Other activity: Sewage treatment

Section II: Object

II.1. Scope of the procurement**II.1.1. Title**

Gardermoen Wastewater Treatment Plant — Pre-qualification for a Building and Construction Contract, EB01

II.1.2. Main CPV code

45200000 Works for complete or part construction and civil engineering work

II.1.3. Type of contract

Works

II.1.4. Short description

Ullensaker Municipality will expand the capacity at Gardermoen wastewater treatment plant. In addition to a considerable capacity expansion, the new Gardermoen wastewater treatment

plant must fulfil significantly more stringent requirements on the reduction of the total amount of phosphor used in the treatment process.

The expansion of Gardermoen wastewater treatment plant, the UGRA project, will consist of several different contracts. This notice is for a contract for building and construction work, EB01.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

44112000 Miscellaneous building structures, 44114000 Concrete, 44161000 Pipelines, 44161200 Water mains, 44163111 Drain pipes, 44212410 Sheet piling, 45111000 Demolition, site preparation and clearance work, 45112000 Excavating and earthmoving work, 45112100 Trench-digging work, 45112700 Landscaping work, 45113000 Siteworks, 45262310 Reinforced-concrete work, 45400000 Building completion work

II.2.3. Place of performance

NUTS code: NO012 Akershus

Main site or place of performance: Gardermoen.

II.2.4. Description of the procurement

The assignment consists of all building and construction work for the expansion of Gardermoen wastewater treatment plant. The UGRA project mainly consists of the construction of a new main building that will handle a 120 % capacity increase of the wastewater treatment process. This building will consist of approx. 4 200 m² ground area with main cover level, lower floor, and basement. Furthermore, a new inlet pump station will be constructed that is connected to the existing inlet pump station, which will pump the wastewater in to the new process building. In addition, the existing pre-treatment plant for C-glycol from the airport is to be expanded with an additional treatment line connected to the existing treatment plant. Finally, the existing administration building will be altered, amongst other things to adapt to increased staffing at the plant. See the attached plan drawing for the alteration of the administration building.

In addition to structural constructions, the contract will include site work with sheet piling, excavating plots for the three buildings, ditches with pipes for water and sewage, chemicals and conduits between the different buildings, roads, and landscape work.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 02/08/2021 End: 01/05/2025

This contract is subject to renewal: no

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged minimum number: 3 Maximum number: 6 Objective criteria for choosing the limited number of candidates:

Applications for prequalification for participation in the tender contest will be ranked in accordance with the degree of experience related to this type of delivery and relevant references, c.f. qualification requirement No 7 in the invitation to the pre-qualification.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

No options are known at the date of the invitation to the prequalification. However, options cannot be excluded. Any options will be in the tender documentation.
