The purchasing system has previously been announced on Doffin/TED and is being re-announced to continue the scheme in Oslo municipality's new KGV. See the attached qualification documentation for further information. The Oslo School has participated in a R&D project together with KS since 2017. the R&D project ends in its current form in summer 2024. Digital teaching aids and teaching resources consist of a market that is constantly developing. To a small degree, traditional approaches cover the schools' need for flexible access to a wide range of teaching aids. The dynamic procurement scheme is for continuous delivery of digital teaching aids (freestanding or as part of teaching aids/learning universe), teaching resources, resource banks (news, pictures, movies, audio, music, etc.), teacher guides, teacher resources, assignment/trial collections and mapping tool with accompanying teacher overview, glosses, etc. that are delivered over the internet ("Software-as-a-service") for teaching purposes. The agreement also includes digital books and installed apps with Feide sign-in for teaching purposes. The diagnostic tool, which requires special competence to use, is not included.
