Type: Kvalitet

Beskrivelse: The environment will be weighted 10%. The minimum requirement specifications for engine technology (minimum stage V) and minimum requirements for fuel (biodiesel HVO100) are required. Use of electrical machines is considered, but not technically feasible as it lacks the necessary electrical charging infrastructure at the operational locations in Marka. It is considered clear that major environmental gains will be achieved by setting minimum requirements for emission technology Stage V or better, as well as bio-fuel, than what can be achieved by weighting the environment as the award criterion 30%. Cf. the Public Procurement Regulations § 7-9, fourth section.
