Wicklow County Council seeks a Hybrid Cloud Infrastructure solution comprising of an on-Premise Hyper-Converged Infrastructure (HCI) and integrated Public/Private Cloud infrastructure, controlled via a single management interface to replace its legacy systems. This solution must ensure Data Loss Prevention, offer a robust Backup/Disaster Recovery solution and provide Business Continuity, enabling the WCC to easily and quickly deploy Systems/Services on-Premise or in the Cloud according to business requirements.

WCC requires an efficient, cost-effective solution that is flexible, scalable and will cater for future growth and business needs.

WCC requires a fully managed hosted Disaster Recovery solution for a number of business-critical systems including file servers, applications servers and database servers. WCC is operating in a dynamic environment and will have requirements to replicate additional Virtual Machines (VMs), cease replication/remove VMs, and modify resources on VMs from a single portal. WCC also has VMs in a protected DMZ which would need to be comprehended in the proposed solution.
