2. Procedure

2.1. Procedure

Titel: PreCommercial Procurement of Research & Development services on the security domain (SHIELD PCP)

Beskrivelse: This contract notice announces the call for tenders for PreCommercial Procurement of Research & Development services on the security domain (Security Harmonized Innovation for Enhanced Law enforcement capabilities in Dynamic crowd protection through PreCommercial Procurement). SHIELD PCP is a cross border joint procurement of Research & Development services to reinforce the field of protection of public spaces and crowd management. The tobedeveloped solutions are expected to achieve TRL 78. The PCP should deliver successful, innovative and fully tested product(s) and/or service (s), that meet the common needs of the Public Buyer Group (PBG) to procure research services, develop innovative marketable solutions, speed up the timetomarket and provide best value for money. More concretely, the common needs of the public buyers group are as

follows. The SHIELD PCP initiative aims to drive innovation by empowering buyers to actively influence the development of costeffective solutions tailored to their unique requirements. The overarching aim is to equip security stakeholders with cuttingedge technology procured through innovative processes, offering solutions that enable seamless coordination and cooperation among all stakeholders, especially law enforcement agencies (LEAs). The SHIELD PCP project adopts a topdown approach. This method consolidates widely agreedupon scenarios to address critical security challenges, providing a detailed identification of innovation needs at both the process and technology levels. This topdown approach enabled the alignment of stakeholders, from security forces to public authorities, ensuring innovative solutions meet shared needs for public space protection. After evaluation of the tenders received, the PCP will be implemented by means of awarding a Framework Agreement where contractors are developing the solution in competition. It includes calloffs for Specific Contracts for Phase 1: Solution Design, Phase 2: Prototype Development and Integration, and Phase 3: Validation in real operational environment. SHIELD PCP has received funding from the Horizon Europe Framework Programme (HORIZON) under grant agreement n°101225962. However, the European Union will not participate as a contracting authority in the procurement.

Identifikator for proceduren: 1257f037-b099-4cb4-966a-426ffce9f027

Udbudsprocedure: Offentligt udbud

Proceduren er en hasteprocedure: nej

Hovedpunkterne i proceduren: 1. Competitive development in phases to identify the solutions offering the best value for money. 2. Public procurement of R&D services. 3. Open, transparent, nondiscriminatory approach — No large scale deployments. 4. Sharing of IPR related risks and benefits under market conditions. 5. Yderligere oplysninger: At least 70% of the total value of activities covered by the framework agreement (i.e. the total value of the activities covered by all phases) must be performed in the European Union (EU) Member States (MS) or Horizon Europe (HE) associated countries. This means that at least 70% of the total value of activities covered by each specific contract for PCP phase 1 and 2 must be performed in the EU Member States or in HE associated countries. Both percentages for phase 1 and phase 2 must be set at the minimum percentage (i.e. 70%) to ensure that tenders that do not proceed to phase 2 (or phase 3) still satisfy the place of performance requirement. The principal R&D staff working on the PCP (on each specific contract) must be located in the EU Member States or Horizon Europe associated countries. All activities covered by the contract are included in the calculation (i.e. all R&D and operational activities that are needed to perform the R&D services, e.g. research, development, testing and certifying solutions). This includes all activities performed under the contract by contractors and, if applicable, their subcontractors. The contractors must in addition ensure that the implementation of the contract takes place in EU Member States or HE associated countries
