II.1.4. Short description

This framework will facilitate end-to-end delivery of public assets through a range of essential services. These cover development and renovation, to disposal and management.

This includes funding applications, design proposals, energy consulting, architectural design, engineering consulting, project management and orchestration, estate management, cost management, master planning and all other disciplines. These disciplines are split into lots, which are detailed as part of this notice.

This framework is eligible for use by a range of contracting authorities. A list of these authorities is included in a link as part of this notice.

Suppliers will be called upon to quote for, and provide, services by these contracting authorities throughout the contract duration.
