

Norway-Trondheim: Core drilling
OJ S 3/2016 06/01/2016
Contract award notice
Services

Directive 2004/18/EC

Section I: Contracting authority

I.1. Name and addresses

Official name: Geological Survey of Norway (NGU)

National registration number: 970 188 290

Postal address: Postboks 6315 Sluppen

Town: Trondheim

Postal code: 7491

Country: Norway

Contact person: Continental Shelf

For the attention of: Odleiv Olesen

E-mail: ngu@ngu.no

Telephone: +47 73904000

Fax: +47 73921620

Internet address(es):

General address of the contracting authority: <http://www.ngu.no>

Address of the buyer profile: <https://kgv.doffin.no/ctm/Supplier/CompanyInformation/Index/1709>

Electronic access to information: <https://kgv.doffin.no/ctm/Supplier/Documents/Folder/134895>

I.2. Type of the contracting authority

National or federal agency/office

I.3. Main activity

Other: geological and environmental surveys

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title

COOP3 — Core drilling of 1 borehole at Veidholmen.

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 27: Other services

Main site or place of performance: Trondheim.

NUTS code NO062 Nord-Trøndelag

II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)

II.1.4. Short description of the contract or purchase(s)

The Geological Survey of Norway (NGU) wishes to acquire more knowledge about the heat

development in Norwegian crystalline rocks and its effect on heat flow and temperature in sedimentary basins on the Norwegian continental shelf. We also wishes to assess the potential for deep geothermal energy. To achieve this NGU plans to drill one (1) vertical hole to a depth of 800 m at Veidholmen north of Smøla island in Møre og Romsdal County and hereby invites qualified companies to submit bids on this assignment.

1. Information on the drilling location:

Drilling site is at Innveien located at 1 kilometer from Veidholmen in Møre and Romsdal. Drilling coordinates are UTM 448535-7043010 north-west, Zone 32, EU datum 89. The drilling site is a former quarry along County Road 669, easily accessible for drilling equipment. There is access to water from small lakes nearby. The rock consists of both massive and foliated quartz diorite (gneiss).

2. Technical description of the work:

- Only 1 vertical borehole will be accepted. Minimum drilling diameter is 76 mm.
- Core drilling will go down to a depth of 800 meters (optional down to 1 000 m preferred). If during the drilling the contractor meets technical or geological problems, NGU shall be immediately contacted to discuss and decide whether to caster/case the hole or stop drilling.
- The casing in sediments over bedrock is required.
- The borehole must be cleaned and left clean after drilling. Extra flushing is required at the end of the boring.
- A meter per meter drilling report containing all drilling information about drilling speed, registration of cracks (fractures), inflows of water from cracks and other drilling information, etc. is required at the end of the assignment.
- Drill cores should be sampled continuously and conserved in appropriate and marked (core interval, top/bottom) core boxes.
- The borehole must be secured with a lockable cap.

3. Evaluation of Bids:

The Geological Survey of Norway will evaluate and compare only the Price quoted of those Bids found to be substantially responsive. Detailed evaluation shall be conducted on the basis of:

- Quoted price (50 %);
- Bidder's experience, competence, reliability and technical ability to perform the contract (25 %);
- References for similar projects (25 %).

The evaluation shall take into consideration any discounts offered by Bidders.

4. The bid shall be submitted in the following format:

- Original Bid on paper, dated and signed, in a sealed envelope and clearly marked 'Bid: COOP3 Core Drilling Project';
- 1 copy in PDF format on CD or memory stick;
- 1 censored copy in PDF format on CD or memory stick.

Bidders shall prepare an (original) bid and submit it in a sealed envelope. The envelope should then be placed in neutral envelope and sealed. The neutral sealed envelope should be marked 'Bid for COOP3 Core Drilling Project' and delivered within 4.11.2015 at Geological Survey of Norway (at the reception), Leiv Eiriksson Road 39, Lade, Trondheim, Norway.

Bids may optionally be sent by regular mail to: NGU, PO Box 6315 sloop, 7491 Trondheim. The Bidder may have the risk that the bid does not reach NGUs premises in Leiv Eirikssons Road 39, within the deadline.

Electronic Invoice (E-invoice):

NGU requires that the suppliers of goods and services have the capacity to send their invoices and credit notes electronically in accordance with the standard 'Electronic Trade Format' (Elektronisk handelsformat-EHF).

Valid tax certificate and HSE declaration shall accompany the tender.

NGU reserves the right to reject the entire, parts of the bid or to enter into negotiation with a selection of the most relevant suppliers. NGU reserve the right to go ahead with new request for bids depending on the size of received quotations, quantity and available budget.

NGU uses the regulation 'General purchasing terms for government purchases of merchandise (AIS 89)'.

Questions about the task directed to:

Odleiv Olesen (technical issues): tel. +47 73904456; Mobile. +47 99071743; Email: odleiv.olesen@ngu.no or Cyprien Habimana (other issues): tel. +47 73904210, Email: cyprien.habimana@ngu.no

Bidders are encouraged to submit a censored version of the bid that may be forwarded to other bidders (on request) without damaging any sensitive business information.

Bidding document is in English. Interested parties are expected to be able to read instruction and specifications. Insufficient or erroneous bid is the bidder's own responsibility and it will be rejected.

II.1.5. CPV code(s)

76340000 Core drilling

II.1.6. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.2. Total value of the contract/lot

II.2.1. Total value of the contract/lot

Value: 1 110 000 NOK
excluding VAT

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Negotiated with a call for competition

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of

1. Price. Weighting 50
2. Experience, competence, reliability and technical ability to perform the contract. Weighting 25
3. References for similar projects. Weighting 25

IV.2.2. Information about electronic auction

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting authority

15/00364

IV.3.2. Previous publication concerning this procedure

Contract notice

Notice number in the OJ S: [2015/S 157-289967](#) of 15.8.2015

Section V: Award of contract

Contract No: 1

Lot No: 1

- Lot title: Core drilling of 1 borehole at Veidholmen, Smøla

V.1. Date of conclusion of the contract

18.12.2015

V.2. Information about tenders

Number of tenders received: 1

Number of tenders received by electronic means: 1

V.3. Name and address of the contractor

Official name: Geo Drilling AS

National registration number: 984207670

Postal address: Industriveien 7

Town: Namsos

Postal code: 7801

Country: Norway

E-mail: firmapost@geodrilling.com

Telephone: +47 74287360

Internet address: <http://geodrilling.no/>

V.4. Information on value of the contract/lot

Initial estimated total value of the contract/lot:

Value: 1 020 000 NOK

excluding VAT

V.5. Information about subcontracting

The contract is likely to be subcontracted: no

Section VI: Complementary information

VI.1. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

VI.2. Additional information

VI.3. Procedures for review

VI.3.1. Review body

VI.3.2. Review procedure

VI.3.3. Service from which information about the review procedure may be obtained

VI.4. Date of dispatch of this notice

4.1.2016
