Postal code: 2860
Country: Denmark
Contact person: Søren Skjoldborg
E-mail: sos@rejsekort.dk
Telephone: +45 70204008
Internet address(es):
Main address: www.rejsekort.dk

I.4. Type of the contracting authority

Body governed by public law

I.5. Main activity

Other activity: Public transportation

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Development, maintenance and support of a mobile solution to Rejsekort A/S enabling validation of transport tickets (rejsekort inspection)
Reference number: D19385

II.1.2. Main CPV code

72200000 Software programming and consultancy services

II.1.3. Type of contract

Services

II.1.4. Short description

The current Rejsekort inspection solution is to be phased out and a new solution installable on mobile devices and running on androidoperative system is to be developed and implemented.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 7 845 250,00 DKK

II.2. Description

II.2.3. Place of performance

NUTS code: DK0 Danmark

II.2.4. Description of the procurement

Since the current Rejsekort inspection hardware is not able to read the Mifare Desfire type of contactless smart Card and will not be further supported in the future, it has been decided to develop a new solution installable on mobile devices. The solution must be delivered by 1 June 2018.

Main business objectives:

The new solution enables traffic operator inspection agents to perform an inspection of Rejsekort travel cards to determine if customers have a valid transport ticket on the inspected Rejsekort, for all offered Rejsekort card types.

Since the traffic operators (PTOs) are responsible for the management of device users, the new solution enables each PTO, either by manual operations or by their own choice of MDM solution, to configure the operation of the application, supporting the minimum needs for operation.

The new solution provides the client application on the mobile device with all relevant data and files, such as transport operator network information, applicable fare rules for the traffic operator, configuration files and data lists currently named as Business Participant List, Black List, Action List.

The new solution supports the exchange of relevant data send and received by the device, enabling the inspector to monitor inspection and return log files, including e.g inspection logs and service level modification logs.

Traffic operator inspection agents will be the only direct users of the application and the new solution flawlessly supports the constantly changing location (Stop points, lines also.) and the several hundreds of broad range transport ticket inspections, which is a natural part of a traffic operator inspection agent working shift.

II.2.5. Award criteria

Quality criterion - Name: Overall quality criterion (with 2 sub-criteria) / Weighting: 65 %

Price - Weighting: 35 %

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Competitive procedure with negotiation

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.1. Previous publication concerning this procedure

Notice number in the OJ S: [2017/S 067-126988](#)

IV.2.8. Information about termination of dynamic purchasing system

IV.2.9. Information about termination of call for competition in the form of a prior information notice

Section V: Award of contract

Title:

Contract on the development, maintenance and support of a mobile solution enabling validation of transport tickets (MARK - Mobil Application for Rejsekort Kontrol)

A contract/lot is awarded: yes

V.2. Award of contract

V.2.1. Date of conclusion of the contract

16/01/2018

V.2.2. Information about tenders

Number of tenders received: 4

Number of tenders received from SMEs: 3

Number of tenders received from tenderers from other EU Member States: 3

Number of tenders received from tenderers from non-EU Member States: 0

Number of tenders received by electronic means: 4

The contract has been awarded to a group of economic operators: no

V.2.3. Name and address of the contractor

Official name: Thales Communication and Security

Postal address: BP 57

Town: Bretigny-sur-Orge Cedex

NUTS code: FR France

Postal code: 91229

Country: France

The contractor is an SME: no

V.2.4. Information on value of the contract/lot

Initial estimated total value of the contract/lot: 10 000 000,00 DKK

Total value of the contract/lot: 7 845 250,00 DKK

V.2.5. Information about subcontracting

Section VI: Complementary information

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

Official name: Klagenævnet for Udbud

Postal address: Nævnenes Hus, Toldboden 2

Town: Viborg
