Information about lots

Lot No: 1

Lot title: Sub area 1 small hard shield and large hard shield

**1) Short description**

Small hard shield:

A shield that can be moved between the seats in the aisle of a plane, bus or train. It shall be possible to carry the shield in one hand. It shall be possible to switch from having the shield on the left side to the right side and vice versa. The corners and edges shall have extra protection, ideally with the option of replacing these, as these are the most vulnerable parts. The shield shall tolerate typical Nordic weather and continue to provide anti-ballistic protection.

Large hard shield:

A shield that is big enough to bend backwards and provide cover. It shall be possible for just one person to carry it both during transport and for tactical use. It shall be possible to switch from having the shield on the left side to the right side and vice versa. The corners and edges shall have extra protection, ideally with the option of replacing these, as these are the most vulnerable parts. The shield shall tolerate typical Nordic weather and continue to provide anti-ballistic protection.
