

Denmark-Copenhagen: Software package and information systems

OJ S 15/2022 21/01/2022

Contract notice

Supplies

Legal Basis:

Directive 2014/24/EU

Section I: Contracting authority

I.1. Name and addresses

Official name: Nationalt Genom Center

National registration number: 39851490

Postal address: Ørestads Boulevard 5

Town: København S

NUTS code: DK Danmark

Postal code: 2300

Country: Denmark

Contact person: Alexi Bergmann Burns-Tang

E-mail: eks_albu@ngc.dk

Telephone: +45 24971765

Internet address(es):Main address: <https://ngc.dk/>Address of the buyer profile: <https://eu.eu-supply.com/ctm/Company/CompanyInformation/Index/436453>**I.3. Communication**The procurement documents are available for unrestricted and full direct access, free of charge, at: http://eu.eu-supply.com/app/rfq/rwlenrance_s.asp?PID=321550&B=DK_UDBUD

Additional information can be obtained from the abovementioned address

Tenders or requests to participate must be submitted electronically via: http://eu.eu-supply.com/app/rfq/rwlenrance_s.asp?PID=321550&B=DK_UDBUD

Tenders or requests to participate must be submitted to the abovementioned address

I.4. Type of the contracting authority

Ministry or any other national or federal authority, including their regional or local subdivisions

I.5. Main activity

Health

Section II: Object

II.1. Scope of the procurement**II.1.1. Title**

EU Udbud Interpretation tool for somatic variants

Reference number: EU Udbud Interpretation tool fo

II.1.2. Main CPV code

48000000 Software package and information systems

II.1.3. Type of contract

Supplies

II.1.4. Short description

The core mission of the NGC is to establish and operate a state-of-the-art and secure national infrastructure for personalised medicine in cooperation with the Regions and universities. NGC routinely performs Whole Genome Sequencing (WGS) and subsequent bioinformatics analysis of samples from the regional healthcare system. Several patient groups with various diseases have already been enrolled, including cancer patients. For this, NGC needs an interpretation tool for analysing somatic variants. NGC sequences WGS samples at NGC's sequencing facilities, followed by processing by bioinformatics pipelines developed in-house. After quality control, processed samples are relayed to clinical academics in the regional healthcare system for interpretation and treatment decision(s).

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

48180000 Medical software package, 48814400 Clinical information system

II.2.3. Place of performance

NUTS code: DK Danmark

II.2.4. Description of the procurement

The Danish National Genome Center (NGC) was established to realise the National Strategy for Personalised Medicine 2017–2020. It is intended to ensure governance and coordination of the strategy's initiatives at the national level. The Danish efforts within Personalised Medicine are to focus on the patients. The vision of NGC is to create a foundation for the development of a more precise diagnosis, targeted treatment and strengthened research within the Danish healthcare system. The core mission of the NGC is to establish and operate a state-of-the-art and secure national infrastructure for personalised medicine in cooperation with the Regions and universities. NGC routinely performs Whole Genome Sequencing (WGS) and subsequent bioinformatics analysis of samples from the regional healthcare system. Several patient groups with various diseases have already been enrolled, including cancer patients. For this, NGC needs an interpretation tool for analysing somatic variants. NGC sequences WGS samples at NGC's sequencing facilities, followed by processing by bioinformatics pipelines developed in-house. After quality control, processed samples are relayed to clinical academics in the regional healthcare system for interpretation and treatment decision(s). The users of the solution will be clinical scientists from the regional healthcare system and researchers from the universities. Roughly estimated, we expect around 50-60 different sites/groups in Denmark, with 10 – 20 users per site/group. We anticipate around a maximum of 20 concurrent users. The users will log into the on-premise NGC HPC system and NGC Private Clouds, wherefrom they will access the interpretation tool solution, analyse data within the HPC infrastructure and decide the correct treatment strategy for the patient. Once relevant variant(s) have been identified, these will be parsed to a variant database that can be consulted if a new sample contains the same variant.

II.2.5.

Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 48

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

The contract is 3 years with an option to prolong 1x 1 year.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Minimum level for economic and financial standing

It is described below which minimum levels for economic and financial suitability are applicable for this tender. The Tenderer must meet the following requirements:

- The average turnover in the last three audited financial years must be minimum 2.500.000 Euro per year
- The average profit margin in the last three audited financial years must be minimum 0 (zero) and
- The solvency ratio in the last audited financial year must be minimum 0 (zero).

III.1.3. Technical and professional ability

List and brief description of selection criteria:

The Tenderer must meet the following requirements:

- Two references from similar contracts within clinical diagnostics.
- The Contracts must be in progress, i.e. have passed initial tests and be/have been in use.
- The Contracts must entail a Minimum of 10 simultaneous users.
- The references must not be more than 3 years old from application date.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 16/02/2022 Local time: 12:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.2.4. Languages in which tenders or requests to participate may be submitted

English

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Duration in months: 6 (from the date stated for receipt of tender)

IV.2.7. Conditions for opening of tenders

Date: 16/02/2022 Local time: 12:00

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about electronic workflows

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

Official name: Klagenævnet for Udbud

Postal address: Nævnenes Hus, Toldboden 2

Town: Viborg

Postal code: 8800

Country: Denmark

E-mail: klfu@naevneneshus.dk
