

2) Create a framework of 2 providers to provide any additional web related services that may be required by GC Business Growth Hub or GC Growth Company.

GC Business Growth Hub is looking to work closely with a creative and strategic web developer to reinforce our web presence through improvement and maintenance of GC Business Growth Hub website, www.businessgrowthhub.com.

This will include a continued focus on ensuring the design and development of the site delivers a modern, professional and attractive interface capable of showcasing numerous products, services and events; hosting rich media content engaging with a diverse audience of ambitious business leaders and further developing online networks to help facilitate and connect communities to new opportunities.

The GC Business Growth Hub website is predominantly CMS manageable, but would expect to work with the developers on SEO, PPC and related content strategies.

For website maintenance, the successful service provider will be required to provide on-going support through regular meetings (phone/online/face to face) to work through “snagging” lists, manage fixes, undertake minor updates and ensure the effective day to day operation of the site.

GC Business Growth Hub would also welcome interest from a web development and maintenance provider who is able to provide hosting services.
