II.1.1. Title

Målselv Municipality, Broadband Network in Rostadalen

II.1.2. Main CPV code

45314300 Installation of cable infrastructure

II.1.3. Type of contract

Works

II.1.4. Short description

Målselv Municipality would like to award a building and construction concession/service concession to a supplier (hereafter called tenderer) who will take on the total responsibility for the engineering design services, construction, ownership and operation of a high speed broadband network, with a capacity of minimum 30/10 Mbit to private customers, companies and public buildings from Holt to the municipality border, Balsfjord in Tamokdalen and all of Rostadalen, and to the tenderer who requires the least grant from the municipality to develop, own and operate this.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

32412110 Internet network, 72400000 Internet services, 72411000 Internet service providers ISP, 64214400 Communication land-line rental, 71316000 Telecommunication consultancy services, 45314000 Installation of telecommunications equipment

II.2.3. Place of performance

NUTS code: NO072 Troms

Main site or place of performance: Rostadalen.

II.2.4. Description of the procurement

Målselv Municipality would like to award a building and construction concession/service concession to a supplier (hereafter called tenderer) who will take on the total responsibility for the engineering design services, construction, ownership and operation of a high speed broadband network, with a capacity of minimum 30/10 Mbit to private customers, companies and public buildings from Holt to the municipality border, Balsfjord in Tamokdalen and all of Rostadalen, and to the tenderer who requires the least subsidy from the municipality to develop, own and operate this connection to holiday homes must be priced separately, as subsidies are not given for this Målselv Municipality owns street light routes on parts of the stretch. Otherwise it is up to the Contractor to choose how to convey the cables. Tenderers must obtain permission to use third parties' land and/or infrastructure before a tender is submitted. Confirmation of this must be attached to the final documentation. Tenderers must carry the extra costs involved if a landowner will not voluntarily consent to excavation and/or relinquishing their land, so that the right to lay cables must be acquired by expropriation, or the cables must be laid in the sea in order to get past the property.

NS 8407:2011 will form the basis for the signing of the contract.

Tenderers are allowed to use other sub-suppliers for all/parts of the delivery if they would like to do so. The prerequisite is that the system must be seen as one delivery from the builder's side.

Tenderers have a duty to inform and state whether the delivery specifications have shortcomings as regards functionality/applications/work/other things required to deliver a complete, installed, fully functional system in accordance with the requirement specifications. All tenderers will be treated confidentially. Information on prices, etc., will, therefore, not be distributed beyond what is necessary for evaluating the tenders.

Tenderers must check that received documents include all pages and annexes as stated in the table of contents. If pages and/or annexes are missing, or are unclear, the tenderer must contact the Contracting Authority's contact person in writing.

Costs incurred by the tenderer for the preparation and follow-up of their tender will not be refunded.

Development area. The area is described on the map, which is part of this Annex A. NB! Note that large parts of the centre of Holt have been developed.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 09/03/2019 End: 30/11/2019

This contract is subject to renewal: no
