Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- No tenders or no suitable tenders/requests to participate in response to open procedure
- Extreme urgency brought about by events unforeseeable for the contracting authority and in accordance with the strict conditions stated in the directive

Explanation:

Finnish Mutual Patient Insurance Company conducted an accelerated open procedure for reinsurance services. As no suitable tenderers or tenders were received, the procedure had to be suspended by Finnish Mutual Patient Insurance Company's decision on 24 November 2020. The direct procurement is based on essentially the same terms and conditions as the suspended procurement.

Additionally, it was absolutely essential to conclude the agreement in the meaning of section 40 (2) subsection 4 of the Procurement Act. Finnish Mutual Patient Insurance Company had submitted an application for insurance authorization to the FIN-FSA. A valid reinsurance contract is a crucial risk mitigation technique and thus important in order to maintain a safe solvency capital ratio, which in turn was a condition for granting the authorization before 1 January 2021.
