Titel: 10001623-Technical Assistance to implement gender-responsive solid waste management / circular economy and green public spaces in India

Beschreibung: The project "Gender in Smart Cities / Resilient Urban Development: Gender and Digital Approaches as drivers for sustainable growth and recovery in Cities" (GRC) is implemented by GIZ in India on behalf of the German Federal Ministry of Economic Cooperation and Development (BMZ), along with the political counterpart the Ministry of Housing and Urban Affairs (MoHUA). The project is being implemented in three partner cities in India: Guwahati in Assam, Kochi in Kerala and Faridabad in Haryana. The project GRC focuses on two municipal public services: solid waste management (SWM) / circular economy (CE), and safe and green public spaces. Context India's economic transformation is a story shaped mainly by its cities. Indian cities act as powerful hubs for sustainable growth by driving innovation, creating inclusive economies, and fostering collaboration to achieve development goals. They achieve this by developing smart urban policies, investing in green, climate-resilient infrastructure, improving public services, and using technology for better resource management. By strategically addressing urban challenges through integrated and interdisciplinary solutions, cities can achieve prosperity while minimizing environmental impact and enhancing the quality of life for their growing populations. Objective In selected cities in India, women and girls benefit as users or providers from climate-resilient, municipal public service systems in the areas of solid waste management (SWM) / circular economy (CE) as well as from safe and green public spaces. Approach 1) Improving the evidence base The project aims to improve the data and knowledge base for the provision of climate-resilient municipal public services. This is based on the following impact hypotheses: On the basis of strengthened cooperation between the actors relevant to service provision, the evidence base (knowledge and information base) will be improved and particularly with regard to gender responsiveness (esp. consideration of the needs of women and girls), environmental and resource protection and climate resilience (esp. use of the adaptation potential, e.g. through greening and reduction of illegal waste disposal in public spaces) of selected services. 2) Development of Practical Models The project aims to develop practical models in which

women and girls benefit as users and providers from the improvement of climate-resilient, municipal public services in the partner cities. These practical, replicable approaches can include various elements such as standard operating procedures (SOPs), handouts, business models, training modules, etc. Within the framework of demonstration projects in partner cities in the areas of a) SWM / CE and b) greening and improving safety in green public spaces, innovative approaches to improve gender responsiveness, environmental and resource protection as well as climate resilience of selected services will be tested and validated.. On the basis of this implementation experience, scalable practical models / transfer packages should be developed and disseminated to other cities for further application and institutionalization as part of upscaling. 3) Strengthening capacities The project aims to strengthen and empower the relevant stakeholders for the implementation of the demonstration projects and practical models to ensure the improvement of climate-resilient municipal public services. The capacities of officials and experts of relevant institutions (esp. municipal corporations and state departments) as well as women in municipal public service provision (e.g. women's self-help groups or entrepreneurs) lead to both more informed decisions and the implementation of practice-oriented measures that sustainably improve climate resilience, gender responsiveness, environmental and resource protection of municipal public services.

### 5.1. Los: LOT-0001

Titel: 10001623-Technical Assistance to implement gender-responsive solid waste management / circular economy and green public spaces in India

Beschreibung: The services included in this tender contribute to the achievement of the objectives of the project "Gender in Smart Cities / Resilient Urban Development: Gender and Digital Approaches as drivers for sustainable growth and recovery in Cities" (GRC) that GIZ is implementing in India on behalf of the German Federal Ministry of Economic Cooperation and Development (BMZ), along with the political counterpart the Ministry of Housing and Urban Affairs (MoHUA). The services included in this tender are to be implemented in the cities of Guwahati in Assam and Kochi in Kerala and focuses on two urban public services: solid waste management (SWM) / circular economy (CE), and safe and green public spaces. The contractor is responsible for implementing the following 3 work packages in 2 partner cities in coordination with the GIZ team in Delhi. Work package 1 - Improving the evidence base Work package 1 aims to improve the data and knowledge base for the provision of climate-resilient municipal services. To this end, a city-wide community of practice (CoP) will be set up, comprising representatives from the municipal corporation, state departments, civil society,

and the private sector, to analyze the evidence base for selected services in the areas of SWM / CE as well as safe and green public spaces, with regard to gender equality and the potential for adaptation to climate change and for reduction of greenhouse gas emissions. In Guwahati, the evidence base for green and safe public spaces must consider nature-based solutions and sponge park approaches. In Kochi, the evidence base must consider the existing Kudumbashree women groups from the Kerala government's flagship poverty eradication and women empowerment mission and the Centre for Heritage, Environment and Development (ched). In the process, potential problem areas with regard to evidence (e.g., reliability, completeness, acceptance by stakeholders, especially decision-makers, data quality, distortions, level of digitization, and status of gender disaggregation) will be jointly identified and prioritized. On this basis, selected evidence elements are specifically optimized with a focus on key aspects along the information and data cycle using innovative digital approaches with a view to improving the information content on gender and climate aspects (especially gender disaggregation). Decision-makers in the public service sectors are advised to analyze and formalize this qualified evidence and to use it in decision-making processes. Finally, the project promotes knowledge transfer between partner cities with cross-city CoPs in order to exchange best practices regarding evidence qualification and scale up evidence-based decision-making.

**Work package 2 - Development of practical models** Work package 2 aims to develop models in which women and girls benefit as providers and users of improved climate-resilient municipal public services in partner cities. Based on evidence-based analyses and identified service problems, demonstration projects shall be designed and implemented in the partner cities in close cooperation between city officials, the private sector, and civil society. The demonstration projects focus both on a) improvements in key areas of SWM / CE (e.g., in selected neighborhoods or wards) and b) the enhancement of safe and green public spaces (e.g., in selected parks or green spaces). They serve as practical test environments for evidence-based improvement measures, including physical upgrades to infrastructure, organizational optimization of service processes, digital innovations to increase efficiency, and approaches to promote economic activity. A particular focus is placed on strengthening gender responsiveness and, on the other hand, on strengthening the potential for climate adaptation and resource conservation. Specific thematic focus and requirements apply for the 2 project cities Guwahati and Kochi (see full ToR document for details). Scalable practical models including investment concepts for further implementation shall be developed as well as reviewed and documented in a structured manner on the basis of success factors to be defined. The practical models shall be disseminated for further application and institutionalization through the exchange of experiences between the partner cities and with other cities.

**Work package 3 - Strengthening capacities** Work package 3 aims to train relevant actors to improve climate-resilient municipal public services. To this end, the city officials and their departments responsible for public service provision are supported in their organizational development in line with their needs. Cooperation with NGOs and women self-help groups (SHGs) shall be promoted in order to anchor inclusive and needs-based solutions. The skills of various target groups are to be strengthened in a targeted manner: a) City and state officials receive further training (e.g., on gender-responsive service planning, climate resilience, or digital skills); b) Women working in public service provision (e.g., in municipal corporations, self-help groups, contracted companies, or the informal sector) shall receive needs-based practical training on relevant topics; c) Women entrepreneurs shall be supported through targeted mentoring and training on business and financing models. Awareness-raising activities shall be carried out at various levels, both Households and schools. Selected training institutions shall be supported in incorporating the developed training modules into regular

training programs for other cities, including a cross-city CoP. Specific thematic focus and requirements apply for the 2 project cities Guwahati and Kochi (see full ToR document for details).

Interne Kennung: 10001623

#### **5.1.1. Zweck**

Art des Auftrags: Dienstleistungen

Haupteinstufung (cpv): 79400000 Unternehmens- und Managementberatung und zugehörige Dienste

Zusätzliche Einstufung (cpv): 79411100 Beratungsdienste im Bereich Wirtschaftsförderung

##### **Optionen:**

Beschreibung der Optionen: GIZ may optionally commission contract amendments and/or increases based on the criteria in the tender documents to the successful bidder of this tender. For details, please see the terms of reference.

#### **5.1.2. Erfüllungsort**

Land: Indien

Ort im betreffenden Land

#### **5.1.3. Geschätzte Dauer**

Datum des Beginns: 02/11/2026

Enddatum der Laufzeit: 30/06/2028

#### **5.1.4. Verlängerung**

Maximale Verlängerungen: 2

Weitere Informationen zur Verlängerung: GIZ may optionally commission contract amendments and/or increases based on the criteria in the tender documents to the successful bidder of this tender. For details, please see the terms of reference.

#### **5.1.6. Allgemeine Informationen**

##### **Vorbehaltene Teilnahme:**

Teilnahme ist nicht vorbehalten.

Die Namen und beruflichen Qualifikationen des zur Auftragsausführung eingesetzten Personals sind anzugeben: Erforderlich für das Angebot

Auftragsvergabeprojekt nicht aus EU-Mitteln finanziert

Die Beschaffung fällt unter das Übereinkommen über das öffentliche Beschaffungswesen: ja

Diese Auftragsvergabe ist auch für kleine und mittlere Unternehmen (KMU) geeignet: ja

Zusätzliche Informationen: #Besonders auch geeignet für:other-sme#

#### **5.1.7. Strategische Auftragsvergabe**

Ziel der strategischen Auftragsvergabe: Verringerung der Auswirkungen auf die Umwelt

Beschreibung: Environmental protection and climate action (climate change mitigation /adaptation)

Ziel der strategischen Auftragsvergabe: Erfüllung sozialer Zielsetzungen

Beschreibung: Safeguards and gender measures Environmental protection and climate action

Konzept zur Verringerung der Umweltauswirkungen: Klimaschutz, Vermeidung und Verminderung der Umweltverschmutzung

Gefördertes soziales Ziel: Gleichstellung der Geschlechter, Sorgfaltspflicht im Bereich der Menschenrechte in globalen Wertschöpfungsketten

#### **5.1.9. Eignungskriterien**

Quellen der Auswahlkriterien: Bekanntmachung

Kriterium: Andere wirtschaftliche oder finanzielle Anforderungen

Beschreibung des Auswahlkriteriums: EN-A1: Principles for the execution of orders (Mit dem Teilnahmeantrag; Mittels Eigenerklärung): The eligibility criteria are not from the same category as stipulated above, as there is no suitable category. 1. Self-declaration: name of company and address, tax ID, registration and commercial register number or equivalent register in accordance with the legal provisions of the country of origin. 2. No grounds for exclusion pursuant to § 123, § 124 GWB, § 22 LkSG, EU-Russia sanctions 3. Declaration of bidding consortium and/or declaration of subcontractors (if applicable)

Kriterium: Andere wirtschaftliche oder finanzielle Anforderungen

Beschreibung des Auswahlkriteriums: EN-A2: Conditions for the reduction of candidates (Mit dem Teilnahmeantrag; Mittels Eigenerklärung): If we receive more than 5 requests to participate, we will make a selection on the basis of the criteria laid out in the procurement documents and invite tenders only from the 5 candidates with the highest scores. We reserve the right to cancel the procurement procedure if we receive fewer than 3 requests to participate. If it is not possible to make a clear selection of up to 5 candidates for the tendering phase on the basis of the criteria listed in the procurement documents (e.g. if a number of candidates achieve the same overall eligibility score), we reserve the right to increase the maximum number of 5. More than the required number of references may be provided but the number of 10 references should not be exceeded. If you are participating in the procedure as part of a candidate/bidding consortium, please note that the total number of references for all members of the consortium combined should not exceed 10. Only references that have the required minimum commission value of EUR 12.000,00 will be assessed. Only references that have started and/or finished in the last 36 months (deadline: end of deadline for the submission of requests to participate) will be assessed. If a reference project satisfies both the minimum criteria and the weighted criteria, it will be counted for both assessments. Only reference projects will be assessed if the reference project description clearly explains why the reference meets the required technical eligibility criterion and makes it possible to clearly assign the reference to a required eligibility criterion (see self-declaration of eligibility). The maximum number of points that can be achieved per weighted criterion is 10 points. Weighted criteria for the selection of candidates: 1. Improvement of Municipal Services in the area of Solid Waste Management / Circular Economy 40% 2. Improvement of Municipal Services in the area of safe and green public spaces 10% 3. Support of women self-help groups within the Solid Waste Management Sector 15% 4. Expertise on application of nature-based solutions in green public spaces, including sponge parks 5% 6. Regional Experience in Southern Asia 20% 7. Experience of development projects (at least 50% ODA-financed) 10%

Kriterium: Referenzen zu bestimmten Dienstleistungen

Beschreibung des Auswahlkriteriums: EN-B1: Technical and professional ability (Mit dem Teilnahmeantrag; Mittels Eigenerklärung): 1. The technical assessment is only based on reference projects with a minimum commission value of 12.000,00 EUR. 2. At least 3 reference projects in the technical field of urban solid waste management with circular economy approach and gender lens 3. and at least 1 reference project in the technical field of urban green public spaces, nature-based solutions and sponge cities / parks, 4. of which at least 3 reference projects in Asia, Latin America, Europe, USA, Singapore or Japan. all reference projects in the last 36 months (deadline: Deadline for the submission of requests to participate).

Kriterium: Durchschnittlicher Jahresumsatz

Beschreibung des Auswahlkriteriums: EN-C1: Economic and financial standing (Mit dem Teilnahmeantrag; Mittels Eigenerklärung): Average annual turnover for the last three years (last-but-four financial year can be included in case of tenders held within 6 months of end of last financial year) at least: 1.500.000,00 EUR

Kriterium: Andere wirtschaftliche oder finanzielle Anforderungen

Beschreibung des Auswahlkriteriums: EN-C2: Economic and financial standing (Mit dem Teilnahmeantrag; Mittels Eigenerklärung): Average number of employees and managers in the last three calendar years, at least 15 persons.

Kriterium: Referenzen zu bestimmten Dienstleistungen

Beschreibung des Auswahlkriteriums: Assessment of technical eligibility / weighted criteria for the selection of candidates - If we receive more than 5 requests to participate, we will make a selection on the basis of the criteria laid out in the procurement documents and invite tenders only from the 5 candidates with the highest scores. **Informationen, die nach Ablauf der Einreichungsfrist ergänzt werden können:**

Nach Ermessen des Käufers können einige fehlenden Bieterunterlagen nach Fristablauf nachgereicht werden.

Zusätzliche Informationen: GIZ asks the applicant or bidder to submit, complete or correct documents, within the framework laid down by law.

**Auftragsbedingungen:**

Die Auftragsausführung muss im Rahmen von Programmen für geschützte

Beschäftigungsverhältnisse erfolgen: Nein

Bedingungen für die Ausführung des Auftrags: The execution conditions result from the information given in the contract notice and the tender documents.

Elektronische Rechnungsstellung: Erforderlich

Aufträge werden elektronisch erteilt: ja

Zahlungen werden elektronisch geleistet: ja

#### **5.1.15. Techniken**

**Rahmenvereinbarung:**

Keine Rahmenvereinbarung

**Informationen über das dynamische Beschaffungssystem:**

Kein dynamisches Beschaffungssystem

Elektronische Auktion: nein

#### **5.1.16. Weitere Informationen, Schlichtung und Nachprüfung**

Überprüfungsstelle: Vergabekammern des Bundes

Informationen über die Überprüfungsfristen: According to Article 160, Section 3 of the German Act Against Restraint of Competition (GWB), application for review is not permissible insofar as 1. the applicant has identified the claimed infringement of the procurement rules before submitting the application for review and has not submitted a complaint to the contracting authority within a period of 10 calendar days; the expiry of the period pursuant to Article 134, Section 2 remains unaffected, 2. complaints of infringements of procurement rules that are evident in the tender notice are not submitted to the contracting authority at the latest by the

expiry of the deadline for the application or by the deadline for the submission of bids, specified in the tender notice. 3. complaints of infringements of procurement rules that first become evident in the tender documents are not submitted to the contracting authority at the latest by the expiry of the deadline for application or by the deadline for the submission of bids, 4. more than 15 calendar days have expired since receipt of notification from the contracting authority that it is unwilling to redress the complaint. Sentence 1 does not apply in the case of an application to determine the invalidity of the contract in accordance with Article 135, Section 1 (2). Article 134, Section 1, Sentence 2 remains unaffected.
