E-mail: dlt-contrats@eesc.europa.eu

Fax: +32 25468255

Internet address(es):Main address: <http://www.eesc.europa.eu>**I.2. Information about joint procurement**

The contract involves joint procurement

I.4. Type of the contracting authority

European institution/agency or international organisation

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Application of anti-shatter film (ASF) to the glazed facades of an office building in Brussels.
Reference number: CdR/DL/42/2016.

II.1.2. Main CPV code

44176000 Film - FB12

II.1.3. Type of contract

Works

II.1.4. Short description

The aim of the works framework contract is to consolidate 3 glazed facades of the JDE office building, rue Belliard 99-101, to counter the effects of explosions coming from areas that can be accessed by the public or by car.

Anti-shatter film (ASF) must be used for this protection, and its thickness is determined in accordance with the specific glazing request. It should be noted that the ASF's role is to limit the projection of debris into the building in the event of an explosion; it does not strengthen existing glazing.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 165 170,00 EUR

II.2. Description

II.2.3. Place of performance

NUTS code: BE100 Arr. de Bruxelles-Capitale/Arr. Brussel-Hoofdstad

Main site or place of performance: Brussels, Belgium.

II.2.4. Description of the procurement

The contract is divided into 3 sections (A–C); the Committee reserves the right to order them separately. The sections are:

section A: works to apply anti-shatter film for the northern interior glazed facade (rue Belliard)*;

section B: works to apply anti-shatter film for the eastern glazed facade (rue Belliard, Parc Léopold side);

section C: works to apply film for the western glazed facade (rue Remorqueur).

* The northern facade is a 'double skin' facade for which there is no realistic solution to strengthen the external facade, as the latter is considered sacrificial.

Since this work to strengthen the glazing is specific and repetitive, it must be carried out in a professional manner by contractors experienced in these fields.

II.2.5. Award criteria

Quality criterion - Name: quality of the proposed works / Weighting: 60

Price - Weighting: 40

II.2.11. Information about options

Options: no

II.2.13.

Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no
