The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: yes

Tenders may be submitted for one or more lots

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

The Agreement will be divided into Lots (as listed below) and suppliers may submit proposals for one or more Lots.

Lot 1 – Wireless – This lot is for the design, supply and installation of wireless technology. The wireless technology will need to be able to integrate and complement existing installations where feasible.

Lot 2 – Network Cabling – This lot is for the design, supply and installation of Local cabling systems and subsystem components to include cable, termination hardware, supporting hardware, and miscellany that will provide a complete cabling network that will support voice and data.

Lot 3 – Hardware Infrastructure – This lot will include the supply, maintenance and support of the server and other associated hardware required for the operation of a wireless and or cabling system along with a number of optional upgrades.

Lot 4 – Turnkey Wireless, Network Cabling and Hardware Infrastructure – This lot will include all of the above on a turnkey holistic solution.

Information relevant to all lots

All lots will need to be supported both in terms of maintenance of the installed technology and systems and continual on-going support by accredited engineers. The framework agreement will support and include innovation and incorporate new ideas within scope of the requirement as deemed necessary.

All prices will be based on individual sites undertaking a further competition of their exact requirements. This will be undertaken between those framework suppliers in each relevant lot. It is anticipated that following a further competition event the appointed supplier will be fixed for a period of time to allow standardisation, continuity of supply, service and warranties.
