**II.1.4. Short description**

The Norwegian Institute of Public Health has held an open tender contest and entered into a framework agreement for the delivery of HPV vaccines, i.e., the vaccine against human papillomavirus, for boys and girls in the Norwegian child vaccination programme.

The contest was held as an open tender contest in accordance with the Act and Public Procurement Regulations Parts 1 and 3. The contest was held electronically in the CTM electronic tender documentation tool (Norwegian abbreviation: KGV).

Together with information given in the KGV and announcements on Doffin and TED, the tender documentation with annexes set the rules and conditions for the contest.

The purpose of the procurement was to enter into a framework agreement for the delivery of HPV vaccinations, i.e., vaccinations against the human papillomavirus in the Norwegian child vaccination programme. The target group is girls and boys aged 12-13 years.

The procurement concerns the delivery of vaccines against human papillomavirus (HPV) (ATC code, J07B M).

One tender was received in this contest.

#### **II.2.2. Additional CPV code(s)**

33651600 Vaccines

#### **II.2.3. Place of performance**

NUTS code: NO Norge

Main site or place of performance: Oslo.

#### **II.2.4. Description of the procurement**

The Norwegian Institute of Public Health has held an open tender contest and entered into a framework agreement for the delivery of HPV vaccines, i.e., the vaccine against human papillomavirus, for boys and girls in the Norwegian child vaccination programme.

The contest was held as an open tender contest in accordance with the Act and Public Procurement Regulations Parts 1 and 3. The contest was held electronically in the CTM electronic tender documentation tool (Norwegian abbreviation: KGV).

Together with information given in the KGV and announcements on Doffin and TED, the tender documentation with annexes set the rules and conditions for the contest.

The purpose of the procurement was to enter into a framework agreement for the delivery of HPV vaccinations, i.e., vaccinations against the human papillomavirus in the Norwegian child vaccination programme. The target group is girls and boys aged 12-13 years.

The procurement concerns the delivery of vaccines against human papillomavirus (HPV) (ATC code, J07B M).

The Norwegian Institute of Public Health will, in accordance with the contract, register at a minimum volume 110 000 doses per calendar year in the contract period. (Supply agreement point 3.2). The tenderer will commit to being able to deliver up to 130 000 doses per calendar years in the contract period. (Supply agreement point 3.3)

With a maximum contract duration of four years, the scope is 444 000 - 520 000.

Beyond the minimum volume, the volume that the Norwegian Public Health Authority will eventually order, depending on request.

The Norwegian Public Health Institute is not obligated to submit orders beyond the minimum requirement.

#### **II.2.5. Award criteria**

Quality criterion - Name: Quality, including Effect and Security / Weighting: 70  
Price - Weighting: 30

#### **II.2.11. Information about options**

Options: yes

Description of options:

The contractor is an SME: no

#### **V.2.4. Information on value of the contract/lot**

Initial estimated total value of the contract/lot: 1,00 NOK

Total value of the contract/lot: 1,00 NOK

#### **V.2.5. Information about subcontracting**

### **Section VI: Complementary information**

---

#### **VI.3. Additional information**

About the procurement Value, cf. point II.1.5) Estimated Total Value.

The total value of the procurement is roughly given as NOK 100 million, with the following clarification:

The contracting authority has calculated a span for real procurement value based on prices offered in the previous tender competition. In the Norwegian Institute of Public Health's vaccine procurements, price per dose unit price) is the only price element. As the total doses are known, it is not possible to provide exact values for the procurement value without the unit prices quoted in the previous tender being known. The contracting authority considers unit prices as information of competitive importance to keep confidential for the purposes of the information concerned and that they are covered by confidentiality cf. confidentiality, cf. the Freedom of Information Act 13 and the Public Administration Act §13 first paragraph point 2). The contracting authority notes that the estimated cost range of the procurement value is from under to over NOK 100 million where the sales are in the size order of tens of millions both ways (over and under).

Pursuant the Act relating to public access to documents in public administration Section 13 and the Public Administration Act Section 13, first section 2), the contract sum is not given in the tender notice. The vaccines' price per dosage is the only price element. The contracting authority has come the conclusion that if the contract value is given with information of the extent/volume in the tender documentation, it will be possible to calculate the price per dosage. The contracting authority considers offered prices per dosages as information that must be kept secret due for competitive reasons.

The contracting authority confirms that the contract value is higher than the procurement rules' highest threshold.
