2. Verfahren

2.1. Verfahren

Titel: Prequalification: Cable trenches and land roof Fitjar - Tysnes and Austevoll - Tysnes
Beschreibung: The Contracting Authority wishes to enter into a contract with a contractor for: - Establishment of cable trenches and landfalls in connection with a new subsea cable connection between Fitjar and Tysnes. - Establishment of cable trenches and landfalls in connection with a new subsea cable connection between Austevoll and Tysnes. A more detailed description of the relevant projects is, inter alia, included in Part II of the Contract Documents. For further details, reference is made to the other procurement documents, including the technical description, bills of quantities, maps and drawings, etc. For a more detailed description of the estimated contract start, progress schedule, and deadlines, reference is made to Chapter E of the Contract Documents. Important information regarding access to the procurement documents: It is specified that Part II of the Contract Documents with appendices (technical tender documentation) contains power-system-sensitive information that is subject to confidentiality pursuant to the Energy Act and the Power Preparedness Regulations. In order to obtain access to the relevant documents, interested suppliers must complete and sign Appendix 1 (Information Security Agreement) and Appendix 2 (Non-Disclosure Declaration). The signed documents shall be submitted in the message portal in Merzell. After the Contracting Authority has received the signed Information Security Agreement and Non-Disclosure Declaration, the supplier will be sent Part II of the Contract Documents with all appendices (technical tender documentation). Implementation of the projects is conditional upon the necessary approvals being in place in accordance with the Contracting Authority's expectations. This includes, inter alia, board approval of agreements, licenses and other permits, including landowner agreements, etc. If these conditions are not met, the Contracting Authority reserves the right to cancel the competition. It may also be relevant to amend the tender documents if licenses or other permits are delayed or are not granted in accordance with the Contracting Authority's prerequisites. Such changes may, inter alia, include adjustments to the contract start date, deadlines, implementation plan and contract period, as well as other adaptations. This may, inter alia, entail postponement of the contract period, which may also affect the construction period. Any changes will be communicated in writing to the remaining suppliers in the competition. The suppliers will then be given an opportunity to adapt their tenders, or, as the case may be, submit a revised tender within a specified deadline. The Contracting Authority reserves the right to reduce the number

of tenders to be negotiated. An initial reduction in the number of tenders may take place already prior to the negotiations, cf. the Utilities Regulations section 19-12 (4).

Westeuropäische Zeit, GMT

Auftragsbedingungen:

Die Auftragsausführung muss im Rahmen von Programmen für geschützte Beschäftigungsverhältnisse erfolgen: Nein

Bedingungen für die Ausführung des Auftrags: A technical quantity description has been prepared for pricing. The quantity description is prepared in accordance with NS 3420 (202401) with the changes/adjustments in accordance with the quantity description and the contract documentation in general. As the works are carried out, the contractor may claim instalments of the contract sum on the basis of completed units and materials delivered to the construction site. The value shall be calculated according to the stated unit prices. Rates as stated in the bill of quantities shall apply to additional or variation work and dayworks. The remuneration shall be adjusted for inflation in accordance with NS 3405, using the total index method, with quarterly adjustments. The index figure used shall be the Construction Cost Index from Statistics Norway (SSB) for road construction works, total. See, inter alia, Part II of the Contract Documents for further information.

Es ist eine Geheimhaltungsvereinbarung erforderlich: ja

Zusätzliche Angaben zur Geheimhaltungsvereinbarung: Tenderers must sign the contracting authority's confidentiality declaration for power sensitive information.

Finanzielle Vereinbarung: A technical quantity description has been prepared for pricing. The quantity description is prepared in accordance with NS 3420 (202401) with the changes /adjustments in accordance with the quantity description and the contract documentation in general. As the execution occurs, the contractor can demand instalments of the contract sum on the basis of the units performed and that which is provided to the construction site of materials. The value is calculated according to the listed unit prices. The rates stated in the quantity description apply for additional/alteration and maths work. The reagent index is regulated in accordance with NS 3405 the total index method, with quarterly regulation. The construction cost index from Statistics Norway for road installations, is used as index figures. See part II the contract documentation for further information.
