The contract includes providing Local Electricity Inspection (also referred to as DLE) services for Nordlandsnett's (henceforth referred to as NOR) area of supplies, in accordance with approved inspection plans.

Each municipality will be divided into a separate inspection plan with inspection activities in accordance with the number of inspection objects. The municipalities shall be priced separately.

The tenderer must, based on orders, provide electrical security information to the groups described in the general inspection plan, as well as revisions of businesses conducting electrical services.

Based on previous years' experience and activities in the construction business, the estimated increase of inspection objects that are subject to annual inspections are between 50 and 100 objects.

The framework agreement period is 2 years, from and including year 2017. Option for 1+1 year extension of the contract.

The approved annual inspection plan and the activities with accompanying invoicing shall be implemented in accordance with the progress schedule with milestones. See annex 2; the Requirement specification.

The activities shall be executed in accordance with prevailing laws, regulations, instructions, inspection schedules and attached specifications, and in accordance with prevailing regulations for the various inspection objects.

The service provider shall submit 'inspection notifications', 'decision notifications', and respond to the customer's request regarding the inspection report's content, up until a 'decision' is made.

The contract will be subject to adjustments/alterations in accordance with requirements from the authorities.

If the authorities implement alterations for the network companies' frame conditions which will result in considerable changes for the premises for the contractual relationship, the signed contract can be terminated. The tenderer cannot claim compensation for losses in connection with the interrupted procurement or termination of contract.
