10.1. Ændring

Afsnitsidentifikator: PROCEDURE

Beskrivelse af ændringer: The following text has been extracted and is not applicable:

Because the areas are dynamic and changes can occur, the routes will be divided according to a total assessment of the following criteria: the machine's suitability, efficient operation planning and cost-benefit connected to geographical location and costs of moving around. The

contracting authority always aims to divide the sections so that they generate approx. as many hours. Changes must be expected in the routes, but will be agreed further per season. Tenderers must reckon on clearing areas within the entire municipality. During the agreement period there will be a need for occasional snow clearing in accordance with the contracting authority's needs. Tenderers must therefore reckon on extra assignments beyond the routes." Udbudsdokumenterne blev ændret den: 24/06/2026
