Release note

eForms xsd version: eForms-1.0

Date: 06/11/2020

Release of eFORMS schema XSD, based on UBL XSD version 2.3 (csd03), for EU Procurement notices.

1   XSD modifications

1.1   eForms dedicated namespaces

Namespaces defined and integrated in the schemas components:

Prefix	Name	Description
efext	http://data.europa.eu/p27/eforms-ubl-extensions/1	eForms specific extension components
efac	http://data.europa.eu/p27/eforms-ubl-extension-aggregate-components/1	eForms specific extension aggregate components
efbc	http://data.europa.eu/p27/eforms-ubl-extension-basic-components/1	eForms specific extension basic components
	http://data.europa.eu/p27/eforms-society-registration-information-notice/1	For the non UBL Document Type on EEIG/EC

1.2   UBL extension

1.2.1   UBL compliance

To satisfy the UBL requirements, the UBL extension has been reverted to "choice" with a single element.

1.2.2   Update of expected UBL extension elements

With the last UBL evolution, the basic component "*cbc:Description*" is not needed anymore in the list of expected UBL extension elements and has been removed.

1.3   eForms extension:

1.3.1   New elements

Some new elements have been added to cover BTs not yet addressed or to improve the mark-up already proposed.

Element	BT-ID	BT Name
Aggregate component		
efac:AnswerReceptionPeriod		Container for Deadline Receipt Answers (E1) BT-800
efac:AppealStatus	BG-714	Review
efac:AppealedItem	BT-786	Container for Review Notice Section Identifier
efac:AppealProcessingParty	BG-715	Review Body (BG-715)
efac:AppealsInformation		Container for all reviews information

efac:AppealingParty		Organisation requesting review
efac:BuyingPartyReference		To refer to a specific Buyer using its identifier at another place than the one where he is defined
