II.2.4. Beskrivelse af udbuddet

Energinet intends to establish a Supplier Qualification System ('SQS') for the procurement of contractors for construction projects within establishment and/or renewal of gas plant installations. The SQS is intended for the procurement of contractors for construction projects such as the Baltic pipe project, as well as for other projects to the Danish gas transmission system.

The scope of the SQS is divided into 2 individual categories. Interested applicants may apply for one or both categories. Applicants must respect the individual requirements that must be met for each category, cf. Section III.1.9 of this Contract Notice.

The SQS consists of 2 categories:

Category 1: Land development for construction projects within the establishment and/or renewal of gas plant installations.

- (a) land and foundation work including drainage works;
- (b) roadworks including drainage;
- (c) foundation works including piling;
- (d) demolition works and demolition of buildings;
- (e) concrete and iron concrete works;
- (f) steel work.

Category 2: Establish administrative and service buildings for the establishment and/or renewal of gas plant installations.

- (a) buildings including installations (installations);
- (b) various construction works;
- (c) fence and plantation (also plantation along the access road);
- (d) establishment of green terrain and plantation;
- (e) paving and asphalt;
- (f) site CCTV and access control.

In addition to the activities above, the contractor is to provide (not limited to):

- all project management services,
- interface management with sub-contractors, stakeholders and Contracting Authority site representation,
- necessary permitting and satisfaction of authority requirements,
- required work site offices and facilities including necessary utilities and management hereof,
- mobilization and demobilization of all required personnel and equipment incl. site reinstatement,
- as-built documentation and project hand-over to the Contracting Authority

All works must be carried out according to relevant legislation, standards, authority requirements, The Contracting Authorities specifications, etc.

For further details on the scope of the SQS please refer to the document – Guide to SQS – on EU-Supply.

II.2.5. Tildelingskriterier

Prisen er ikke det eneste tildelingskriterium og alle kriterier er udelukkende anført i udbudsdokumenterne

II.2.8. Kvalifikationsordningens varighed

Ubegrænset varighed

II.2.13. Oplysninger om EU-midler

Udbuddet vedrører et EU-finansieret projekt og/eller program: ja

Del III: Juridiske, økonomiske, finansielle og tekniske oplysninger

III.2. Kontraktbetingelser

III.2.2. Kontraktudførelsesvilkår

Applicants must submit an individual ESPD for each category for which it applies listed in II. 2.4) 'Description of the procurement'.

Applicants may not be subject to the mandatory grounds for exclusion, cf. the Danish Public Procurement Act (udbudsloven) Section 135 (1-3) and 136.

Due to the limitations of the contract notice template – the qualification criteria is listed in guide for contractors for SQS on Construction works Gas Plant, Section 3.2.1 which can be found on the EU-Supply platform.
