Tenders or requests to participate must be submitted to the abovementioned address

I.6. Main activity

Electricity

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Procurement of Transmission Overhead Power Line Works (130/150 kV)
Reference number: UH-2020-2

II.1.2. Main CPV code

45000000 Construction work

II.1.3. Type of contract

Works

II.1.4. Short description

Markbygden Net AB (MBN) is planning to expand its grid to be able to connect more wind power production onto the national grid. MBN cordially invites interested parties to apply for qualification to tender for a contract for 2 x 150 kV transmission overhead powerlines, approximately 29 kilometres in total. In one end, each line will connect to a 150/33 kV substation. In the other end, each line will connect to the existing and operational 400/150 kV substation Råbäcken. At Råbäcken, the lines connect onto the national (400 kV) grid of the TSO Svenska Kraftnät. MBN's intention is to energise the 2 overhead transmission lines in the summer of 2021. The works include the detailed design, delivery, installation and commissioning of the 2 overhead transmission lines. The scope includes all associated civil, mechanical and foundation works, the construction of temporary service and winter roads and the removal of such roads after completion and similar land restorative measures.

II.1.5. Estimated total value

Value excluding VAT: 7 850 000,00 EUR

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

45000000 Construction work, 45230000 Construction work for pipelines, communication and power lines, for highways, roads, airfields and railways; flatwork, 45310000 Electrical installation work

II.2.3. Place of performance

NUTS code: SE Sverige

NUTS code: SE33 Övre Norrland

Main site or place of performance: Piteå Municipality.

II.2.4. Description of the procurement

Markbygden Net AB (MBN) is a grid utility which connects operative wind farms located in the Markbygden area to the national grid. The Markbygden wind farm cluster is located between the towns Arvidsjaur and Piteå, in northern Sweden. MBN is currently planning to expand its grid to be able to connect more wind power production from the Markbygden cluster onto the national grid. Through this invitation to apply for qualification, MBN cordially invites interested parties to apply for qualification to tender for a contract for 2 x 150 kV transmission overhead powerlines, approximately 29 kilometres in total. In one end, each line will connect to a 150/33 kV substation (to be provided by third parties). In the other end, each line will connect to the existing and operational 400/150 kV substation Råbäcken. At Råbäcken, the lines connect onto the national (400 kV) grid of the TSO Svenska Kraftnät. MBN's intention is to energise the 2 overhead transmission lines in the summer of 2021. The party which MBN awards the contract to, will have access to site from July 2020 to perform the works. The works include the detailed design, delivery, installation and commissioning of the 2 overhead transmission lines. The scope includes all associated civil, mechanical and foundation works, the construction of temporary service and winter roads and the removal of such roads after completion and similar land restorative measures.

II.2.5. Award criteria

Criteria below

Price

II.2.6.

Estimated value

Value excluding VAT: 7 850 000,00 EUR

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 01/07/2020 End: 01/07/2021

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no
