Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- The procurement falls outside the scope of application of the directive

Explanation:

The procurement of sets for sets for securing traces is carried out without competition, in accordance with PPR § 13-4 letter b, no 2. The set for securing traces is in the market for forensic materials. The contracting authority has thorough knowledge of this market. The delivery of different sets for securing traces is very specialised for this field. There are strict requirements for both the products and the packing of the sets. The packing shall i.a. take

place under sterile conditions (free of DNA). There is a large deliver quantity in this agreement, which entails great demands regarding production capacity and ability to deliver. A previous open tender contest has been held prior to each new agreement period. However, only KonDaTex Service AS has presented tenders. The contracting authority therefore assumes that KonDaTex Service AS is the only supplier of sets for securing traces in the market. It is therefore not feasible to create a competition for the delivery. A call for tender will not improve the competition, nor will it improve the delivery. The Voluntary ex-ante transparency notice is published in accordance with the Public Procurement Regulations § 21-5.

IV.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes
