2.1. Procedure

Titel: Veterinary services

Beskrivelse: The municipality is responsible for ensuring satisfactory access to animal health personnel during the day and for organising clinical veterinary duty services outside ordinary working hours. The scheme with veterinary guards is established in accordance with the Act from 15 June 2001 no. 75 on veterinary surgeons and other animal health personnel § 3 a. The scheme with veterinary duties shall ensure that clinical guards are established for veterinary surgeons in all parts of the country so that the necessary veterinary help can be provided within ordinary working hours. The veterinary duty is a necessary part of the stand-by against serious infectious animal diseases and it is important for maintaining good animal welfare. The procurement's value is estimated to approx. NOK 2,900,000 excluding VAT per annum. The volume is an estimate and is not binding for the contracting authority. See the procurement documents for further information. This procurement is considered to have an immaterial impact on climate and the environment, cf. the Regulations §7-9, fifth paragraph. The justification for this is that the procurement concerns the procurement of consultancy services where the contracting authority has been cut off from affecting the climate and environmental impact, as the requirements and criteria targeting these elements will not have sufficient connection to the delivery, cf. DFØ's environmental supervisor. The contracting authority has assessed the procurement against the apprentice regulations, c.f. the Procurement Act § 7, and concluded that there is no requirement for apprentices in this procurement as it is considered disproportionately, because there is a need for specialised competence that an apprentice cannot be expected to hold, cf. the apprentice regulation § 6 (4). The procedure stated in the "Type of Procedure" section 2.1 of the notice is incorrect. The correct procedure shall be an open tender contest".

Identifikator for proceduren: 5fd6ef7a-e771-47e6-9821-139fb94c7003

Intern ID: 26184

Udbudsprocedure: Offentligt udbud

Hovedpunkterne i proceduren: The competition will be held in accordance with the Public Procurement Act from 17 June 2016 no. 73 (LOA) with the accompanying regulations of 12 August 2016 no. 974 (FOA), as well as the provisions in this tender documentation. The competition will be held as an open tender contest in accordance with part IV of the regulations. All interested tenderers can submit tenders for this type of procedure. The contracting authority plans to award the contract without having a dialogue with the tenderers beyond making any clarifications/corrections. Dialogue through negotiations can, however, be

carried out if the contracting authority, after the tenders have been received, considers it appropriate. If the contracting authority chooses to negotiate, the first selection will be made after an assessment of the award criteria stated in point 2, with the weighting stated there. Emphasis is put on the fact that no tenderers can expect a dialogue on their tender and must, therefore, submit their best tender within the tender deadline. The procurement is announced in the DOFFIN and TED database.
