I.4. Type of the contracting authority

Regional or local authority

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Innovative plastic sorting and reprocessing solution.

II.1.2. Main CPV code

90510000 Refuse disposal and treatment - AB06

II.1.3. Type of contract

Services

II.1.4. Short description

The project aims to create a market for recycling of plastic waste from households and similar types of industrial plastic waste from commercial enterprises and builds on the recommendations of the Innovation Platform for Plastics, which CLEAN conducted in 2013 with participation from more than 100 Danish plastics companies and experts in the field. The procurement aims to develop an innovative plastic sorting and reprocessing solution. Important requirements for this solution is that it should improve on the current solutions so that plastic waste can be reused and recycled at a price, quality and in a quantity that is actually attractive to companies that use reprocessed plastic in their production. The services are expected to include sorting, separation, reuse and recycling of plastic waste and sale of the end products resulting from the process. The services are also expected to include sorting and separation of the mixed plastic and metal waste.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

90514000 Refuse recycling services, 90513000 Non-hazardous refuse and waste treatment and disposal services, 90513100 Household-refuse disposal services, 90512000 Refuse transport services

II.2.3. Place of performance

NUTS code: DK0 Danmark

II.2.4. Description of the procurement

According to the latest national waste statistics (2014), about 84 000 tonnes of plastic waste are collected from Danish households and commercial enterprises each year. Hereof, about 32 000 tonnes are municipal waste, of which 50 % come from recycling stations and 50 % come from household collection schemes, and 52 000 tonnes are industrial waste. In addition, there is a large quantity of plastic waste which is not yet separated at source. Hence, it is estimated that there potentially is an additional 150 000 tonnes to 200 000 tonnes of plastic waste from Danish households each year.

The project aims to create a market for recycling of plastic waste from households and similar types of industrial plastic waste from commercial enterprises. The waste stream from these sources will include plastic packaging, large plastic products from bulky household waste (from recycling stations) as well as other types of plastic waste from commercial activities (e.g. from recycling stations, small enterprises participating in the municipal collection schemes and facilities for preliminary sorting). In addition, the waste stream will also include a mixed plastic and metal fraction from households.

The procurement builds on the recommendations of the Innovation Platform for Plastics, which CLEAN conducted in 2013 with participation from more than 100 Danish plastics companies and experts in the field. The platform concluded that a procurement should be prepared for separation of household plastic waste and similar plastic waste from enterprises. The challenges include: a lack of an overall supply of plastic waste from households and companies, but also uncertainty concerning the resale of the reprocessed plastic.

In 2013, the Danish government published a strategy for better use of resources, 'Denmark without waste', based on similar policy paper from the EU. This strategy focuses on the quality of recycling. The tender is also conducted in the light of the European Commission's Circular Economy Package and the revision of the EU Directive on Waste, and the EU Directive on

Packaging and Packaging Waste. Here, the European Commission has proposed significantly higher targets for reuse and recycling and new rules on the calculation of the attainment of the targets.

The procedure aims to develop an innovative plastic sorting and reprocessing solution for household plastic waste and similar types of industrial plastic waste from commercial enterprises. The main purpose of the procurement procedure is to identify an innovative solution to the use of resources from plastic waste in a circular economy perspective.

Important requirements for this solution is that it should improve on the current solutions so that plastic waste can be reused and recycled at a price, quality and in a quantity that is actually attractive to companies that use reprocessed plastic in their production. Since the waste stream also includes a mixed plastic and metal fraction from household, the solution must be able to separate the plastic and metal fractions. It is also a requirement that the solution is attractive to the Contracting Authorities and waste management companies that supply plastic waste, in terms of price and quality.

The Contracting Authorities' responsibilities regarding delivery of plastic waste and mixed plastic and metal waste, the duration of the contract etc. will be discussed during the dialogue and specified in the procurement documents before the submission of final tenders.

The contract does not necessarily require the establishment of a new plastic sorting and reprocessing facility. However, CLEAN and the Contracting Authorities have no knowledge of an existing facility that can reuse and recycle plastic at a price, quality and in a quantity that is actually attractive to companies that use reprocessed plastic in their production.

Contracts in relation to the procedure will be concluded separately with each of the Contracting Authorities.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 01/05/2018

This contract is subject to renewal: yes

Description of renewals:

The duration of the contract etc. will be discussed during the dialogue and specified in the procurement documents before the submission of final tenders.

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 4 Objective criteria for choosing the limited number of candidates:

CLEAN will select the economic operators on the basis of the information provided by the economic operators concerning economic and financial standing, cf. part III.1.2), and technical and professional ability, cf. part III.1.3).

As part of the selection, CLEAN will specifically emphasise the following objective and non-discriminatory criteria in relation to the selection:

- 1) The proven technical and professional ability of the economic operators in the fields of innovative solutions regarding sorting and separation of waste;
- 2) The proven technical and professional ability of the economic operators in the fields of reprocessing of plastic waste and sale of reprocessed plastic;
- 3) That the economic operators consists of groups of economic operators or relies on the capacity of other entities from the entire value chain (industry, retail and waste management).

II.2.10. Information about variants

Variants will be accepted: yes

II.2.11. Information about options

Options: yes

Description of options:

Options will be discussed during the dialogue and specified in the procurement documents before the submission of final tenders.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

The use of variants and coordinated tenders will be discussed during the dialogue and specified in the procurement documents before the submission of final tenders.

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

- 1) Economic operators are excluded from participating in the procedure if they have been convicted by final judgement or fined within the last 4 years in accordance with section 135(1) of the Public Procurement Act. In accordance with section 135(2) of the Public Procurement Act, economic operators are also excluded where a person who has been convicted by final judgement or who has been fined for the actions above is a member of the board, management or supervisory committee of the economic operator. Further, economic operators are excluded if the convicted person is authorised to represent, monitor or make decisions in the board, management or supervisory committee of the economic operator.
- 2) Economic operators are also excluded if they have unpaid overdue debt of 100 000 DKK or more to public authorities in accordance with section 135(3) of the Public Procurement Act in relation to payment of taxes and payment of social security. An economic operator is, however, not excluded where the economic operator provides guarantee of payment of the part of the debt which constitutes 100 000 DKK or more, or where the economic operator has agreed on a repayment scheme with the collection authority and that scheme is observed.
- 3) Economic operators are excluded from participating in the procedure if they have are subject to sections 136(1) and 136(2) of the Public Procurement Act or have been subject to the incidents or actions in accordance with sections 136(3) and 137(1)(1-6) of the Public Procurement Act within the last 2 years from the date of the relevant incident or action.
- 4) When an economic operator is formed by a group of economic operators or based on the economic and financial standing of other entities, the economic operators and the entities referred to are subject to joint and severable liability for the performance of the contract.
- 5) When an economic operator is based on the technical and professional abilities of other entities in relation to the performance of specific aspects of the services, the specific aspects of the services shall be performed by the entity on which the economic operator is based.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

- 1) Average yearly turnover in the last 2 financial years available;
- 2) Equity in the last financial year available.

Minimum level(s) of standards possibly required:

Economic operators are required to fulfil both the following minimum requirements:

- 1) Average yearly turnover of minimum 50 000 000 DKK in the last 2 financial years available;
- 2) Equity of minimum 10 000 000 DKK in the last financial year available.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

The main services carried out within the last 3 years, with:

- 1) Description of how the performed service compares to the object of this procurement and its innovative elements;
- 2) Total contract value of the performed service;
- 3) Date of the conclusion of the service contract;
- 4) Name of the public or private recipients of the service.

Minimum level(s) of standards possibly required:

Economic operators are required to fulfil one of the following minimum requirements:

- 1) Performance of minimum 1 service within the fields of innovative solutions regarding waste carried out within the last 3 years;
- 2) Performance of minimum 1 service within the fields of reprocessing of plastic waste and sale of reprocessed plastic carried out within the last 3 years;
- 3) Performance of minimum 1 service within the fields of sorting and separation of waste carried out within the last 3 years;
- 4) Performance of minimum 1 service within the fields of manufacturing of products from reprocessed plastic carried out within the last 3 years.

III.2. Conditions related to the contract

III.2.2. Contract performance conditions

The draft contract is drawn up for the purpose of the dialogue and includes conditions regarding:

- 1) Innovation;
- 2) Intellectual property rights;
- 3) Corporate Social Responsibility;
- 4) Labour clause;
- 5) Employment of trainees and job seekers;
- 6) Warranty
- 7) Guaranty;
- 9) Cross default.

None of the provisions in the draft contract are minimum requirements. Therefore, the dialogue may relate to all provisions in the draft contract.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Competitive dialogue

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8.

Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 18/04/2017 Local time: 12:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

Date: 12/05/2017

IV.2.4. Languages in which tenders or requests to participate may be submitted

English, Danish

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Duration in months: 6 (from the date stated for receipt of tender)

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about electronic workflows

Electronic invoicing will be accepted

Electronic payment will be used

VI.3. Additional information

1) The draft contract and the preliminary technical specifications are drawn up for the purpose of the dialogue. CLEAN intends to draw up a joint set of revised procurement documents with functional requirements which can encompass several technical solutions on the basis of the dialogue and which will be specified before the submission of final tenders. However, CLEAN has no intention of 'cherry picking', forwarding or disclosing confidential information provided by the economic operators during the procedure. Economic operators must therefore clearly mark any sensitive technical elements, business secrets or similar information as confidential if CLEAN cannot incorporate it in the revised procurement documents.

2) All contact prior to the submission of requests to participate and during the procedure must be submitted in writing in either English or Danish to the contact person stated in part I.3).

3) CLEAN will hold an information meeting scheduled to take place in Copenhagen on 13.3.2017. The time and address of the information meeting will be published at the same site as the procurement documents.

4) Prior to the time limit for receipt of requests to participate, CLEAN will submit answers in anonymous form and additional information at the same site as the procurement documents.

5) Requests to participate may be submitted in Danish or in English. Final tenders may only be submitted in English.

6) Economic operators must submit the European Single Procurement Document ('ESPD') as preliminary evidence that the economic operators are not subject to the grounds for exclusion, that the economic operators fulfil the minimum requirements for suitability and of how they meet the objective and non-discriminatory criteria for selection.

7) Requests for participation from a group of economic operators or where the economic operator relies on other entities must include an ESPD Response from each economic operator and other entities with all relevant information. None of the group of economic

operators and other entities may be subject to grounds for exclusion. It is only required that the group of economic operators and other entities altogether fulfil the minimum requirements for suitability.

8) Due to the extensive dialogue procedure and in accordance with section 151(2) of the Public Procurement Act, the economic operators who CLEAN intend to invite to participate in the dialogue must present documentation of the information provided in the ESPD Response. The documentation of not being subject to the grounds for exclusion must be in accordance with section 152 of the Public Procurement Act. Thus, CLEAN cannot accept self-declarations or similar declarations with regard to documents relating to grounds for exclusion. The economic operator must present either annual reports or excerpts hereof or relevant statements from a bank or certified accountant as documentation of the economic and financial standing in part III.1.2) and a list of the main deliveries of services carried out within the last 3 years stating amount and time and the public or private recipient, including contact information, as documentation of the technical and professional ability in part III.1.3).

9) CLEAN will conduct the dialogue in individual and parallel dialogue meetings with the economic operators. CLEAN will not limit the number of solutions during the dialogue. Prior to each round of dialogue meetings, the economic operators must send a consultation paper with specific and thorough input for the upcoming dialogue meeting. The dialogue can be conducted in Danish or English depending on the preference of the economic operator.

10) Economic operators will not receive remuneration for their participation during the dialogue.

VI.4. Procedures for review

VI.4.1. Review body

Official name: Klagenævnet for Udbud

Postal address: Nævnenes Hus, Toldboden 2

Town: Viborg

Postal code: 8800

Country: Denmark

E-mail: klfu@erst.dk

Telephone: +45 35291095

Internet address: <https://erhvervsstyrelsen.dk/klagenaevnet-for-udbud>

VI.4.3. Review procedure

Precise information on deadline(s) for review procedures:

1) Actions regarding requests to participate and selection must be submitted within 20 calendar days from the day after the dispatch of the decisions regarding selection of economic operators to participate in the dialogue.

2) Other actions regarding the procurement, e.g. decisions regarding award of contract, must be submitted within 45 calendar days from the day after the publication of a contract award notice in the Official Journal of the EU.

VI.4.4. Service from which information about the review procedure may be obtained

Official name: Konkurrence- og Forbrugerstyrelsen

Postal address: Carl Jacobsens Vej 35

Town: Valby

Postal code: 2500

Country: Denmark

E-mail: kfst@kfst.dk

Telephone: +45 41715000

Fax: +45 41715100

Internet address: <http://www.kfst.dk>

VI.5. Date of dispatch of this notice

27/01/2017
