NUTS code: FI186 Kymenlaakso
Internet address(es):
Main address: www.gasum.fi

I.6.

Main activity

Production, transport and distribution of gas and heat

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Portable LNG Vaporization System.

II.1.2. Main CPV code

76110000 Services incidental to gas extraction

II.1.3. Type of contract

Supplies

II.1.4. Short description

Gasum is a Finnish energy company and the number 1 expert in the gas sector in Finland. Gasum imports natural gas to Finland and upgrade 100 % Finnish renewable bio-gas for our customers for energy production, industry, homes as well road and maritime transport. Thanks to Gasum's nationwide network of biogas plants, Gasum is Finland's leading provider of bio-gas and processor of biodegradable waste fractions. Gasum is also developing the Nordic LNG market with Gasum's subsidiary Skangas. Gasum is a fully state-owned company. Gasum is planning to increase the mobile LNG-vaporizer capacity to be used for the spare fuel supply in the possible emergency or other network shut-down cases.

This procurement notice is issued for the purchase of a portable 1 unit LNG Vaporization System.

The detailed description of the scope of the supply can be found from the RFT documents behind the link.

II.1.5. Estimated total value

Value excluding VAT: 500 000,00 EUR

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: FI181 Uusimaa

Main site or place of performance: Mäntsälä Finland, Hyvinkäantie 565.

II.2.4. Description of the procurement

The procurement is governed by the Finnish Act on Utilities Procurement (Act 1398/2016) and the Directive 2014/25 coordinating the procurement procedures of entities operating in the water, energy, transport and postal services sectors ('Utilities' Procurement Directive'). The estimated total value of the procurement therefore exceeds the threshold set in section 13 of the Finnish Act on Utilities Procurement (Act 1398/2016). The threshold for supply and service contracts is 414 000 EUR.

The object of the procurement is Portable LNG Vaporization System. The vaporizing capacity of the units (systems) in focus will be 100 MW. The connection point is to the natural gas network, typically at pressure level of 10 barg. The unit shall be designed for operation 24 hours per day, and at minimum for 3 months without interruption.

The requested vaporizer shall be based on water bath vaporizer. Vaporizer shall be equipped with gas fuelled heaters. Boiler is integrated as one module with vaporizer or separate boiler unit. For example electric heaters, ambient air vaporizer as a vaporizer's main heater are excluded. Vaporizing of the LNG shall be done in the water bath, which is indirectly heated by the gas fuelled heaters. The vaporizer's water bath and boiler can be integrated as a one module. If the vaporizer's water bath and boiler are their own modules, unit shall be transported with one truck trailer.

Latest time for the delivery at site is in the end of the year 2017.

The procurement contract will include a 2-year guarantee period. No long-term maintenance agreement or similar is included in this procurement.

The procurement shall be conducted by following the limited procedure. The criteria used in the award decision will be the most advantageous technical-economical tender. The criteria used to assess is stated in the RFT material behind the link.

The minimum technical requirements for the requested transportable LNG vaporizer systems are in the document 101004168-001-F0001 behind the link.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 24

This contract is subject to renewal: no

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 5
Objective criteria for choosing the limited number of candidates:

If there is more than five (5) bidders the contracting entity will select those five (5) bidders that have the largest number of similar or other LNG Vaporizing projects during the last five (5) years based on the list (101004168-001-F0005, Appendix 2) of the similar projects completed:

- Vaporizing effect at least 10 MW,
- Supply contract value at least 50 000 EUR,
- In EU region.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

Spare parts.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

See document 101004168-001-F0006, Appendix No 3.

III.1.2. Economic and financial standing

Selection criteria as stated in the procurement documents

III.1.3. Technical and professional ability

Selection criteria as stated in the procurement documents

III.1.4. Objective rules and criteria for participation

List and brief description of rules and criteria:

In order for a candidate to be qualified as a Tenderer the following minimum requirements set in document 101004168-001-F0006, Appendix No 3 shall be met. If the requirements are not met, the contracting entity may have to exclude such a candidate.

If the Candidate is a consortium, at least one member of the consortium bearing full liability on behalf of the consortium towards Gasum Oy shall fulfil the criteria set in 101004168-001-F0006, Appendix No 3. The consortium agreement must be made and signed before contract procurement can be signed.

III.1.8. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

Limited company (Ltd. or Plc.) or equal.

III.2. Conditions related to the contract

III.2.2. Contract performance conditions

The contracting entity reserves the right to exclude all the received tenders if all of the tendered prices are not in line with the budget.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Restricted procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 06/02/2017 Local time: 16:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.2.4. Languages in which tenders or requests to participate may be submitted

English, Finnish

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.3. Additional information
