Titel: Headwear for the Danish Defence

Beschreibung: Danish Ministry of Defence Acquisition and Logistics (hereafter, DALO) and the Danish Emergency Management Agency (hereafter, DEMA), are putting acquisition of Headwaer up for af tender. The primary function of the headwear items is to provide protection for the head against wind and weather conditions. Most of the items are being used on a daily basis and some of the products are used for specified tasks. The headwear will be used by men and women for both training and actual military operations.

Kennung des Verfahrens: 31725c7a-ca85-469d-8e6e-aac85d9ce870

Interne Kennung: 2024/011554

Verfahrensart: Offenes Verfahren

Das Verfahren wird beschleunigt: nein

Zentrale Elemente des Verfahrens: DALO will, as part of the tender procedure, invite the tenderers to a Clarification meeting, regarding the tender proces and the Test Specimens. See time schedule cf. Instructions to Tenderers. DALO will, as part of the evaluation, test the received Test Specimens, as part of the tenderers' offers. The test procedure is described in Enclosure C - Evaluation method and test description. Each offer will be evaluated and testet by expert panel from DALO. As part of its offer, the tenderer must submit the European Single Procurement Document (ESPD). Please note that a tenderer may rely on the capacity of other entities (e.g. a parent or sister company or a subcontractor), irrespective of the legal nature of the relations between the tenderer and the entity or entities on which the tenderer relies. In this case, the tenderer must ensure that an ESPD from the entity or entities on which the tenderer relies is submitted along with the tenderer's own ESPD. The ESPD of the entity or entities in question must include equivalent information. A tenderer may only submit one offer. The tenderer and, if relevant, the participants in the group of entities and/or entities on which the tenderer relies, must use the ESPD, see section 148 of the Danish Public Procurement Act, as preliminary evidence that the participants are not subject to any of the exclusion grounds set out in sections 135 and 136 of the Danish Public Procurement Act, and that the tenderer fulfils the suitability requirements. It is not necessary for the tenderer to sign the ESPD document. If the tenderer is a group of entities (consortiums), the participants not submitting the offer must sign their ESPD document. Any entities relied on must also sign the ESPD. If a tenderer relies

on the capacity of other entities, the candidate shall upon request provide statements of support or other documentation proving that the candidate has access to the necessary economic and financial standing, and that the entity referred to has a legal obligation to the candidate. If such documentation is not provided, DALO cannot take into account the economic and financial standing of such entity or entities. DALO has prepared a template (available in the electronic tender system) to be used to confirm the legal obligation.

Geschätzter Wert ohne MwSt.: 34 000 000,00 DKK

Höchstwert der Rahmenvereinbarung: 70 000 000,00 DKK

2.1.4. Allgemeine Informationen

Zusätzliche Informationen: In accordance with section 134a of the Danish Public Procurement Act the contracting entity shall exclude a candidate or tenderer from participation in a procurement procedure where the candidate or tenderer is established in a country that is included in the EU list of non-cooperative jurisdictions for tax purposes and has not acceded to the WTO Government Procurement Agreement or other trade agreements committing Denmark to open the public procurement market to tenderers established in that country. However, for reasons of overriding public interest, the contracting entity may refrain from excluding a candidate or tenderer that is subject to the ground for exclusion. It is stressed, however, that the voluntary grounds for exclusion in section 137 of the Danish Public Procurement Act do not apply for this procurement, irrespective of whether the text (which is system-generated) may suggest this. No particular legal form is required. If the agreement is awarded to a group of suppliers (e.g. a consortium), the participants shall undertake joint and several liability and appoint one supplier to represent the group. It is stressed, however, that the voluntary grounds for exclusion in section 137 of the Danish Public Procurement Act do not apply for this procurement, irrespective of whether the text in (which is system-generated) may suggest this. No particular legal form is required. If the agreement is awarded to a group of suppliers (e.g. a consortium), the participants shall undertake joint and several liability and appoint one supplier to represent the group. The agreement is not divided into lots since a division of the agreement will undermine the economies of scale obtainable by one agreement. It is pointed out that this procedure is subject to Article 5k of Regulation (EU) no. 833/2014, as amended. The provision contains a prohibition against award of contracts to Russian companies and Russian-controlled companies etc. (reference is made to Article 5k, section 1 for the exact delimitation of the operators that are subject to the prohibition). DALO reserves the right at any time during the tender process to require tenderers to prove that they are not subject to the prohibition, for example by requiring documentation regarding the tenderers' and any subcontractors' place of establishment and ownership. As part of the submission of offer, the tenderer must submit a self-declaration on compliance with labour clauses, CSR obligations and international sanctions. In this connection, DALO reserves the right, at any time during the tender process, to let the tenderer rectify a missing or inadequately completed

self-declaration. DALO has uploaded a template (available in the electronic tender system) which must be used as declaration. Where groups of entities (e.g. consortiums), including temporary joint ventures, participate jointly in the tender procedure, the self-declaration must be submitted separately for each of the participating entities. DALO reserves the right – but is not obliged – to use the remedies provided for in section 159(5) of the Danish Public Procurement Act if offers do not fulfil the requirements of the tender documents. It should be noted that irrespective of the wording of the requirements of the tender documents to the effect that information, declarations and documentation must be submitted, e.g. concerning a description of the deliverables put up for tender, DALO is not prevented from obtaining additional information, etc., pursuant to section 159(5), cf. section 159(6) of the Danish Public Procurement Act. An information meeting will be held on Thursday, 11 Juny 2026 from 12:00 to 14:00 local time prior to the deadline for submission of offer. Reference is made to the instructions to tenderers for further information in that regard. Prior to decision on award of the agreement, DALO requires that the tenderer to whom DALO intends to award the agreement presents documentation for the information stated in the ESPD, see sections 151-155 of the Danish Public Procurement Act. DALO demands that the tenderer and each of the legal entities on whose economic and financial capacities the tenderer relies undertake joint and several liability for the performance of the agreement. The estimated value of the framework agreement is 34.000.000 DKK, and the maximum value of the agreement is 70.000.000 DKK. The reason for the difference between the stated values is the uncertainty regarding the final value of the agreement, see below. Hence, the estimated value constitutes DALO's most qualified estimate of the value of the agreement at the present moment, while the maximum value constitutes the maximum value of purchases under the agreement in its duration. The uncertainty regarding the final value of the framework agreement is primarily caused by uncertainty regarding exactly how extensively the deliverables under the agreement will be distributed in the Danish Defence. If it is decided that the deliverables in question are to be used by more groups of personnel than what is actually decided for now, this will lead to a significantly larger expenditure under the agreement than what is expected at the moment. The offer shall be in the language english og danish.

5.1.9. Eignungskriterien

Quellen der Auswahlkriterien: Bekanntmachung

Kriterium: Finanzkennzahlen

Beschreibung des Auswahlkriteriums: The tenderer must have an positive equity ratio in each of the last 3 financial years available. The equity ratio (calculated by dividing the tenderer's equity with the tenderer's total assets (equity/total assets x 100) at the end of the last 3 financial years available. Concerning the financial ratios specified in the relevant notice, the procurement documents or the ESPD, the economic operator declares that the actual values for the required ratios are as follows: The tenderer must have an positive equity ratio in each of the last 3 financial years available. The tenderer and other entities, if any, must state the 1) equity, 2) total assets and 3) equity ratio as key figures in the ESPD. The equity and total assets must be stated in DKK. If the tenderer is composed of a group of entities (e.g. consortium), including temporary joint ventures, the equity ratio will be calculated by dividing the sum of the equities of all participants with the sum of the total assets of all participants (the sum of equities/the sum of total assets x 100) in each of the last 3 financial years available. If the tenderer relies on the economic and financial standing of an entity or entities (e.g. a parent or sister company or a subcontractor), the equity ratio will be calculated by dividing the sum of the tenderer's and the entity's/entities' equity with the sum of the tenderer's and the entity's /entities' total assets (the sum of equities/the sum of total assets x 100) in each of the last 3 financial years available. Upon request from DALO, the tenderer must submit the following documentation: Annual reports or excerpts thereof or other documentation stating the tenderer's equity and total assets at the end of the last 3 financial years available if publication of annual reports is required under the law of the country in which the tenderer is established. Where groups of entities (e.g. consortiums), including temporary joint ventures, participate jointly in the tender procedure, the documentation must be provided for each of the participating entities. If the tenderer relies on the economic and financial standing of another entity or other entities (e.g. a parent or sister company or a subcontractor), the documentation must also be provided for each such entity or entities.
