### **II.2.4. Description of the procurement**

We would like to enter into a framework agreement for professional assistance for the Climate Committee 2050 and its secretariat. The aim of the framework agreement is to give the Climate Committee 2050 and secretariat the option to obtain capacity and competence to obtain a professional basis for the problems described in the committee's mandate (see <https://klimautvalget2050.no/mandat/>). The assignments will vary, but will mainly consist of short reviews of problems, and obtaining and collocating information. Deliveries will be, amongst other things, in the form of short notes, illustrations, and slides, and oral presentations and discussions based on them.

We expect that there will be a need for competence within fields such as social studies, law, and science. Furthermore, we expect that there will be need for knowledge on themes such as EU's climate policies in general (including the EU's green initiative, diversity policy, and circular economy), diversity and eco-systems both on land and in the sea, distribution effects, business and industry policy, energy policy, international policies, and technological developments. Several environments are encouraged to get together so as to offer the professional competence that will be required. The possibility to draw on competence environments outside Norway will be seen as positive. The framework agreement will be entered into with one tenderer.

The work will be done through concrete orders (call-offs) for specific themes and problems. The deadline and format for delivery for each individual call-off will be agreed in each case. The individual deliveries will be regulated through the call-off contracts, see annex 3, whilst the framework agreement will regulate the general obligations between the parties.

The framework agreement period will be two years from when the contract is signed. The framework agreement will not give the tenderer an exclusive right to deliver the delivery scope as described in this point. The contracting authority reserves the right to enter into contracts with others when it is appropriate.

#### **II.2.5. Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

#### **II.2.6. Estimated value**

#### **III.1. Conditions for participation**

##### **III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

Requirements: Tenderers must be a legally established company.

Documentation:

Norwegian companies: Company registration certificate or a printout from the Unit Register for sole proprietorships not required to register.

Foreign companies: Verification that the company is registered in a trade or business register as prescribed by the law of the country where the tenderer is established. The verification can be submitted in writing or by referring to BRIS.

##### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

Requirement: Paid taxes and duties.

Documentation:

A certificate, not older than six months, which verifies that the tenderer has fulfilled the obligations of payment of taxes, social security contributions and VAT. The certificate can be ordered and obtained from Altinn by using a separate link on skatteetaten.no. Foreign tenderers must provide certificates from equivalent authorities to the Norwegian authorities.

##### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

Requirement: Tenderers must have sufficient ability and experience to carry out the delivery.

Documentation: A description of the tenderer's most relevant assignments in the last five years; minimum two assignments, maximum five assignments, together with information on the value of the contract, date of delivery or

execution and the name of the recipient. If the name of the recipient cannot be given, information must be provided on whether the recipient was a NGO, public authority, or private company.

Relevant assignments means assignments within the theme and format described in Annex 1.

Tenderers are themselves responsible for ensuring that the description is of such a nature that it documents that the requirement is met. The total description must not exceed two A4 pages.
