Tätigkeit des Auftraggebers: Mit Strom zusammenhängende Tätigkeiten

2. Verfahren

2.1. Verfahren

Titel: AP1000 Safety Related Fabrication of Containment Vessel (Commodity Code MV50) for Poland AP1000® Project – Unit 2 and Unit 3

Beschreibung: Description: The Containment Vessel (CV) is a freestanding cylindrical vessel with elliptical top and bottom heads. The function of the CV is to house the reactor coolant system (RCS) and other related systems. The CV provides a high degree of leak tightness and is protected against postulated missiles from external sources. 1. Experienced Suppliers capable of fabrication, procurement of ASME materials, documentation, inspection, testing, packaging, quality assurance/quality controls, special tooling, and fulfillment of all other responsibilities defined in ASME B&PV Code, Section III for the NPT Certificate Holder for AP1000 Containment Vessel (described above), must (i) contact (email and/or phone call) the Westinghouse contact person identified in section 1 to express interest and request an AP1000 supplier qualification questionnaire, and (ii) upon receipt, complete the AP1000 supplier qualification questionnaire with sufficient detail for Westinghouse evaluation and return it via email to the Westinghouse contact person. 2. The qualification criteria shall include but is not necessarily limited to (i) demonstrated experience in furnishing of similar components; (ii) NPT certificate holder and ASME B&PV Code, Section III program supplier (iii) meeting the quality requirements for such equipment in a nuclear power plant, including having a Westinghouse or NIAC audited nuclear quality program complying with NQA-1 and 10CFR50 Appendix B; (iv) certification of compliance with all applicable governmental policies, requirements, laws and regulations, applicable international treaties or agreements, and other regulatory requirements; (5v) financial standing (solvency) and (vi) verification of capabilities as further described in the AP1000 supplier qualification questionnaire. 3. Upon evaluation of your response to the AP1000 supplier qualification questionnaire, Westinghouse will determine if your company meets, or does not meet the qualification requirements. Submission of the AP1000 supplier qualification questionnaire does not automatically qualify your company to be a Supplier for the project. 4. Each qualified Supplier will be required to execute a Proprietary Information Agreement (PIA). Companies meeting the qualification criteria and who have executed the PIA will be invited to submit a proposal. 5. Companies meeting the qualification criteria and who have executed the PIA will be invited to submit a proposal. 6. The Request for Proposal (RFP) shall include the information about award criteria, scope of work, specifications, drawings, datasheets, terms and condition, and schedule data. 7. The Request

for Proposal (RFP) document will cover either Unit 2, Unit 3, or both Unit 2 and Unit 3 within the three-unit project, depending on project needs and award strategy. 8. The scope of work for the subject RFP will include: • Overall project management, planning, scheduling, and reporting. • Procurement of material. • Material receipt. • Preparation of necessary fabrication drawings and procedures (welding, coating, etc.), work packages (travelers), manufacturing and assembly plans, quality and inspection plan(s), shop lifting and handling plans (including lifting lug design, drawings, calculations, and testing if needed), transportation plan, testing plan, welding documentation, personnel and process qualifications, and schedules. • Preparation of the necessary documentation to support site lifting, handling, and movement plans, including any special instructions or requirements for unloading, hauling, and storage. • Process qualification procedure and demonstration plans for critical processes, including qualification mockups for the selected critical processes. • Fabrication based on the existing Westinghouse fleet design (not based on specific fabricator preferences). • Cleaning, marking, painting, and packaging. • Non-Destructive Examination (NDE) and other testing (i.e. hydrostatic test) as required by Design Specification. • NQA-1 based Quality Assurance Program, Quality Control, and maintaining required Quality Assurance Data Packages for the project. 9. The RFP document will require furnishing of a Parent Company Guarantee if the prequalified Supplier is an affiliate of Parent Company. 10. Proposal may be requested in EURO, PLN (Polish Zloty), and/or USD. Furthermore, the proposals may be requested in a combination of Fixed Price (not subject to any price adjustment) and Firm Price (subject to adjustment per mutually agreed upon indices). 11. The final Supplier evaluation and selection criteria will include price, compliance with technical, quality, and commercial requirements, experience in furnishing similar equipment, past performance, and compliance with the terms and conditions of purchase. 12. Any companies that do not meet mandatory compliance requirements in Section 3 will be excluded. 13. The procedure for companies to gain access to proprietary information, if required, will be subject to compliance with the executed PIA /NDA, Applicable Export Laws, Applicable Laws, and Applicable Safeguards Laws which will be included in the RFP document. 14. If a large number of companies express interest and submit a completed AP1000 Supplier Questionnaire, the Contracting Authority reserves the right to conduct a preliminary down-selection of companies that demonstrate the highest qualification, capacity, and capability to perform the required scope of work.

Zusätzliche Informationen: 15. The Contracting Authority also reserves the right to exclude any of the following from this Competitive Bidding process: A. any economic operator that is directly or indirectly owned or controlled by an entity from a country not covered by the Government Procurement Agreement ("GPA") with the EU; or B. economic operators who rely in the Competitive bidding process on capacities of any entities from countries not covered by the GPA with the EU. All such decisions by the Contracting Authority are final and shall not be subject to complaint or dispute. 16. The Customer shall be responsible for monitoring of the Contractor's compliance with the competitive procedure. Thus, the Contractor shall transmit

any complaint received to the Customer. The Customer reserves the right to audit of the Contractor's selection of subcontractors under the competitive procedure, in line with the requirements of the Prime Contract. Deadline (Qualification self-assessment Submittal): 15 business days from issuance of this notification RFP Document Issuance: 3rd Quarter 2026 Supplier Proposals Due: Approximately two (2) months from Issuance of RFP document. Order Award Date: 4th Quarter 2026 Updates: Not applicable Soft Copy: PDF copy of the Advanced RFP Qualification Notice included About Contracting Authority: Westinghouse Electric Company, LLC is engaged in the business of design and development of commercial nuclear power facilities, including the AP1000® passive-safety pressurized water reactor. Owner Name: POLSKIE ELEKTROWNIE JĄDROWE SPÓŁKA Z OGRANICZONĄ ODPOWIEDZIALNOŚCIĄ, a limited liability company with offices at: ul. Aleje Jerozolimskie 132 /136, 02-305 Warsaw, Poland. Project Description: Nuclear Power Plant, utilizing AP1000® reactor technology, composed of three (3) specified reactor units and all other nuclear and non-nuclear facilities, with installed total capacity up to 3,750 MW. Project Location: Municipality of Choczewo (Lubiatowo-Kopalino), in the Republic of Poland. Notice Type: Advanced RFP Qualification Notice Bidding Type: Competitive bidding Notice No.: Poland AP1000 MV50 - Containment Vessel

2.1.4. Allgemeine Informationen

Zusätzliche Informationen: Sanctions The company shall certify that (i) is not subject to sanctions, and (ii) does not present a threat to the security interests of Poland, in particular that they are not (a) a Russian national, or a natural or legal person, entity or body established in Russia or (b) a legal person, entity or body whose proprietary rights are directly or indirectly owned for more than fifty percent (50%) by an entity referred to in point (a) of this section or (c) a natural or legal person, entity or body acting on behalf or at the direction of an entity referred to in point (a) or (b) of this Section. "Sanctions" shall mean measures aimed at maintaining or restoring international peace and security enacted by the United Nations and/or the European Union and/or the Poland and/or the US, or any such sanctions law applicable to the company or undertaking's such as sectoral measures, economic and financial measures, or measures introduced against countries (embargoes), natural or legal persons or groups or non-state entities (blocking measures). **Delivery Restrictions** The following delivery restrictions are applicable for items to be provided for the Project: Any manufacturing or supply by an individual, entity or from a country of origin on which sanctions or embargoes are imposed by competent authorities in accordance with the law. No equipment (or parts thereof) and no materials can be manufactured in or imported from the Russian Federation or from parts of Ukraine which are not under factual control of the Ukrainian government in Kiev (currently: Crimea, Donetsk Province (Donetsk Oblast) and Luhansk Province (Luhansk Oblast)). No equipment or parts thereof can be manufactured or supplied by Russian companies, individuals, suppliers or companies from parts of Ukraine which are not under factual control of the Ukrainian government in Kiev (currently: Crimea, Donetsk Province (Donetsk Oblast) and Luhansk Province (Luhansk Oblast)). Any other individual, entity or country of origin deemed by the Republic of Poland as restricted or constituting a threat to the national security or security interests of the Republic of Poland.

5. Los

5.1. Los: LOT-0001

Titel: AP1000 Safety Related Fabrication of Containment Vessel (Commodity Code MV50) for Poland AP1000® Project – Unit 2 and Unit 3

Beschreibung: Description: The Containment Vessel (CV) is a freestanding cylindrical vessel with elliptical top and bottom heads. The function of the CV is to house the reactor coolant system (RCS) and other related systems. The CV provides a high degree of leak tightness and is protected against postulated missiles from external sources. 1. Experienced Suppliers capable of fabrication, procurement of ASME materials, documentation, inspection, testing, packaging, quality assurance/quality controls, special tooling, and fulfillment of all other responsibilities defined in ASME B&PV Code, Section III for the NPT Certificate Holder for AP1000 Containment Vessel (described above), must (i) contact (email and/or phone call) the Westinghouse contact person identified in section 1 to express interest and request an AP1000 supplier qualification questionnaire, and (ii) upon receipt, complete the AP1000 supplier qualification questionnaire with sufficient detail for Westinghouse evaluation and return it via email to the Westinghouse contact person. 2. The qualification criteria shall include but is not necessarily limited to (i) demonstrated experience in furnishing of similar components; (ii) NPT certificate holder and ASME B&PV Code, Section III program supplier (iii) meeting the quality requirements for such equipment in a nuclear power plant, including having a Westinghouse or NIAC audited nuclear quality program complying with NQA-1 and 10CFR50 Appendix B; (iv) certification of compliance with all applicable governmental policies, requirements, laws and regulations, applicable international treaties or agreements, and other regulatory requirements; (5v) financial standing (solvency) and (vi) verification of capabilities as further described in the AP1000 supplier qualification questionnaire. 3. Upon evaluation of your response to the AP1000 supplier qualification questionnaire, Westinghouse will determine if your company meets, or does not meet the qualification requirements. Submission of the AP1000 supplier qualification questionnaire does not automatically qualify your company to be a Supplier for the project. 4. Each qualified Supplier will be required to execute a Proprietary Information Agreement (PIA). Companies meeting the qualification criteria and who have executed the PIA will be invited to submit a proposal. 5. Companies meeting the qualification criteria and who have executed the PIA will be invited to submit a proposal. 6. The Request for Proposal (RFP) shall include the information about award criteria, scope of work, specifications, drawings, datasheets, terms and condition, and schedule data. 7. The Request for Proposal (RFP) document will cover either Unit 2, Unit 3, or both Unit 2 and Unit 3 within the three-unit project, depending on project needs and award strategy. 8. The scope of work for the subject RFP will include: • Overall project management, planning, scheduling, and reporting. • Procurement of material. • Material receipt. • Preparation of necessary fabrication drawings and procedures (welding, coating, etc.), work packages (travelers), manufacturing and assembly plans, quality and inspection plan(s), shop lifting and handling plans (including lifting lug design, drawings, calculations, and testing if needed), transportation plan, testing plan, welding documentation, personnel and process qualifications, and schedules. • Preparation of the necessary documentation to support site lifting, handling, and movement plans, including any special instructions or requirements for unloading, hauling, and storage. • Process qualification procedure and demonstration plans for critical processes, including qualification mockups for the selected critical processes. • Fabrication based on the existing Westinghouse fleet design (not based on specific fabricator preferences). • Cleaning, marking, painting, and packaging. • Non-Destructive Examination (NDE) and other testing (i.e. hydrostatic test) as required by Design Specification. • NQA-1 based Quality Assurance Program, Quality Control, and maintaining required Quality Assurance Data Packages for the project. 9. The RFP document will require furnishing of a Parent Company Guarantee if the

prequalified Supplier is an affiliate of Parent Company. 10. Proposal may be requested in EURO, PLN (Polish Zloty), and/or USD. Furthermore, the proposals may be requested in a combination of Fixed Price (not subject to any price adjustment) and Firm Price (subject to adjustment per mutually agreed upon indices). 11. The final Supplier evaluation and selection criteria will include price, compliance with technical, quality, and commercial requirements, experience in furnishing similar equipment, past performance, and compliance with the terms and conditions of purchase. 12. Any companies that do not meet mandatory compliance requirements in Section 3 will be excluded. 13. The procedure for companies to gain access to proprietary information, if required, will be subject to compliance with the executed PIA /NDA, Applicable Export Laws, Applicable Laws, and Applicable Safeguards Laws which will be included in the RFP document. 14. If a large number of companies express interest and submit a completed AP1000 Supplier Questionnaire, the Contracting Authority reserves the right to conduct a preliminary down-selection of companies that demonstrate the highest qualification, capacity, and capability to perform the required scope of work.
