

Norway-Bergen: Hire of vessels with crew

OJ S 15/2023 20/01/2023

Contract notice

Services

Legal Basis:

Directive 2014/24/EU

Section I: Contracting authority

I.1. Name and addresses

Official name: Havforskningsinstituttet

National registration number: 971349077

Postal address: Postboks 1870 Nordnes

Town: BERGEN

NUTS code: NO Norge

Postal code: 5817

Country: Norway

Contact person: Tarjei Slemmen

E-mail: tarjei.slemmen@hi.no

Internet address(es):

Main address: <https://permalink.mercell.com/194662059.aspx>

Address of the buyer profile: <http://www.hi.no/>

I.3. Communication

The procurement documents are available for unrestricted and full direct access, free of charge, at: <https://permalink.mercell.com/194662059.aspx>

Additional information can be obtained from the abovementioned address

Tenders or requests to participate must be submitted electronically via: <https://permalink.mercell.com/194662059.aspx>

I.4. Type of the contracting authority

Ministry or any other national or federal authority, including their regional or local subdivisions

I.5. Main activity

Other activity: Government Institute

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

23/00097 Hire of a trawl vessel for 1-3 Barents Sea capelin spawning missions

Reference number: 23/00097

II.1.2. Main CPV code

60651000 Hire of vessels with crew

II.1.3. Type of contract

Services

II.1.4. Short description

The Institute of Marine Research (the Contracting Authority) would like to hire a trawl vessel or a combined ring net/trawl vessel for a period of 14 days to test measuring amounts of the spawning stock of Barents Sea capelin during spawning.

The goal is to get the best possible quantity measurements of the capelin spawn stock in the Barents Sea, in order to evaluate whether this can be included in advice.

The mission is mainly an acoustic trawl mission with acoustic measurements along pre-set course lines and pelagic trawling where there are registrations. See the requirements on an echo sounder in a false keel. In addition, measurements will be taken with sonar.

II.1.5. Estimated total value

Value excluding VAT: 4 000 000,00 NOK

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: NO07 Nord-Norge

II.2.4. Description of the procurement

The Institute of Marine Research will carry out quantity measurements of Barents Sea capelin during spawning in 2023 for 14 days during the period 26 February - 12 March. The missions start and end in Tromsø.

Provided that the Contracting Authority receives the necessary financial grants, the length of the mission will be 14 days. The contracting authority will have the right to extend, shorten or offset the mission by up to 3 days with justifiable cause.

The vessels must be moored in Tromsø for up to one day just before the mission period starts as agreed with the contracting authority for the preparation and calibration of the equipment.

This time must be calculated into the day rate for the mission. The vessels must be equipped with their own pelagic trawls and trawl doors for sampling the capelin.

The mission must be carried out as a trawl acoustic survey with fixed course lines in the spawning area for Barents Sea capelin in the area around Tromsø in the west to the area around Kirkenes in the east. Acoustic registrations will be trawled for taking samples of fish. In addition, CTD hydrographical stations will be carried out at regular intervals in the survey area. The number of representatives on board from the contracting authority will be 5 people. The starting and finishing harbour for the mission is Tromsø.

Bunker must be included in the stated day price. Consumption is calculated in accordance with the following estimates for consumption for the mission, in number of days for:

trawling at a speed of 3 knots: 1 day

acoustic cover of the transect and in transit with a speed of 10 knots: 12 days

equipment calibration, CTD and other at 0 knots: 1 day

Emphasis is put on the fact that the operations pattern for bunker consumption is only an estimate based on the planned mission in question, and the expected activities are subject to change.

The missions will be executed in accordance with the set up and management of the Contracting Authority. The captain must instruct the crew of the vessel to follow instructions and implement work assignments, including rigging of gear and equipment, sampling and tagging, as directed by the mission leader or his representative, as long as this is in-line with

the operation of the vessel. The captain will be responsible for ensuring that the work on board is carried out in a safe way and will also be responsible for safety on board. It is a prerequisite that the captain and crew deem that it is safe to carry out the work.

The vessel must have an available quota of 10 tonnes Barents Sea capelin. During the mission, up to 10 tonnes of capelin will be caught, which is taken from the vessel's own quota and considered non-saleable. Loss of turnover for the part of the catch that goes to research purposes will be compensated by the contracting authority. The compensation is calculated at the end of the year using the average annual price for the relevant target species. Prices are retrieved from Sildelaget and the catch is documented with a copy of the daily catch book.

II.2.5. Award criteria

Criteria below

Quality criterion - Name: The qualities of the vessel / Weighting: 30%

Quality criterion - Name: Environment / Weighting: 30%

Price - Weighting: 40%

II.2.6. Estimated value

Value excluding VAT: 4 000 000,00 NOK

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 26/02/2023 End: 12/03/2023

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 15/02/2023 Local time: 12:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.2.4. Languages in which tenders or requests to participate may be submitted

Norwegian

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Duration in months: 2 (from the date stated for receipt of tender)

IV.2.7. Conditions for opening of tenders

Date: 15/02/2023 Local time: 12:00

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about electronic workflows

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

Official name: Oslo Tingrett

Town: Oslo

Country: Norway

VI.5. Date of dispatch of this notice

17/01/2023
