Kriterium:

Type: Kvalitet

Beskrivelse: Tradebroker considered and assumes that this procurement has an immaterial environmental impact, cf. the Utilities Regulations § 7-9 (5). The reason is that the contract is for the delivery of financial values (means of payment). The actual transaction and the presentation of the gift certificate generate a negligible climate and environmental footprint. The environmental impact occurs only when final users use of the third-party card, which is beyond this contract's direct object and the supplier's control. It has, therefore, been considered that environmental criteria will have no relevant impact on the procurement's environmental performance, and that it would be inappropriate to use environmental award criteria in this specific competition.
