II.1.4. Information about framework agreement

II.1.5.

Short description of the contract or purchase(s)

NHS Vale of York CCG are looking to secure mental health and learning disability services for its population. The new services will be implemented by October 2015, enabling service users to access the care they need in a variety of ways. We have undergone extensive engagement and consultation with service users, carers, community and voluntary organisations and mental health professionals.

NHS Vale of York CCG, are looking for providers who can work in a partnership approach and contribute toward and support the delivery of a vision for effective learning disability, mental health and related services. We are looking for providers who can bring added value to the Vale of York health and social care economy. This might include contributing clinical and operational expertise and leadership, the ability to drive service transformation and innovation in the context of a challenging financial environment. We need providers who value the contribution and role of other partners and will proactively take every opportunity to work with partners in maximising the impact and benefit of services and resources.

The services need to ensure that they meet requirements of relevant legislation (including health and social care, childrens etc.), follow evidence based best practice, and are aligned to NICE, SIGN and other relevant guidance.

The services will be flexible and focused on self-care user groups, peer support, recovery closer to home, responsive to crises and available out of hours, enabling, reabling and rehabilitation, dementia wellbeing, and learning disability. They need to recognise key partnerships with family, carers, community, voluntary sector as well as links to in-patient services, secondary services, forensic services and other specialist services. The services need to recognize, diagnose and treat physical, mental health and learning disabilities holistically and to ensure that patients have a positive experience of the care they receive.

The fundamental principal in this procurement is to identify a lead provider who will work as a trusted partner with the CCG to provide the best possible outcomes for all people in our community who require access and support to improve their mental health and wellbeing and /or to improve the health and lives of those people with a learning disability.

This document and associated specifications are intended to cover the full range of mental health and learning disability services required by our population. It is our expectation that our lead provider will work with our community and other providers (including voluntary sector, independent sector, primary care, local authority and others) to achieve the best outcomes at individual and at population level within the resources available.

The CCG expects the lead provider to be able to evidence continuous improvement based on current evolving evidence-based best practice.

II.1.6. CPV code(s)

85100000 Health services

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

Duration in months: 60 (from the award of the contract)

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

III.1.4. Contract performance conditions

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: Entering general supplier information. The Commissioning Organisation utilises the Government Procurement Service Supplier Information Database (sid4gov) to manage and assess general pre-qualification information in the form of a profile.

sid4gov has been developed by Government Procurement Service, in partnership with NQC, following agile development principles to provide a replacement for sid4health in the first phase, with subsequent developments planned to improve the scope of the questions, scope of user access and integration with other eEnabled applications. The future vision is to create a single supplier registration portal that will provide one place for suppliers to register and provide information for procurement in support of management information requirements and responses to tenders across the public sector. This portal will also provide public sector buyers with a single place to access supplier related information in support of market engagement and procurement processes.

Candidates are requested to provide their profile in sid4gov.

In order to access sid4gov for the first time, you will need to register, providing your individual and organisation details including the relevant DUNs number. The use of a DUNs number is mandated for registration and will support identification of suppliers across all eEnablement applications. This will help government to improve data quality throughout procurement and is a key enabler of the policy for transparency. It will also assist in the future development as we integrate across other applications in support of a single registration process. There is no cost to suppliers in registering for sid4gov or getting a DUNs number.

Candidates should ensure all the mandatory fields of their sid4gov profile are completed.

Failure to comply with the completion of all mandatory fields could result in the elimination from the procurement process. Please note D&B data will be supplied automatically by D&B.

Candidates must publish at least one validated profile to make their profile available for buyers to view generally.

Please register on sid4gov at <https://sid4gov.cabinetoffice.gov.uk>
