2.1. Procedure

Titel: P 02-26 Prequalification - Child friendly processes - Children as legal subjects in the Child Protection and Health Board.

Beskrivelse: About the procurement Stimulab project Child-friendly processes - Children as legal subjects in the Child Protection and Health Committee's main challenge is how the child protection and health committees can ensure children access to legal security and that the child's best interests are the centre of the committee treatment. The project assumes that children have the right to access to legal security, and that the child's rights - including children's participation - and the need must be at the centre of the committee's treatment in order to achieve this. Information/tips for suppliers Stimulants is earmarked for the procurement of competence in the market. For those who are, or would like to become a supplier for Stimulab projects, read more about tips, information and previously asked questions here: <https://www.digdir.no/stimulab/leverandorer-til-stimulab/1885> For further information on this Stimulabance procurement, see the attached documents in Mercell.

Identifikator for proceduren: bd4d6be0-4ebc-4c2a-b0f5-56c22054220c

Intern ID: 2026/8018

Udbudsprocedure: Udbud med forhandling/indkaldelse af tilbud med forudgående offentliggørelse

Proceduren er en hasteprocedure: nej

Hovedpunkterne i proceduren: Short summary of the procurement Day's committee processes are largely designed for adults and can be experienced as stressful, unpredictable and difficult to understand for children. This weakens children's ability to gain real access to the rule of law. At the same time, there are increasing expectations for the development of more child-friendly processes, partly as a result of the Storting's request decision to the government that the age limit for party rights should be reduced from 15 to 12 years. The degree of child protection services, committees/committee leaders and lawyers that facilitate children's participation varies. The quality of the child's meeting with the Committee therefore depends partly on who happens to handle the case. With each passing day there is a risk that there are one or more children experiencing the tribunal treatment as unnecessarily stressful and unsuitable, and at worst not get access to their rights. The ambition is that the project shall contribute to children having real and effective access to the rule of law, by children's rights and needs being at the

centre of the tribunal treatment. We want the project to be a pioneering project for collaboration with children - rooted in a rights-based approach in which children's voices are not only sounding, but given a real influence on the design. The Stimulab project shall concretise what changes are necessary, within structures, culture and legislative changes, to ensure the ambition of a committee process that provides real access to the rule of law for children for the good of their child. The project Project name is Child-friendly processes - Children as legal subjects in the Child Protection and Health Board Responsible Business (Project Owner) The Child Protection and Health Committee (BVHN) by Ingvild Aartun. Project Manager Ingrid Johansen and Special Advisor and Committee Leader Christian Sørensen. Target of the procurement Through this procurement we want to get the right competence to carry out a good Stimulab project. All Stimulab projects shall follow the triple diamond and the tenderer must offer competence in the execution of all the diamonds, even if we do not know what the delivery is at the start of the project. The diagnosis phase will reveal what the delivery will be and how far the implementation will take. Since the project is a part of Stimulab, it shall have an open and experimental approach and it has therefore not been given in advance what the concrete delivery in each project will be. But the projects shall result in an anchored and committed system that is either implemented or shall be implemented, or a platform for further development. This will depend on the project's complexity and size and will be uncovered in more detail in the diagnosis phase. Budget: NOK 200,000 excluding 3 000 000 + option for up to NOK 3,000,000 NOK 3,000,000 excluding VAT. Duration of the agreement The agreement will probably have a duration of up to 12 months. Automatic extension after the end date The contract will be automatically extended by six, 6, months after the end date, unless the Customer notifies the tenderer in writing that it will not be extended. In this period the Customer will assess whether the options shall be used. Option for further extensions of the contract Unden has the right to extend the contract for up to 24 months and set a new end date. The Contracting Authority will notify extensions in writing at least 1 month prior to the end date.

2.1.4. Generelle oplysninger

Yderligere oplysninger: The nature of the procurement is consultancy services, including "design competence" and "other relevant additional competence" where the main competence lies within service design, which is typically carried out as desk work. The work can include some, but typically limited travel activities. The main service is the consultant's work effort. In order to map the climate footprint and other forms of environmental impact from the nature of consultancy services, the Directorate assumes that a consultant's climate footprint and environmental impact will be equal to the load from an average permanent employee. In the view of the Directorate, it is the employee's need for office space and equipment, the energy consumption in the building where jobs are in, travel for work, and waste generation that contributes to the employee's climate footprint and environmental impact. However, the Directorate estimates that none of the above elements fall within the nature of the

procurement, which is a consultancy service. The elements that are related to the species, i.e. assistance with design competence that is provided, lead to an immaterial climate footprint and environmental impact. Based on its assessment, the Directorate will use the exception in the Procurement Act § 5b third section, because the procurement is justified in its nature to have an immaterial climate footprint and environmental impact. The Directorate is therefore exempted from the obligation to weight climate and environmental considerations with a minimum of 30 percent or to prioritise climate and environmental considerations among the three highest prioritised award criteria.
