Award Notice

Manchester is experiencing an expansion of its economic footprint in all directions.

Developments such as Spinningfields, Piccadilly Quarter and Central Spine have helped to establish office locations outside the core business district area but, importantly within the regional centre.

The Co-operative plays an important role in Manchester. It is a major employer, influential landowner and its buildings have chartered the fortunes and aspirations of both the city and the movement. The Co-operative's location in the North of the city is another example of where the city centre's footprint can be extended to meet with future demands.

The development of new commercial areas has seen the evolution of Manchester City Centre from a one centre model to a polycentric model. The Co-operative is located at the heart of a new emerging commercial destination which is the City Centre North. The City Centre North area is establishing itself as a new commercial quarter with a number of new properties being developed.

The Co-operative Group is leading a strategic regeneration initiative for the Northern Gateway to the City of Manchester.

The vision is a transformation of a 20-acre site including the Co-operative Group's existing building stock in the area and will include the construction of a new Co-operative Group head office. The contracting party for the contract being procured by this tender will be 'The Co-operative Group Limited'.
