**II.1. Description**

**II.1.1. Title**

Analysis of water samples from limed waterways.

**II.1.2. Type of contract and place of performance or delivery**

Services

Service category No 27: Other services

Main site or place of performance: Trondheim.

NUTS code NO Norge

**II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)**

**II.1.4. Short description of the contract or purchase(s)**

The procurement concerns analysis of water samples taken in connection with liming of rivers and lakes. The Contracting Authority shall undertake laboratory water chemical analysis of regular water samples taken upstream and downstream of liming in acidification affected

waterways. The analyses shall be carried out according to specified sequences (a, b and c sequence), where different parameter ranges are involved in each sequence. The water samples will be sent to the Contracting Authority via mail, and the analytical results must be available by specified deadlines. The Contracting Authority is responsible for acquiring and labelling sample bottles and sending these to the samplers. The analytical results shall be sent via email in accordance with the recipient list, loaded in databases, presented in tables and graphs, and combined in a single annual report.

The assignment duration will be from 1.1.2016 to 31.12.2017, with an option for extension of 1 year + 1 year.
