Preliminary Project for a New Treatment Plant at Nesbyen

Reference number: NES-2018-00000

II.1.2. Main CPV code

71242000 Project and design preparation, estimation of costs

II.1.3. Type of contract

Services

II.1.4. Short description

Nes kommune (municipality) will build a new treatment plant at Nesbyen. The procurement involves the preparation of the preliminary project and an option for detailed engineering design of the treatment plant. It has been decided to build a new treatment plant that will replace the current plant. Positioning of the new plant involves the terrain being raised to avoid the flood zone, and a crossing must be established with approved arrival from Rv7. The new plant must be designed for 17 000 pe. The objective of the procurement is to prepare a preliminary project for the new treatment plant at Nesbyen. The preliminary project will form the decision basis for the detailed engineering design of the new treatment plant. Detailed engineering design of the new treatment plant is included as an option. The same terms apply for the option. The Contracting Authority will decide whether or not to trigger the option at a later point in time. Prior to triggering the option, the price estimate for the option must be in place.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

71320000 Engineering design services

II.2.3. Place of performance

NUTS code: NO032 Buskerud

II.2.4. Description of the procurement

Nes kommune [municipality] will build a new treatment plant at Nesbyen. The procurement involves the preparation of the preliminary project and an option for detailed engineering design of the treatment plant. The objective of the tender contest is to enter into Nes municipality has an existing mechanical /chemical treatment plant from the 1970s, with a capacity of 5 300 pe. Based on the municipality preparing for increased population growth, increased cabin building and business development and anticipation of secondary treatment requirements for the current plant, it will not be able to cover the future needs for capacity and environmental requirements. A draft project has been carried out and it has been decided to construct a new treatment plant that will replace the current plant. The new plant will be located directly south of the current plant. The current plant address is Hallingdalsvegen 5316, and it is located along Rv7 [National Road 7] directly by the approach to Nesbyen. Positioning of the new plant involves the terrain being raised to avoid the flood zone, and a crossing must be established with approved arrival from Rv7. The new plant must be designed for 17 000 pe. The objective of the procurement is to prepare a preliminary project for the new treatment plant at Nesbyen. The preliminary project will form the decision basis for the detailed engineering design of the new treatment plant. Detailed engineering design of the new treatment plant is included as an option. The same terms apply for the option. The contracting authority will decide whether or not to trigger the option at a later point in time. Prior to triggering the option, the price estimate for the option must be in place. A comprehensive description of the assignment is in the requirement specification attached to the tender documentation. The offer and all support and document must be in Norwegian. Partial tender.

Tenders cannot be submitted for only parts of the assignment.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 07/03/2019 End: 01/12/2019

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no
