The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Tenderers must be a legally established company. Documentation: company registration certificate from the register of business enterprises.

Foreign tenderers must instead submit an equivalent certificate as specified by the laws in the country where the tenderer is established.

Tenderers must submit a tax and VAT certificate in their tender, issued by a competent body in the tenderer's home country, or the country where the tenderer is established, which shows that the tenderer has fulfilled his obligations as regards taxes, duties and social security contributions. Norwegian tenderers can order the certificate via the Norwegian Tax Authority's homepage,

www.skatteetaten.no. The certificate must not be older than 6 months calculated from the tender deadline.

Tenderers must be certified in accordance with ISO 9001 (2015).

Documentation requirement:

- 1) Certificate issued by an independent body that documents that the tenderer is certified in accordance with ISO 9001 (2015). The independent body must be accredited by Norsk akkreditering or equivalent bodies in other EEA countries;
- 2) Other documentation of equivalent quality assurance measures will be accepted if the tenderer, through no fault of their own, does not have the possibility to obtain such certificates by the deadline. This requires that the tenderer documents that these measures are equivalent to the requested environmental management systems or standards;
- 3) If a tenderer will rely on others to fulfil the requirement, an additional account must be given of how the ISO 9001 system for the supporting company will be concretely worked in to the actual contract.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

The tenderer's annual accounts, annual reports and the auditor's reports for the last 3 years and recent information (quarterly accounts) that are of significance for the tenderer's accounting figures. The form in chapter E2 point 4 shall be completed.

If relevant: a brief account on information on economic conditions or losses that are not documented other places, and that are required to be documented in accordance with Norwegian and/or international accounting standards.

If relevant: an overview of any recent completed, ongoing or impending tax or public reviews of the tenderer's business.

If a tenderer has a justifiable cause to not present the documentation required by the contracting authority, he can document his economic and financial capacity by presenting any other document that is of relevance for the company's accounting/finances that the contracting authority deems to be suitable. Tenderers must justify why they cannot present the documentation requested by the contracting authority.

Minimum level(s) of standards possibly required:

Tenderers must have good economic and financial capacity to fulfil the contract and they must fulfil the following requirements:

- tenderers must have positive equity,
- an average annual turnover of minimum 20 000 000 NOK, for the 3 previous financial years,
- tenderers shall have an equity ratio of at least 10 %.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Relevant experience — documentation requirement:

A list of up to 5 and no less than 3 contracts that the tenderer has carried out or is carrying out in last 5 years calculated from the tender deadline. The list must, cf. the form included in chapter E, include the following for each of the contracts:

- name of the recipient (contracting authority),
- description of what the contract work included, including the relevance in relation to the qualification requirements, points 1 and 2,
- what work was carried out by the tenderer, and what work was carried out by sub-suppliers (contract facilitators),
- the date of the assignment,
- the value of the contract,
- reference person/contact person at the Contracting Authority with contact data,
- telephone number and email address, and indication of their role at the contracting authority during the contract period. The contractor is responsible for the reference person being available to provide a reference.

The builder's experience — documentation requirements:

The qualification requirement is to be documented through the list described above in point 2.4.1).

SHA system — qualification requirements:

Tenderers must have a system that shows that they proactively work to take care of health, safety and the environment (SHA), with relevance for equivalent work to that covered in this competition. The system must be subject to periodic review.

Accident frequency (H1-value):

Qualification requirement:

Tenderers and their central contract facilitators ought to have an average of the H1-value for the last 3 years that is lower than 10.

If the H1 value is higher than 10, an account shall be given of the development trend for the H1 value and possibly the F value, which expresses the seriousness of any high H1 value.

If a tenderer is a working partnership (supplier group), the requirement applies to each participant.

External environment — qualification requirement:

Tenderers must be certified in accordance with ISO 14001 (2015), EMAS (EU Eco-Management and Audit Scheme for environmental management), or Miljøfyrtårn.

Minimum level(s) of standards possibly required:

Relevant experience — qualification requirement:

Tenderers must have sufficient experience of a relevant nature and degree of difficulty from the following work:

- 1) The main disciplines included in the assignment include: operation and maintenance of roads;
- 2) The following sub-assignments are of significant importance for the contract work:
 - winter operations,
 - clearing traffic areas/traffic objects,
 - construction notification and traffic management.

The builder's experiences — qualification requirements:

The Norwegian Public Roads Administration and other builders' experiences with the tenderer will be assessed.

Tenderers are required to present references for relevant contracts that they have completed themselves in a satisfactory way.

Conditions which will be evaluated are related to, (a):

- documentation of completed quality,
- fulfilment of contracts,
- compliance with provisions and procedures for HSE,
- compliance with provisions for wages and working conditions,

- observance of deadlines,
- follow up during the warranty/claims period,
- use of apprentices.

SHA system — documentation requirements:

- 1) Description of the tenderer's system for SHA;
- 2) Table of contents of the system;
- 3) Documentation of audits for recent years, with confirmation from the person/persons who have carried out the audits.

2.5.2.

Accident frequency (H1-value):

Documentation requirement:

- 1) An overview of the H1 value for the tenderer and central contract facilitators in the last 3 years. The "tenderer and central contract facilitators" means the tenderer himself, all actors in any working partnership, as well as any companies that the tenderer used to fulfil the qualification requirements;
- 2) If the H1 value is higher than 10, an account shall be given of the development trend for the H1 value and possibly the F value, which expresses the seriousness of any high H1 value. Furthermore, the tender must include a separate account of whether any improvement measure have been implemented, and, if so, also documentation of the effect of these measures.

External environment:

Documentation requirement:

- 1) Certificate issued by an independent body that documents that the tenderer is certified in accordance with ISO 14001 (2015), EMAS (EU Eco-Management and Audit Scheme for environmental management), Miljøfyrtårn, or other environmental management standards, based on relevant European or international standards from accredited bodies. The independent body must be accredited by Norsk akkreditering or equivalent bodies in other EEA countries;
- 2) Other documentation of equivalent environment management measures will be accepted if a tenderer cannot present such certificates by the deadline, and this is through no fault of the tenderer. It is a prerequisite that the tenderer documents that these measures are equivalent to the requested environmental management systems or standards;
- 3) If a tenderer will use other companies to fulfil the requirement, an additional account must be given as to how the environmental management system for the supporting company will be concretely worked into the actual contract.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 15/03/2019 Local time: 15:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.2.4. Languages in which tenders or requests to participate may be submitted
Norwegian

IV.2.6. Minimum time frame during which the tenderer must maintain the tender
Tender must be valid until: 01/06/2019

IV.2.7. Conditions for opening of tenders

Date: 15/03/2019 Local time: 15:00

Place:

The tenders will be opened in the Tender Management Tool. The minutes will be sent to the tenderers after the tenders have been opened.

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about electronic workflows

Electronic invoicing will be accepted

Electronic payment will be used

VI.3. Additional information

A tender conference will be held 13.2.2019 at 10:00, meet at Bårdshaug Herregård, Orkanger.

VI.4. Procedures for review

VI.4.1. Review body

Official name: Statens vegvesen Region midt

Postal address: Postboks 2525

Town: Molde

Postal code: 6404

Country: Norway

VI.5. Date of dispatch of this notice

25/01/2019
