

United Kingdom-Swindon: Construction work
OJ S 8/2019 11/01/2019
Contract notice
Works

Legal Basis:

Directive 2014/24/EU

Section I: Contracting authority

I.1. Name and addresses

Official name: Public Power Solutions Ltd

Postal address: Waterside Park Darby Close, Cheney Manor Industrial Estate

Town: Swindon

NUTS code: UK United Kingdom

Postal code: SN2 2PN

Country: United Kingdom

E-mail: tenders@publicpowersolutions.co.uk

Internet address(es):

Main address: <http://www.publicpowersolutions.co.uk/>

I.3. Communication

The procurement documents are available for unrestricted and full direct access, free of charge, at: <http://in-tendhost.co.uk/publicpowersolutions/asp/Home>

Additional information can be obtained from the abovementioned address

Tenders or requests to participate must be submitted electronically via: <http://in-tendhost.co.uk/publicpowersolutions/asp/Home>

Tenders or requests to participate must be submitted to the abovementioned address

I.4. Type of the contracting authority

Body governed by public law

I.5. Main activity

Environment

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

New Energy Dynamic Framework (NEDF)

Reference number: PPS02

II.1.2. Main CPV code

45000000 Construction work

II.1.3. Type of contract

Works

II.1.4. Short description

Public Power Solutions (PPS) is setting up a Dynamic Purchasing System for a period of 4 years and is inviting bidders to request to participate for a wide range of services/solutions /commercial arrangements relating to energy projects. The DPS will include:

- engineering, procurement and construction,
- independent connection provider,
- operations and maintenance,
- legal services,
- financial platform,
- technical adviser,
- power purchase agreement provider and aggregators (suppliers can apply for one or multiple lots). The place of performance could be anywhere in the EU. EU funded projects can be procured through the DPS. The DPS will be open to PPS/all Local Authorities/other Contracting Authorities located in the UK. PPS/any Contracting Authority shall have the right to award a call-off contract according to the terms of the DPS Agreement. PPS reserves the right to reduce/extend/terminate the DPS in accordance with the DPS agreement.

II.1.5. Estimated total value

Value excluding VAT: 500 000 000,00 GBP

II.1.6. Information about lots

This contract is divided into lots: yes

Tenders may be submitted for all lots

The contracting authority reserves the right to award contracts combining the following lots or groups of lots:

Any 2 or more lots at call-off stage.

II.2. Description

II.2.1. Title

EPC (Engineering Procurement and Construction)

Lot No: 1

II.2.2. Additional CPV code(s)

45000000 Construction work, 45315000 Electrical installation work of heating and other electrical building-equipment, 71314200 Energy-management services, 71314000 Energy and related services, 71318000 Advisory and consultative engineering services, 51100000 Installation services of electrical and mechanical equipment, 31230000 Parts of electricity distribution or control apparatus, 45259900 Plant upgrade work, 31100000 Electric motors, generators and transformers, 34144900 Electric vehicles, 65300000 Electricity distribution and related services, 50532100 Repair and maintenance services of electric motors, 09332000 Solar installation, 45251000 Construction works for power plants and heating plants, 71314300 Energy-efficiency consultancy services, 09330000 Solar energy, 50000000 Repair and maintenance services, 31121340 Wind farm, 45251160 Wind-power installation works, 71500000 Construction-related services, 45251200 Heating plant construction work, 71300000 Engineering services, 51110000 Installation services of electrical equipment, 79110000 Legal advisory and representation services, 72224000 Project management consultancy services, 45251250 District-heating plant construction work, 45232140 District-heating mains construction work, 31200000 Electricity distribution and control apparatus, 09300000 Electricity, heating, solar and nuclear energy, 45259000 Repair and maintenance of plant, 45315300 Electricity supply installations

II.2.3. Place of performance

NUTS code: UK United Kingdom

Main site or place of performance:

II.2.4. Description of the procurement

Creation of a DPS for a wide range of services/solutions/commercial arrangements relating to energy projects throughout the EU. Including services/solutions/commercial arrangements for legal services, design, funding, construction, development and/or operation of energy generation projects and arrangements related to the sale/supply of energy from energy projects (including private wire and other PPA/energy supply arrangements) and/or generation /other revenues from energy projects. For these purposes, the expression energy project includes but is not limited to all forms of energy generation project (including, not limited to, electricity generation from solar PV), energy storage (including, not limited to, battery storage) and electric vehicle charging — whether the project in question encompasses 1/more installations on 1/more multiple sites and whether just a single technology/installation type or a combined/hybrid project type such as (but without limitation) any combination of energy generation and/or energy storage and/or electric vehicle charging.

Lot 1: Engineering Procurement and Construction (EPC) PPS is seeking applications to this lot from providers of EPC solutions who can undertake the detailed design, supply of plant, construction and commissioning of energy projects including the following. EPC provider is engaged to:

- 1) Design/build an energy project, where the project (including the design and build cost payable to the EPC provider) is to be funded by the Authority and the Authority will own and operate the project once built;
- 2) Design/build an energy project on the basis that the EPC provider also provides construction finance, such that the Authority is only required to provide funding itself once the project has been built against agreed milestones/requirements;
- 3) Design/build/own/operate an energy project at its own cost on land made available by the Authority, so a fully funded solution as part of which the EPC provider, not the Authority, will own and operate the project once built. The EPC provider, as the project owner/operator, may /may not also be required to use the project to provide energy or other services to the authority e.g. under arrangements for the supply to the authority of electricity generated by the project and/or electricity storage/load shifting services and/or electric vehicle charging services. The basis on which an EPC provider may be engaged to deliver a solution for one/more energy projects will vary according to the particular solution/project requirements, as well as/instead of the conclusion of a particular works contract with the EPC provider, it is envisaged that arrangements for delivery of a particular solution may in certain cases include the grant of a lease/licence to the EPC provider and/or the conclusion of a PPA/other commercial agreement for supply/purchase of electricity/other services. The EPC provider may also be required to deliver/manage a complete energy project solution by formulating/managing its own supply chain with other providers (who may be secured from the other Lots on this DPS either at the discretion of the EPC provider, or at the express instruction of the procuring authority when calling off the energy project in question) to deliver the full range of specialisms in relation to an energy project, including without limitation, ICP and/or operation and maintenance providers. This will be notified by individual contracting authorities at call-off stage and in this scenario, the EPC provider will have sole contractual responsibility to the Contracting Authority. Call-off contracts may combine lots as notified at call-off stage. Contracting Authorities may also require DPS suppliers in different lots who are successful at call-off stage to enter into an interface agreement with other successful DPS suppliers and/or the Contracting Authority. It is not the intention to combine lots for the purpose of admitting suppliers to the DPS.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 500 000 000,00 GBP

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 60

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

Option to extend for a period of 1 year on 6 months notice.

II.2.12. Information about electronic catalogues

Tenders must be presented in the form of electronic catalogues or include an electronic catalogue

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: no

II.2.14. Additional information

The DPS Agreement (PPS02) is for use by Contracting Authorities ("Buyers") in the United Kingdom and the European Union and which fall into one or more of the following categories (Authorised Customer List): Appendix A attached to DPS documentation available with contract documents at the PPS DPS portal. The duration of the DPS will be 4 years with an option to extend for a further year.

II.2. Description

II.2.1. Title

ICP (Independent Connection Provider)

Lot No: 2

II.2.2. Additional CPV code(s)

45000000 Construction work, 45315000 Electrical installation work of heating and other electrical building-equipment, 71314200 Energy-management services, 71314000 Energy and related services, 71318000 Advisory and consultative engineering services, 51100000 Installation services of electrical and mechanical equipment, 31230000 Parts of electricity distribution or control apparatus, 45259900 Plant upgrade work, 34144900 Electric vehicles, 65300000 Electricity distribution and related services, 45259300 Heating-plant repair and maintenance work, 45251220 Cogeneration plant construction work, 45251000 Construction works for power plants and heating plants, 71314300 Energy-efficiency consultancy services, 65400000 Other sources of energy supplies and distribution, 50000000 Repair and maintenance services, 31121340 Wind farm, 45251160 Wind-power installation works, 45251200 Heating plant construction work, 71300000 Engineering services, 51110000 Installation services of electrical equipment, 79110000 Legal advisory and representation

services, 72224000 Project management consultancy services, 31121300 Wind-energy generators, 71500000 Construction-related services, 45232140 District-heating mains construction work, 31200000 Electricity distribution and control apparatus, 45259000 Repair and maintenance of plant, 45315300 Electricity supply installations

II.2.3. Place of performance

NUTS code: UK United Kingdom

Main site or place of performance:

II.2.4. Description of the procurement

Creation of a DPS for a wide range of services/solutions/commercial arrangements relating to energy projects throughout the EU. Including services/solutions/commercial arrangements for legal services, design, funding, construction, development and/or operation of energy generation projects and arrangements related to the sale/supply of energy from energy projects (including private wire and other PPA/energy supply arrangements) and/or generation /other revenues from energy projects. For these purposes, the expression energy project includes but is not limited to all forms of energy generation project (including, not limited to, electricity generation from solar PV), energy storage (including, not limited to, battery storage) and electric vehicle charging — whether the project in question encompasses 1/more installations on one/more multiple sites and whether just a single technology/installation type or a combined/hybrid project type such as (but without limitation) any combination of energy generation and/or energy storage and/or electric vehicle charging. Independent Connection Provider (ICP) — Public Power Solutions are seeking applications to this lot from Independent Connection Provider companies who are able to undertake the detailed design, supply of plant, construction and commissioning of connections in respect of any energy project. Call-off contracts may combine lots as notified at call-off stage. Contracting Authorities may also require DPS suppliers in different lots who are successful at call-off stage to enter into an interface agreement with other successful DPS suppliers and/or the Contracting Authority. It is not the intention to combine lots for the purpose of admitting suppliers to the DPS.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 500 000 000,00 GBP

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 60

This contract is subject to renewal: no

Lot No: 7

II.2.2. Additional CPV code(s)

45000000 Construction work, 45315000 Electrical installation work of heating and other electrical building-equipment, 71314200 Energy-management services, 71314000 Energy and related services, 71318000 Advisory and consultative engineering services, 51100000 Installation services of electrical and mechanical equipment, 31230000 Parts of electricity distribution or control apparatus, 45259900 Plant upgrade work, 34144900 Electric vehicles, 65300000 Electricity distribution and related services, 45259300 Heating-plant repair and maintenance work, 45251220 Cogeneration plant construction work, 45251000 Construction works for power plants and heating plants, 50532100 Repair and maintenance services of electric motors, 71314300 Energy-efficiency consultancy services, 65400000 Other sources of energy supplies and distribution, 50000000 Repair and maintenance services, 31121340 Wind farm, 45251160 Wind-power installation works, 71500000 Construction-related services, 45251200 Heating plant construction work, 71300000 Engineering services, 51110000 Installation services of electrical equipment, 79110000 Legal advisory and representation services, 72224000 Project management consultancy services, 31121300 Wind-energy generators, 45251250 District-heating plant construction work, 45232140 District-heating mains construction work, 31200000 Electricity distribution and control apparatus, 45259000 Repair and maintenance of plant, 45315300 Electricity supply installations

II.2.3. Place of performance

NUTS code: UK United Kingdom

Main site or place of performance:

II.2.4. Description of the procurement

Creation of a DPS for a wide range of services/solutions/commercial arrangements relating to energy projects throughout the EU. Including services/solutions/commercial arrangements for legal services, design, funding, construction, development and/or operation of energy generation projects and arrangements related to the sale/supply of energy from energy projects (including private wire and other PPA/energy supply arrangements) and/or generation /other revenues from energy projects. For these purposes, the expression energy project includes but is not limited to all forms of energy generation project (including, not limited to, electricity generation from solar PV), energy storage (including, not limited to, battery storage) and electric vehicle charging — whether the project in question encompasses 1/more installations on 1/more multiple sites and whether just a single technology/installation type or a combined/hybrid project type such as (but without limitation) any combination of energy generation and/or energy storage and/or electric vehicle charging.

Lot 7: Power Purchase Agreement Provider — Public Power Solutions are seeking applications to this lot from companies who are able to provide power purchase agreements in respect of any energy project. Call-off contracts may combine lots as notified at call-off stage. Contracting Authorities may also require DPS suppliers in different lots who are successful at call-off stage to enter into an interface agreement with other successful DPS suppliers and/or the Contracting Authority. It is not the intention to combine lots for the purpose of admitting suppliers to the DPS.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 500 000 000,00 GBP

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 60

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

Option to extend for a period of 1 year on 6 months notice.

II.2.12. Information about electronic catalogues

Tenders must be presented in the form of electronic catalogues or include an electronic catalogue

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: no

II.2.14. Additional information

The DPS Agreement (PPS02) is for use by Contracting Authorities (“Buyers”) in the United Kingdom and the European Union and which fall into 1 or more of the following categories

(Authorised Customer List): Appendix A attached to DPS documentation available with contract documents at the PPS DPS portal. The duration of the DPS will be 4 years with an option to extend for a further year.

II.2. Description

II.2.1. Title

Aggregators

Lot No: 8

II.2.2. Additional CPV code(s)

45000000 Construction work, 45315000 Electrical installation work of heating and other electrical building-equipment, 71314200 Energy-management services, 71314000 Energy and related services, 71318000 Advisory and consultative engineering services, 51100000 Installation services of electrical and mechanical equipment, 31230000 Parts of electricity distribution or control apparatus, 45259900 Plant upgrade work, 34144900 Electric vehicles, 65300000 Electricity distribution and related services, 45259300 Heating-plant repair and maintenance work, 45251220 Cogeneration plant construction work, 45251000 Construction works for power plants and heating plants, 50532100 Repair and maintenance services of electric motors, 71314300 Energy-efficiency consultancy services, 65400000 Other sources of energy supplies and distribution, 50000000 Repair and maintenance services, 31121340 Wind farm, 45251160 Wind-power installation works, 71500000 Construction-related services, 45251200 Heating plant construction work, 71300000 Engineering services, 51110000 Installation services of electrical equipment, 79110000 Legal advisory and representation services, 72224000 Project management consultancy services, 31121300 Wind-energy generators, 45251250 District-heating plant construction work, 45232140 District-heating mains construction work, 31200000 Electricity distribution and control apparatus, 45259000 Repair and maintenance of plant, 45315300 Electricity supply installations

II.2.3. Place of performance

NUTS code: UK United Kingdom

Main site or place of performance:

II.2.4. Description of the procurement

Creation of a DPS for a wide range of services/solutions/commercial arrangements relating to energy projects throughout the EU. Including services/solutions/commercial arrangements for legal services, design, funding, construction, development and/or operation of energy generation projects and arrangements related to the sale/supply of energy from energy projects (including private wire and other PPA/energy supply arrangements) and/or generation /other revenues from energy projects. For these purposes, the expression energy project includes but is not limited to all forms of energy generation project (including, not limited to, electricity generation from solar PV), energy storage (including, not limited to, battery storage) and electric vehicle charging — whether the project in question encompasses 1/more installations on 1/more multiple sites and whether just a single technology/installation type or a combined/hybrid project type such as (but without limitation) any combination of energy generation and/or energy storage and/or electric vehicle charging.

Lot 8: Aggregators — Public Power Solutions are seeking applications to this lot from companies who are able to provide demand side response services and/or are able to facilitate trading in respect of any energy project. Call-off contracts may combine lots as notified at call-off stage. Contracting Authorities may also require DPS suppliers in different

lots who are successful at call-off stage to enter into an interface agreement with other successful DPS suppliers and/or the Contracting Authority. It is not the intention to combine lots for the purpose of admitting suppliers to the DPS.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 500 000 000,00 GBP

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 60

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

Option to extend for 1 year on 6 months notice.

II.2.12. Information about electronic catalogues

Tenders must be presented in the form of electronic catalogues or include an electronic catalogue

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: no

II.2.14. Additional information

The DPS Agreement (PPS02) is for use by Contracting Authorities ("Buyers") in the United Kingdom and the European Union and which fall into 1 or more of the following categories (Authorised Customer List): Appendix A attached to DPS documentation available with contract documents at the PPS DPS portal. The duration of the DPS will be 4 years with an option to extend for a further year.

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

See procurement documents.

III.1.2. Economic and financial standing

Selection criteria as stated in the procurement documents

III.1.3. Technical and professional ability

Selection criteria as stated in the procurement documents

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Restricted procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the setting up of a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 10/02/2019 Local time: 12:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.2.4. Languages in which tenders or requests to participate may be submitted

English

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Duration in months: 63 (from the date stated for receipt of tender)

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.3. Additional information

The DPS Agreement (PPS02) is for use by Contracting Authorities ("Buyers") in the United Kingdom and the European Union and which fall into 1 or more of the following categories (Authorised Customer List): Appendix A attached to DPS documentation available with contract documents at the PPS DPS portal. The duration of the DPS will be 4 years with an option to extend for a further year.

VI.4. Procedures for review

VI.4.1. Review body

Official name: Public Power Solutions Ltd

Postal address: Waterside Park, Darby Close

Town: Swindon

Postal code: SN5 5QX

Country: United Kingdom

E-mail: tenders@publicpowersolutions.co.uk

Internet address: <https://www.publicpowersolutions.co.uk/>

VI.4.3. Review procedure

Precise information on deadline(s) for review procedures:

VI.5. Date of dispatch of this notice

09/01/2019
