Den ordregivende enheds aktiviteter: Produktion, transport eller distribution af gas eller varme

2. Procedure

2.1. Procedure

Titel: Major overhaul of Steam Turbine FFA10 in 2024

Beskrivelse: Fjernvarme Fyn Affaldsenergi (FFA) is located Havnegade 120, DK-5000 Odense C, only a few kilometres from the city centre. The power plant consists of a coal-fired CHP unit 7, a straw-fired CHP unit 8 and a waste incineration plant with three waste-to-energy boilers (Line 11, Line 12 and Line 13) providing steam to two steam turbines (FFA10 and FFA13). FFA10 is a waste fired CHP plant. It was commissioned in 1996 and has a capacity of 11/13 MW electricity and 29 MJ/s district heating.

The steam turbine is planned to be in operation until 2032 (as a minimum).
The scope of supply for this tender is a major overhaul of the FFA10 steam turbine, gear and generator. The main target with the major overhaul is to ensure that the unit is in a condition where it can be operated safely, reliably and efficiently until the next major overhaul.

5.1. Delkontrakt: LOT-0000

Titel: Major overhaul of Steam Turbine FFA10 in 2024

Beskrivelse: Fjernvarme Fyn Affaldsenergi (FFA) is located Havnegade 120, DK-5000 Odense C, only a few kilometres from the city centre. The power plant consists of a coal-fired CHP unit 7, a straw-fired CHP unit 8 and a waste incineration plant with three waste-to-energy boilers (Line 11, Line 12 and Line 13) providing steam to two steam turbines (FFA10 and FFA13). FFA10 is a waste fired CHP plant. It was commissioned in 1996 and has a capacity of 11/13 MW electricity and 29 MJ/s district heating. The steam turbine is planned to be in operation until 2032 (as a minimum). The scope of supply for this tender is a major overhaul of the FFA10 steam turbine, gear and generator. The main target with the major overhaul is to ensure that the unit is in a condition where it can be operated safely, reliably and efficiently until the next major overhaul. As part of Major Overhaul FFA 10 (the supply) the Contracting Authority as a minimum wants to procure all main topics below:

- Basic scope of supply as stated in section 3 of the Special Conditions. For the basic scope of supply the tenderer is to provide fixed prices. The basic scope of supply consists of:
 - o Major overhaul of the steam turbine valves, bearings etc.
 - o Major overhaul of generator
 - o Delivery of manpower
 - o Delivery of needed tools not available at FFA
 - o Delivery of spare parts
 - o Delivery of needed consumables
 - o Cleaning of components
 - o NDT
 - o Off-site transport
 - o Delivery of reports and documentation.
- Optional scope of supply as stated in section 4 of the Special Condition. For the optional scope of supply, the tenderer is to provide fixed prices. The optional scope of supply consists of:
 - o Options that can be ordered before the outage.
 - o Options that can be ordered during the outage based on fact-findings and evaluations after dismantling.
- Extra works and supplies based on fact-findings, visual inspections, and NDT after dismantling. Any extra work identified is to be agreed with FFA in writing. The extra scope of supply can consist of:
 - o Extra works, which can be based on a fixed price or the tenderers hourly rates.
 - o Refurbishment of used components, supply of new spare parts or machining of components. Costs should be agreed upfront if possible.

Overhaul on site is expected to start September 2024, however, shall be agreed during the tender phase. Hot commissioning and commercial operation are expected to be October 2024, however, shall be agreed during the tender phase. The Supply must be engineered, delivered, installed, cleaned, tested, commissioned, and documented in accordance with the limits specified and ready for commercial operation. When completed, the supply must be fit for the purposes for which the supply is intended as defined in the Tender Material. Location of the plant is at FFA's location at Havnegade 120 in Odense, Denmark. The procurement has not been divided into lots which is due to the economics of scale when tendering in only one lot as well as the administration of the full supply, which will be very complex if divided into separate lots. For further details concerning the procurement, reference is made to the full Tender Material, including in particular 3.0 Special Conditions.

Intern ID: 167963

5.1.1. Formål

Kontraktens hovedformål: Tjenesteydelser

Primær klassifikation (cpv): 50000000 Reparations- og vedligeholdelsestjenester

Supplerende klassifikation (cpv): 42113000 Dele til turbiner, 42113100 Dele til vanddamp turbiner, 51130000 Installation af dampgeneratorer, turbiner, kompressorer og brændere, 42112000 Turbineanlæg, 45315200 Turbinearbejder, 42112100 Vanddamp turbiner, 51133000 Installation af turbiner

Valgmuligheder:

Beskrivelse af optioner: Options are defined in the tender material.

5.1.2. Udførelsessted

Landsdel (NUTS): Fyn (DK031)

Land: Danmark

5.1.3. Anslået varighed

Startdato: 11/06/2024

Varigheds slutdato: 31/01/2025

5.1.4. Fornyelse

Højeste antal fornyelser: 0

5.1.5. Værdi

Anslået værdi eksklusiv moms: 4 000 000,00 EUR

5.1.6. Generelle oplysninger

Indkøbsprojekt, der ikke finansieres med EU-midler

Udbuddet er omfattet af aftalen om offentlige udbud (GPA): ja

Yderligere oplysninger: As part of the application the applicant must submit the ESPD (European Single Procurement Document), cf. the ITT section 3.2. Applicants may not be subject to the mandatory grounds for exclusion, cf. the Danish Public Procurement Act (udbudsloven) Section 134a, 135 (1 and 3) and 136. Further, the applicant may not be subject to the voluntary grounds for exclusion, cf. the Danish Public Procurement Act Section 137 (1 - 6). Applicants subject to the grounds for exclusion may, however, be included in the tender procedure if they are able to selfclean in accordance with the Danish Public Procurement Act section 138. Documentation: Prior to award of contract Fjernvarme Fyn will request documentation for the information stated in the ESPD. In this context Danish participants may submit a "Serviceattest" (<https://erhvervsstyrelsen.dk/serviceattestvedudbud>) as documentation for the grounds for exclusion. Participants from other member states must consult ecertis (<https://ec.europa.eu/tools/ecertis/#/search>) when establishing what to submit. The documentation concerning the grounds for exclusion may not be older than 6 months calculated from the date of submission of Tender. As documentation for economic and financial standing, the applicant must submit the latest annual report available at the time of submission date for prequalification which must demonstrate a positive equity. Conditions for participation as either a group or as an applicant with supporting entities is set out in the ITT. Fjernvarme Fyn reserves the right to supplement, specify or complete the applications and tenders in accordance with the principles of section 159 (5) of the Public Procurement Act (LBK nr 10 af 06/01/2023).

5.1.16. Yderligere oplysninger, mægling og gennemgang

Organisation med ansvar for klager: Nævnenes Hus

Oplysninger om klagefrister: According to the Danish Complaints Board for Public Procurement Act etc. (the Act can be downloaded at www.retsinformation.dk), the following deadlines for filing a complaint apply: Complaints about not having been selected must be submitted to the Danish Complaints Board for Public Procurement within 20 calendar days, cf. Section 7(1) of the Act, from the day after sending a notification to the candidates concerned about who has been selected, when the notification is accompanied by a statement of reasons for the decision in accordance with Section 2(1)(1) of the Act and Section 171(2) of the Public Procurement Act. In other situations, complaints about tenders, cf. Section 7(2) of the Act, must be submitted to the Complaints Board for Public Procurement within: 1) 45 calendar days after the contracting entity has published a notice in the Official Journal of the European Union that it has entered into a contract. The deadline is calculated from the day after the date on which the announcement has been published. 2) 20 calendar days from the day after the contracting entity has announced its decision, cf. Section 185(2) of the Public Procurement Act. No later than the same time that a complaint is submitted to the Complaints Board for Public Procurement, the complainant must inform the contracting entity in writing that a complaint is submitted to the Complaints Board for Public Procurement and whether the complaint has been submitted during the standstill period, cf. Section 6(4) of the Act. In cases where the complaint has not been submitted during the standstill period, the complainant must also state whether the complaint is to be given suspensive effect, cf. Section 12(1) of the Act. The Complaints Board for Public Procurement's email address is stated in Section VI.4.1). The Complaints Board for Public Procurement's complaint guide can be found at: www.erhvervsstyrelsen.dk
