Internet address: <http://www.olavolsen.no/>**I.2. Main activity**

Port-related activities

I.3. Contract award on behalf of other contracting entities

The contracting entity is purchasing on behalf of other contracting entities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting entity

Dock at Dokken Vest – Phase 1.

II.1.2. Type of contract and place of performance or delivery

Works

Design and execution

Main site or place of performance: Bergen, Norge.

NUTS code NO051 Hordaland

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

A new dock will be built at Dokken Vest in Bergen. The contract concerns Phase 1 and includes:

- project planning of a new pile pier, cement slope and associated back zone;
- dredging to create sufficient depth;
- filling in the back zone and underneath the new dock (about 50 000 m³);
- establishment of an erosion-proof slope;
- acquisition and driving / installation of steel piles;
- construction of pile-dock (about 185 m dock front plus about 45 m section across at the end of the dock);
- preparation of related rear area (approx. 14 000 m²);
- delivery and assembly of diverse equipment for the dock and rear area.

II.1.6. CPV code(s)

71300000 Engineering services, 45000000 Construction work, 45200000 Works for complete or part construction and civil engineering work

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Information about lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

Design and construction of a new dock, with a dock front length of approximately 185 m plus about 45 m, founded on steel piles, including excavation and dredging and filling of approximately 50 000 m³ rock, establishment of erosion control under and in front of the dock, the construction of a back zone of approximately 14 000 m² with subbase, base course and

coatings as well as drainage channels, ducts/culverts and light tower foundations, supply and installation of various dock equipment such as bollards, fenders, ladders, dock-front rails, marker lights, conduits, manholes, electrical outlets, water withdrawal, wastewater receipt and any other.

II.2.2. Information about options

Options: yes

Description of options: A description of the options will be included in the tender documents. These will include 100t or 200t bollards for the adjacent dock, erosion control along the adjacent dock with concrete matting laid on the seabed and the possible demolition of a waterfront building.

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Start 4.7.2014 Completion 3.7.2015

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

The requirements are given in the tender documents.

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

This is stated in the tender documents.

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: Documentation requirement:

- (1) Company registration certificate;
- (2) Tax certificate, not older than six months;
- (3) Value-added tax certificate, not older than six months;
- (4) HSE-declaration.

Foreign companies must submit certification from authorities that correspond to the Norwegian authority, and documentation that the company is registered in a professional register or business register as prescribed in legislation in the country where the supplier is established.

Qualification requirements:

- (1) The supplier shall be a legally established enterprise;
- (2) The supplier shall have an orderly system in relation to payment of tax and VAT;
- (3) The contractor must submit a completed HSE self-declaration.

III.2.2. Economic and financial ability

List and brief description of conditions: Documentation requirement:

(1) The company's last three annual reports and audit reports, as well as new information of relevance to the company's fiscal numbers.

(2) Credit evaluation/rating, not older than 1 year, and which is based on the last known fiscal figures.

Qualification requirements:

(1) The supplier must have the economic capacity to carry out the assignment.

(2) The supplier shall have a good credit rating.

A minimum A-level credit rating, Credit Worthy, concerning solvency, or an equivalent level in another system.

III.2.3. Technical and professional ability

List and brief description of conditions: Documentation requirements:

(1) Description of equipment, machinery or other available production equipment relevant to the performance of this contract.

(2) A statement of the company's total manpower relevant to this mission.

(3) The tenderer's most important deliveries over the last 3 years, including a description of the delivery, their value, time frames and clients;

(4) Reference at least three similar completed assignments, and provide the name and contact information for the clients;

(5) Organizational chart for the contract showing the proposed subcontractors and consultants, as well as cooperation declarations for this project signed by both parties;

(6) Statement of the proportion of the contract which the contractor intends to leave to the subcontractor;

(7) Documentation showing that the local approval for the design and execution will be granted for development class 3;

(8) A statement describing the quality assurance system covering all phases of the production. ISO 9001 or equivalent approved documentation;

(9) A statement describing the environmental control system covering all phases of the production. ISO 14001 or equivalent approved documentation.

Qualification requirements:

(1) A good ability to complete this assignment is required;

(2) Significant experience from similar deliveries is required;

(3) A list of proposed subcontractors, suppliers and consultants is required;

(4) Local approval for the design and execution in accordance with development class 3 will probably be required;

(5) A good, well-functioning quality assurance system is required;

(6) A good, well-functioning environmental control system is required.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

III.3.2. Information about staff responsible for the performance of the contract

Section IV: Procedure

IV.1.1. Type of procedure

Negotiated

Some candidates have already been selected (if appropriate under certain types of negotiated procedures): no

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of the criteria stated in the specifications or in the invitation to tender or to negotiate

IV.2.2. Information about electronic auction

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting entity

IV.3.2. Previous publication concerning this procedure

no

IV.3.3. Conditions for obtaining specifications and additional documents

(except for a DPS)

Time limit for receipt of requests for documents or for accessing documents: ..

Payable documents: no

IV.3.4. Time limit for receipt of tenders or requests to participate

5.3.2014 - 12:00

IV.3.5. Languages in which tenders or requests to participate may be submitted

Other: Norwegian

IV.3.6. Minimum time frame during which the tenderer must maintain the tender

IV.3.7. Conditions for opening of tenders

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:

no

VI.3. Additional information

This announcement applies to level 1 (Pre-qualification and selection of suppliers) for a limited competitive tender.

Entrepreneurs who wish to participate in the tender competition must submit a request to participation before 5.3.2014 at 12:00, with documentation in accordance with III.2)

Requests to participate must be sent to:

Dr. Techn. Olav Olsen AS;

At: Kjell Thorvald Sørensen;

PO Box 139;

1325 Lysaker.

Office Address:

Vollsveien 17A, Lysaker (Note: New address since 1.2.2013).

Type of contract: Turnkey;

The procurement procedure will be: Negotiated competition;

The contracting authority intends to invite at least five tenderers for participation in the competition.

In case the number of qualified contractors requesting participation exceeds the number the contracting authority considers feels appropriate for the competition, the contracting authority will select those contractors who have the best experience from similar assignments, as documented by the tender in accordance with III.2.3), taking into account reference projects such as this contract and how well they met their schedules.

Tender documents should be sent to the invited providers about 21.3.2014, and the contract is expected to be awarded approximately on 7.4.2014.

The tender deadline will be set out in the tender documents.

Completion of the delivery is scheduled to be by the end of June-July 2015.

The time-frame will be specified in the tender documents.

It should be noted that the specified mile posts can be tweaked somewhat.
