II.1. Scope of the procurement

II.1.1. Title

Operational Contract Road 5003 Fosen 2019–2026

Reference number: 18/207081

II.1.2. Main CPV code

63712200 Highway operation services

II.1.3. Type of contract

Services

II.1.4. Short description

The assignment comprises operational and maintenance assignments with functional responsibility for some of the assignments. Statens vegvesen Region midt (the Norwegian Public Roads Administration Central Region) wants tender offers from contractors with the professional, technical and economical basis necessary for fulfilment of the contract.

Furthermore, experience is required from equivalent works, for the execution of the above-mentioned contract work in accordance with the tender documentation. Refer to the supplementary provisions in the pre-qualification documentation.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

45233139 Highway maintenance work, 50230000 Repair, maintenance and associated services related to roads and other equipment

II.2.3. Place of performance

NUTS code: NO061 Sør-Trøndelag

Main site or place of performance: Ørland, Bjugn, Indre Fosen, Åfjord, Roan and Osen.

II.2.4. Description of the procurement

The assignment includes operational and maintenance assignments with functional responsibility for some of the assignments on county roads and county foot/cycle paths with accompanying side facilities, side areas, equipment and installations in Ørland, Bjugn, Indre Fosen, Åfjord, Roan and Osen, in accordance with the road list given in chapter D2-V1.

The work will be settled by round sum for round sum processes, in accordance with amounts and unit prices for other processes such as daywork in accordance with the hourly rates for crew and machines.

The contract period is from 1.9.2019 to 31.8.2026 for all of the described assignments.

The builder has the option to extend the contract for 12 months, from 1.9.2026 until 31.8.2027.

The road network included in the contract (including arms and ramps) consists of:

From 1.9.2019 to 31.8.2021:

A total of 779,175 km roads, of which:

- 756,795 km county roads in Trøndelag,
- 22,38 km county foot/cycle paths in Trøndelag.

From 1.9.2021 to 31.8.2022:

A total of 876,43 km roads, of which:

- 849,179 km county roads in Trøndelag,
- 27,251 km county foot/cycle paths in Trøndelag.

The length of the road network has been changed as the following roads with the accompanying foot/cycle paths have been added to the contract:

- County road 755 Hp 06 km 19,859 up to and including all of Hp 08,
- All of county road 6834,
- All of county road 6838,
- All of county road 6836,
- All of county road 6842,
- All of county road 6840.

From 1.9.2022 to 31.8.2026:

A total of 871,969 km roads, of which:

- 844,718 km county roads in Trøndelag,
- 27,251 km county foot/cycle paths in Trøndelag.

The length of the road network has been changed as county road 720 has been extended to hp 05 km 9,027 with the accompanying foot/cycle path and county road 715 has been withdrawn to hp 17 km 0,150.

The traffic on the road network varies from approx. ADT 30 to approx. ADT 7500 and the expectation is an annual traffic growth of approx. 1,5 %.

The assignment mainly comprises routine operational assignments and minor maintenance assignments for the road network. The assignment also includes inspections and registrations, planning activities, stand-by for winter operations and general traffic flow, documentation, reports to the builder, information to the public and handling other assignments that are necessary for the operation and maintenance of the road network.

II.2.5. Award criteria

Criteria below

Price

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 01/09/2019 End: 31/08/2026

This contract is subject to renewal: yes

Description of renewals:

The Contracting Authority has the option to extend the contract for 12 months.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Tenderers must be a legally established company. Documentation: Company Registration Certificate from the Register of Business enterprises. Foreign tenderers can submit an equivalent certificate in accordance with the legislation in the tenderer's country of establishment.

In the tender offer, tenderers shall present a tax and VAT certificate issued by a competent body in the tenderer's home country or the country where the tenderer is established, which shows that the tenderer has fulfilled their obligations for the payment of taxes, duties and social security obligations. Norwegian tenderers can order the certificate via the Norwegian Tax Authority's website, www.skatteetaten.no. The certificate must not be more than 6 months from the tender deadline.

Tenderers must be certified in accordance with ISO 9001 (2015). Documentation requirement:

- 1) Certificate issued by an independent body that documents that the tenderer is certified in accordance with ISO 9001 (2015). The independent body must be accredited by Norsk akkreditering or equivalent bodies in other EEA countries;
- 2) Other documentation of equivalent quality assurance measures will be accepted if the tenderer, through no fault of their own, does not have the possibility to obtain such certificates by the deadline. This requires that the tenderer documents that these measures are equivalent to the requested environmental management systems or standards;
- 3) If a tenderer will rely on others to fulfil the requirement, an additional account must be given of how the ISO 9001 system for the supporting company will be concretely worked into the contract.

Tenderers must be certified in accordance with ISO 14001 (2015), EMAS (EU Eco-Management and Audit Scheme for environmental management) or Miljøfyrtårn.

Documentation requirement:

- 1) Certificate issued by an independent body that documents that the tenderer is certified in accordance with ISO 14001 (2015), EMAS (EU Eco-Management and Audit Scheme for environmental management), Miljøfyrtårn, or other environmental management standards based on relevant European or international standards from accredited bodies. The independent body must be accredited by Norsk akkreditering or equivalent bodies in other EEA countries;
- 2) Other documentation of equivalent environmental management measures will be accepted if the tenderer, through no fault of their own, does not have the possibility to obtain such certificates by the deadline. This requires that the tenderer documents that these measures are equivalent to the requested environmental management systems or standards;

3) If a tenderer will rely on others to fulfil the requirement, an additional account must be given of how the environmental management system for the supporting company will be concretely worked into the contract

III.1.2. Economic and financial standing

List and brief description of selection criteria:

The tenderer's Annual Financial Statements, Annual Report and audit report for the last 3 years and recent information (quarterly accounts) which is of significance to the tenderer's fiscal figures. The form in chapter E2 point 4 shall be completed.

If relevant; a brief statement on information on the economic conditions or losses that are not documented other places and that are required to be documented in accordance with Norwegian and/or international accounting standards.

If relevant; an overview of any newly performed, ongoing or impending tax or public reviews of the tenderer's business.

If the tenderer has valid reasons for not being able to provide the documentation requested by the contracting authority, the tenderer can document his economic and financial capacity by presenting any other document that is relevant to the fiscal figures/economy and that the Contracting Authority deems suitable. The tenderer shall substantiate why he can't present the documentation required by the Contracting Authority.

Minimum level(s) of standards possibly required:

Qualification Requirement:

Tenderers shall have good economic and financial capacity to fulfil the contract and shall fulfil the following requirements:

- tenderers must have positive equity,
- an average annual turnover of minimum 30 000 000 NOK, for the 3 previous financial years,
- tenderers shall have an equity ratio of at least 10 %.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Relevant experience — documentation requirement:

A list of up to 5 but no less than 3 contracts that the tenderer has carried out or is carrying out in the last 5 years, calculated from the tender deadline. The list shall, cf. the form included in chapter E, include the following for each of the contracts:

- name of the recipient (contracting authority),
- description of what the contract work included, including its relevance for the qualification requirements, points 1 and 2,
- what work was carried out by the tenderer himself and what work was carried out by sub-suppliers (contract facilitators),
- the date of the assignment,
- the value of the contract,
- reference person/contact person at the contracting authority with contact information (telephone number and email address) and a statement of the person's role at the contracting authority during the contract. The tenderer is responsible for ensuring that the reference person is available and will provide a reference.

Builder's experience — documentation requirements:

The qualification requirement is to be documented through the list described above in point 2.4.1).

SHA system, qualification requirements:

The tenderer shall have a system that shows that he works proactively to ensure safety, health and working environment (SHA), with relevance for equivalent works as those comprised in this competition. The system shall be subject to periodic review.

Accident frequency (H1-value):

Qualification Requirement:

Tenderers and their central contract facilitators should have an average H1 value lower than 10 for the last 3 years.

If the H1-value is higher than 10, an account shall be given of the developing trend of the H1-value and possibly the F-value, which will express the severity of any high H1-value.

If the tenderer is a working partnership (supplier consortium), the requirements apply for each of the participants.

The Norwegian Public Roads Administration, Central Region B2 - 5
5003 Fosen 2019–2026.

B Competition rules and qualification requirements.

B2 Tenderers' qualification requirements — tender competition 1.11.2018.

The H1-value is defined as the number of work accidents with absence in relation to the hours worked multiplied by 106.

External environment — qualification requirements:

Tenderers must be certified in accordance with ISO 14001 (2015), EMAS (EU Eco-Management and Audit Scheme for environmental management) or Miljøfyrtårn.

Minimum level(s) of standards possibly required:

Relevant experience — qualification requirements:

Tenderers must have sufficient experience of a relevant nature and degree of difficulty from the following works:

- 1) The main disciplines included in the assignment include: operation and maintenance of roads;
- 2) The following sub-assignments are of significant importance for the contract work:
 - winter operations,
 - clearing traffic areas/traffic objects,
 - construction notification and traffic management.

The builder's experiences — qualification requirements:

The Norwegian Public Roads Administration and other builders' experiences with the tenderer will be assessed.

The tenderer is required to show references to relevant contracts that he has carried out in a satisfactory manner.

Conditions which will be evaluated are related to, a.:

- documentation of completed quality,
- fulfilment of contracts,
- compliance with provisions and procedures for HSE,
- compliance with provisions for wages and working conditions,
- observance of deadlines,
- follow up during the warranty/claims period,
- use of apprentices.

SHA system — documentation requirements:

- 1) Description of the tenderer's system for SHA;
- 2) Table of contents of the system;
- 3) Documentation of audits for recent years, with confirmation from the person/persons who have carried out the audits.

2.5.2

Accident frequency (H1-value).

Documentation requirement:

1) Overview of the H1 value for the tenderer and central contract facilitators in the last three years. By “the tenderer and central contract facilitators” we mean the tenderer themselves, all parties in any working partnerships, as well as any organisations on which the tenderer relies for fulfilment of the qualification requirements;

2) If the H1-value is higher than 10, an account shall be given of the developing trend of the H1-value and possibly the F-value, which will express the severity of any high H1-value. Furthermore, a report shall be enclosed with the tender offer, regarding whether improvement measures are implemented and if so, also documentation on the effect of these measures.

External environment:

Documentation requirement:

1) Certificate issued by an independent body that documents that the tenderer is certified in accordance with ISO 14001 (2015), EMAS (EU Eco-Management and Audit Scheme for environmental management), Miljøfyrtårn, or other environmental management standards based on relevant European or international standards from accredited bodies. The independent body must be accredited by Norsk akkreditering or equivalent bodies in other EEA countries;

2) Other documentation of equivalent environmental management measures will be accepted if the tenderer, through no fault of their own, does not have the possibility to obtain such certificates by the deadline. This requires that the tenderer documents that these measures are equivalent to the requested environmental management systems or standards;

3) If a tenderer will rely on others to fulfil the requirement, an additional account must be given of how the environmental management system for the supporting company will be concretely worked into the contract

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 15/03/2019 Local time: 15:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.2.4. Languages in which tenders or requests to participate may be submitted

Norwegian

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Tender must be valid until: 01/06/2019

IV.2.7. Conditions for opening of tenders

Date: 15/03/2019 Local time: 15:00

Information about authorised persons and opening procedure: The tenders will be opened in the Tender Management Tool. The minutes will be sent to the tenderers after the tenders have been opened.

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about electronic workflows

Electronic invoicing will be accepted

Electronic payment will be used

VI.3. Additional information

A tender conference will be held on 11.2.2019 at 10:00, meet at Ørland Kysthotell in Brekstad.

VI.4. Procedures for review

VI.4.1. Review body
