Zusätzliche Informationen: General information about participation in the tender procedure: Participation in this tender can only take place electronically via the contracting authority's electronic procurement system. In order to gain access to the tender documents, the tenderer must be registered or register as a user. If the tender contains several versions of the same document, the most recent uploaded version will be the valid one. All communication in connection with the procurement procedure, including questions and answers, must be made via the electronic procurement system. Questions must be asked so that they are received in time for the contracting authority to obtain the necessary information and provide the answers no later than six days before the application deadline. Questions received later than six days before the deadline cannot be expected to be answered unless the deadline is postponed at the same time. Interested parties are asked to stay informed via the electronic procurement system. If the tenderer experiences problems with the system, support can be contacted by email, dksupport@eu-supply.com, or phone, (+45) 70 20 80 14. As part of its tender, the tenderer must submit an ESPD. It is not necessary for the tenderer to sign its ESPD document. In the case of an association of undertakings (e.g. a consortium), a separate ESPD must be submitted for each of the participating economic operators. However, if the tenderer is an association of undertakings, the ESPD document of each participant must be signed by the participant in question. It is not necessary for the lead bidder submitting the tender to sign its ESPD document. If the tenderer relies on the capabilities of other entities, an ESPD must be submitted for each of the entities on which it is based, and the ESPD document must be signed by the supporting entity. The contracting entity may only accept certificates of inclusion on an official list from tenderers established in the country that maintains the official list. If the Tenderer relies on the capacity of other entities, the Tenderer must also submit a statement of support in which the entity(s) on which the Tenderer relies declares that it is jointly and severally liable with the Tenderer if the latter is awarded the contract. The template is included as an appendix to the tender specifications. If the Tenderer constitutes an association of companies (e.g. a consortium), the Tenderer must also submit a consortium declaration in which all consortium participants declare that they are jointly and severally liable with each other if the consortium is awarded the agreement. The template appears as an appendix to the tender specifications. Estimated value of the agreement: It should be noted that the amount is an estimate of the expected contract price for the agreement. Attention is drawn to the fact that the tender is covered by Article 5k of Regulation (EU) No 833/2014 as amended. The provision contains a prohibition on awarding contracts to Russian companies and Russian-controlled companies, etc. (see Article 5k(1) for the precise delimitation of the players covered by the prohibition). The contracting authority reserves the right at any stage of the tender process to require documentation that the economic operators are not covered by the prohibition, e.g. by requiring a declaration to this effect and/or documentation of the operators' and their subcontractors' place of establishment and ownership, if any.

Kriterium: Finanzkennzahlen

5.1.10. Zuschlagskriterien

Kriterium:

Art: Preis

Bezeichnung: Price

Beschreibung: The price to be evaluated is the Total Tender Price, specified in Appendix 2 – Prices. DTU uses a linear point scale model to evaluate the Tenderers' prices. The linear model implies that the offered prices are converted into points, and the offered prices are awarded points on a scale from 0-10. Thus, lowest price is awarded maximum points 10, while prices that are 50% or more expensive / higher than the lowest price are awarded 0 points. Other prices in between are awarded points according to linear interpolation. If more than one of the tenders are awarded 0 points, the threshold for 0 points is adjusted upwards by 5 percentage points until only one tenderer is awarded 0 points. However, the threshold for 0 points will not be adjusted to higher than 100 %. If all tenders deviate by less than 10 % from the lowest price, the threshold for 0 points changes by 5 percentage points in the downward direction until a minimum of 1 tender is below 9 points. However, the threshold for 0 points will not be adjusted to less than 30 %. The above is an expression of the economic sub-criterion being assessed relatively, which means that the offers are assessed against each other.
