II.1. Description

II.1.1. Title

NHSScotland Project Management Framework.

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 12: Architectural services; engineering services and integrated engineering services; urban planning and landscape engineering services; related scientific and technical consulting services; technical testing and analysis services

Main site or place of performance: Throughout Scotland.

NUTS code UKM Scotland

II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)

II.1.4. Short description of the contract or purchase(s)

The objective of the Scottish Government Health and Social Care Directorates (SGHSCD) and the Authority, acting through its division, Health Facilities Scotland (HFS) is to procure a new series of construction and professional advisor frameworks for use by NHSScotland bodies and those other organisations nominated by HFS and described in more detail in this section below ("Framework Customers"), to deliver cost and time efficiencies in the delivery of publicly funded health and social care projects across Scotland. The establishment of this new series of frameworks is presently scheduled for early 2013.

This Project Management Framework (the "Framework"), part of a proposed series of professional services advisor frameworks, will be used by Framework Customers for other health and social care projects and consultancy advice in addition to work relating to projects to be delivered under the Frameworks Scotland 2 construction framework. Frameworks Scotland 2 is a national framework agreement for Scotland to be put in place between the Authority and appointed "Principal Supply Chain Partners", under which a range of publicly funded construction and repair/maintenance schemes will be delivered in respect of health, social care and other facilities.

This Framework will provide project management services to Framework Customers on a call-off basis.

The role of Project Manager is varied and may include inputs to projects to be delivered via a variety of procurement routes. It will be a key requirement of this framework to provide project management services for construction projects procured under the NEC3 suite of contracts. It is intended that the following parties will be Framework Customers entitled to call off the Framework:

— NHS Scotland Health Boards, Special Health Boards, and other NHS organisations operating in Scotland;

— Any other organisations involved in the provision of health, social care, or health or social care related services in Scotland (including those working with or on behalf of the above NHS

Scotland bodies) including, without limitation, entities which are involved in the funding and/or operation of health and social care facilities, universities, charities and local authorities, as nominated by the Authority.

These bodies may act individually or collectively when calling off the Framework.

Further information is provided in the Memorandum of Information on <https://www.publictendersscotland.publiccontractsscotland.gov.uk> issued in connection with this tender process.

Health Facilities Scotland, a division of the Authority, is running this tender process. Economic operators are advised that the issue of documents by Health Facilities Scotland does not commit the Authority, the Scottish Ministers, any NHS Board in Scotland or any other NHSScotland organisation to:

- Proceed with the appointment of economic operators to this Framework;
- Award any subsequent contract for individual projects pursuant to this Framework.

None of the Authority, the Scottish Ministers, or any NHSScotland organisation, nor any of their advisors, shall be liable for any expenses incurred by economic operators in connection with the tender process whether for this Framework or any subsequent contract pursuant to this Framework.

II.1.5. CPV code(s)

Initial estimated total final value of contract(s) is GBP 4500000. As this is a competitive call-off framework it is not possible to state in advance the value of contract(s) each firm on the framework will receive.

(SC Ref:290201)

VI.3. Procedures for review

VI.3.1. Review body

VI.3.2. Review procedure

Precise information on deadline(s) for review procedures: The Authority will notify economic operators who submitted a tender or (where no deselection notification has previously been made) applied to be selected to tender, of its decision to award the contract, which notification will contain, among other information, a summary of the reasons why the economic operator was unsuccessful. The notification will incorporate a 'standstill period' of a minimum of 10 clear calendar days (or 15 if the notice is not sent electronically) between the date on which the Authority despatches the notice and the date on which the Authority proposes to make an award pursuant to this procurement. The bringing of court proceedings against the Authority during the standstill period will automatically continue the prohibition on entering into the contract until the court proceedings are determined, discontinued or disposed of, or the court, by interim order, brings to an end the prohibition. The remedies that may be awarded by the courts before the contract has been entered into include the setting aside of the decision to award the contract to the winning tenderer. The bringing of court proceedings against the Authority after the contract has been entered into will not affect the contract unless grounds for the imposition of special penalties under The Public Contracts (Scotland) Regulations 2012 can be established. Otherwise the remedies that may be awarded by the courts where the contract has been entered into are limited to the award of damages. Economic operators are entitled to write to the Authority after receipt of the notification should they require further clarification. The Authority will respond within 15 days of such a written request, but it should be noted that receipt by the Authority of such request during the standstill period may not prevent the Authority from awarding the contract following the expiry of the standstill period. Where an economic operator is dissatisfied with the Authority's response to its request for clarification, or considers that the contract has been concluded in breach of The Public Contracts (Scotland) Regulations 2012, such economic operator is advised to promptly seek independent legal advice.

VI.3.3. Service from which information about the review procedure may be obtained

VI.4. Date of dispatch of this notice

9.1.2014
