Formålet med strategiske udbud: Reduktion af miljømæssige indvirkninger

Beskrivelse: Reduction of environmental impact

5.1.9. Udvalgelseskriterier

Kilder til udvalgelseskriterier: Bekendtgørelse

Kriterium: Tilmelding i et handelsregister

Beskrivelse af udvalgelseskriterium: The tenderer shall be a legally established company.

Documentation requirements: Norwegian companies: Company Registration Certificate

Foreign companies: Proof that the company is registered in a trade or business register as prescribed by the law of the country where the company is established.

Kriterium: Andre økonomiske eller finansielle krav

Beskrivelse af udvælgelseskriterium: The tenderer shall have sufficient economic and financial capacity to be able to fulfil the contract. Documentation requirements: The company's last Annual Financial Statements including notes, the Board's Annual Report and Audit Report, as well as new information of relevance to the company's fiscal numbers. The contracting authority reserves the right to obtain credit appraisal on its own initiative.

Kriterium: Referencer på specificerede leverancer

Beskrivelse af udvælgelseskriterium: Tenderers shall have good experience from equivalent assignments. 'equivalent assignment' means i.a. control, service, maintenance and replacement of components in ventilation, heating and cooling installations, as well as engineering design services for and installation of new installations [ole.mostad@eby.oslo.kommune.no](see the requirement specification). Documentation requirements: Short description of the most important deliveries in the last three years, including information on the contract's value, date of delivery as well as the name of the contracting authority and a description of the assignment's content.

Kriterium: Gennemsnitlig årlig arbejdsstyrke

Beskrivelse af udvælgelseskriterium: Tenderers must have sufficient capacity to fulfil the contract. Documentation requirements: A description of the tenderer's average workforce and the number of employees in the management during the last three years.

Kriterium: Foranstaltninger til sikring af kvalitet

Beskrivelse af udvælgelseskriterium: Tenderers shall have a relevant quality assurance system for the content of the contract. Documentation requirements: A description of the tenderer's quality assurance methods. Alternatively: Certificate for the company's quality assurance system issued by independent bodies that confirms the tenderer fulfils certain quality assurance standards, for example ISO 9001:2015.

Kriterium: Miljøledelsestiltag

Beskrivelse af udvælgelseskriterium: Tenderers are required to have implemented environmental management measures that ensure that the tenderer is suitable to fulfil the contract's environmental provisions (see point 9 in the contract). This means that the tenderer has methods for working actively and systematically to reduce negative environmental impact from activities connected to the execution of this contract. Documentation requirements: A description of the tenderer's environmental management measures. If a tenderer has certificates from independent bodies that document the environmental management system, they can be presented as documentation. Refer to the EU Scheme for Environmental Management and Environmental Audit (EMAS), other recognised environmental management systems in regulation (EF) no. 1221/2009 article 45, or equivalent, and other environmental management standards based on relevant European or international standards from accredited bodies such as ISO 14001 or equivalent.

Kriterium: Relevante uddannelses- og erhvervskvalifikationer

Beskrivelse af udvælgelseskriterium: Tenderers shall have all the necessary certifications, certificates and professional qualifications required to carry out ventilation, heating and cooling services in accordance with the current laws and regulations. This includes i.a. the necessary central and/or local certifications in accordance with the Planning and Building Act as well as documented qualifications for the execution of technical HVAC work. The tenderer shall ensure that personnel who carry out work on ventilation, heating and cooling installations covered by the F-gas regulations hold a valid F-gas certificate in accordance with the at any

given time applicable regulations. Documentation requirements: Fulfilment of the qualification requirement shall be documented by, for example, an overview of certifications, certificates and CVs for key personnel. Key personnel shall as a minimum include the contract manager and project manager. Tenderers shall document that all personnel who carry out work under the contract have satisfactory professional competence and updated certificates for their assignments. Tenderers shall document that personnel who carry out work on installations that include F-gas mandatory refrigeration media have valid certification in accordance with F-gas regulation.

Kriterium:

Type: Kvalitet

Beskrivelse: The contracting authority is obliged, in accordance with the Public Procurement Act § 5, to align its procurement practice so that it helps reduce damaging environmental impact and promote climate-friendly solutions when relevant. Furthermore, the Public Procurement Regulations § 7-9 second paragraph states that the contracting authority shall, as a general rule, weight climate and environmental considerations with a minimum of 30%. Exceptions can be made in accordance with § 7-9 fourth section if it is clear that the minimum requirements in the requirement specifications will provide a better climate and environmental effect. Oslo municipality's standard climate and environmental requirements are based on a main rule that all transport shall be carried out by electric bicycle or vehicles that are either zero emission (i.e. 100% battery electrical or hydrogen) or biogas vehicles that as a minimum fulfil euro class 6/VI in the execution of the contract (last transport stretch/cargo mile). In this procurement, there is a minimum requirement that all transport shall be carried out with vehicles that are 100% zero emission, i.e. vehicles that are 100% battery electrical or hydrogen powered. There are also requirements for a minimum of 95% sorting degree for waste. In this contract, the Agency for Real Estate and Urban Renewal has set minimum requirements for climate and environmental considerations, which, according to the contracting authority's assessment, clearly give a better overall climate and environmental effect. The contracting authority has, thus, chosen to emphasise climate and environmental considerations by 25%. By setting absolute minimum requirements for the transport and sorting degree in the contract, in combination with award criteria, a guaranteed climate and environmental effect is ensured on the procurement's total climate footprint. This gives a clearly better climate effect compared to only using climate and environmental considerations as the award criterion as a certain minimum level is ensured.
