Kriterium:

Type: Kvalitet

Beskrivelse: Tradebroker has, in consultation with DFØ, assessed the industry against the procurement's climate and environmental impact. Large parts of the contract's object for services in this procurement. The market included in the contract mainly consists of suppliers who procure goods produced by other. The tenderer's impact on the environmental impact is therefore primarily for consultancy that contributes to the customer choosing the right products, as well as handling waste etc. This is considered unsuitable to separate the suppliers from each other in a verifiable way. Based on the assessment, Tradebroker has concluded that it clearly gives a better effect on making requirements than weighting the environment with 30% cf. FYF § 7-9 fourth paragraph. Tradebroker will therefore not weight the environment with 30% in this procurement, see annex 8 for further information.
