II.1.4. Short description

GIVAS IKS has decided to build a new water treatment plant at Granli in Kongsvinger.

A new water treatment plant will be built on a filled area to the side of the current water treatment plant. The water treatment plant will produce drinking water for approx. 18 000 people in Kongsvinger and Grue kommune.

In the draft project, aeration, UV and dosing of water glasses selected as a process solution, with chlorine in emergency. All elements must be placed over back level.

This procurement concerns the process plant with pipe system and process equipment. The new plant must have a net production capacity to produce 450 m³/hour of clean water.

There will be an option for capacity of 900 m³/h.

Paralell with this procurement, a turnkey contact has been announced for a clean water basin belonging to the water treatment plant.

Other documentation will be sent to interested tenderers from 18.1.2019.
