candidate's role (s) in the performance of the delivery. The reference is furthermore requested to include the financial value of the delivery (amount), the date of delivery and the name of the customer (recipient). No more than 5 references may be stated, irrespective of whether the candidate is a single operator, whether the candidate relies on the technical capacity of other entities, or is a group of operators (e.g., a consortium). Where more than 5 references are stated, only the most recent 5 references will be taken into account. Any additional references will be disregarded. If it is not possible to decide which references are the most recent 5 references, the references will be selected by drawing lots. In this procedure, the candidate may rely on the technical capacity of other operators to fulfil the suitability requirements. The operator(s) making its/their technical capacity available to the candidate must sign a letter of commitment, see further in the tender specifications. The form is enclosed as an attachment to the tender specifications. The ESPD serves as provisional documentation that the candidate fulfils the requirements in respect of technical and

professional capacity. Before the award decision is made, the candidate to whom the contracting entity intends to award the contract must submit documentation that the information stated in the ESPD is accurate. No additional documentation of technical and professional capacity related to reference will be required from the candidate. However, the contracting entity reserves the right to contact the candidate or the customer stated in the reference for verification of the information stated in the reference, including the dates of the reference indicated. Minimum requirement: As a minimum requirement, the candidate shall provide two references stating that the candidate has produced banknotes (legal tender) to at least two different central banks in at least two different currencies during the last five years. References on the delivery of commemorative banknotes and production of house notes will not be taken into consideration. References on the delivery of EUR banknotes to two different central banks will be regarded as one currency, despite the fact that they are delivered to different central banks.

Критерий: Референции за определени доставки

Описание на критерия за подбор: Criteria for selection among the suitable candidates. The shortlisting of candidates invited to tender will be based on an evaluation of which candidates have documented the most relevant deliveries, in relation to the main supplies put up for tender. In the evaluation of which candidates have documented the most relevant supplies, the contracting entity will award points to the candidates on a scale from 1-5 for each main supply, based on the extent to which the references, combined, document relevant experience in providing the main supplies. On this basis, the candidate will be awarded a total score calculated as the average number of points awarded for the main supplies. In the selection, the contracting entity will place particular emphasis on the following:

The deadline is calculated from the day after the day when the notice was published. 2) 30 calendar days calculated from the day after the day when the contracting entity has notified the candidates concerned that a contract based on a framework agreement with reopening of competition or a dynamic purchasing system has been entered into if the notification has included an explanation of the relevant grounds for the decision. 3) 6 months after the contracting entity entered into a framework agreement calculated from the day after the day when the contracting entity notified the candidates and tenderers concerned, see section 2(2) of the Act and section 171(4) of the Danish Public Procurement Act. 4) 20 calendar days calculated from the day after the contracting entity has submitted notification of its decision, see section 185(2) of the Danish Public Procurement Act. Not later than at the time of lodging a complaint with the Danish Complaints Board for Public Procurement, the complainant must notify the contracting entity in writing that a complaint has been lodged with the Danish Complaints Board for Public Procurement and whether the complaint was lodged during the standstill period, see section 6(4) of the Act. In cases where the complaint was not lodged within the standstill period, the complainant must furthermore indicate whether a suspensory effect of the complaint has been requested, see section 12(1) of the Act.
